This lapbook unit has also been designed so that you, the teacher may decide how much content should be included. Choose what best fits your project idea and the age/level of the student(s).

Construction of Lapbooks:

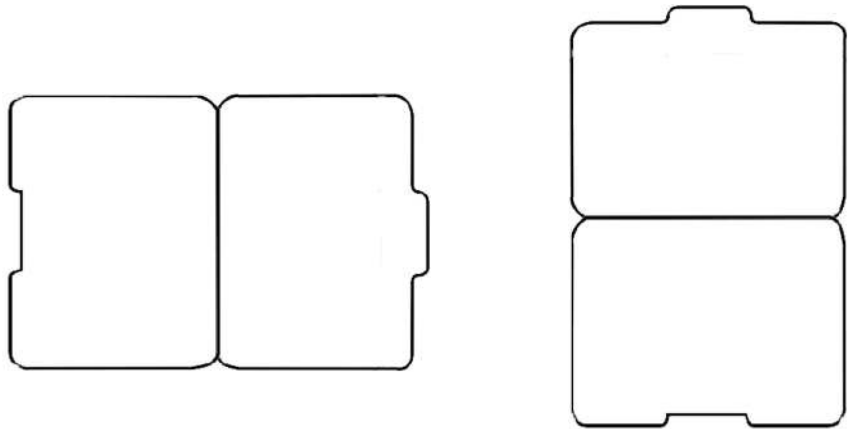

Lapbooks can be simply created using 1 folder (for a quick, simple study) or using multiple folders glued together (for a more in-depth study). On the next page are a few examples to show using 1 or multiple folders.

Placement of items on the Lapbook:

My experience as a teacher has taught me that it is important for students to learn organizational skills early. It is for this reason that I have not designed this unit in the standard way in which each piece has its specific place. *This gives students a chance at organizing and designing their own special lapbook.*

Single folder lapbook:

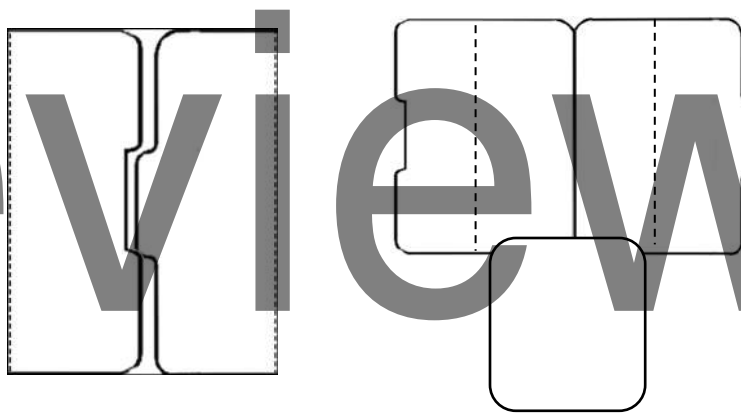

May be placed on it's side to open like a book or turned to open vertically. Covers are placed on the outside as to indicate the opening.

Preview

Single Tri-folds:

Fold each folder in half and fold to create a lapbook that opens in the center.

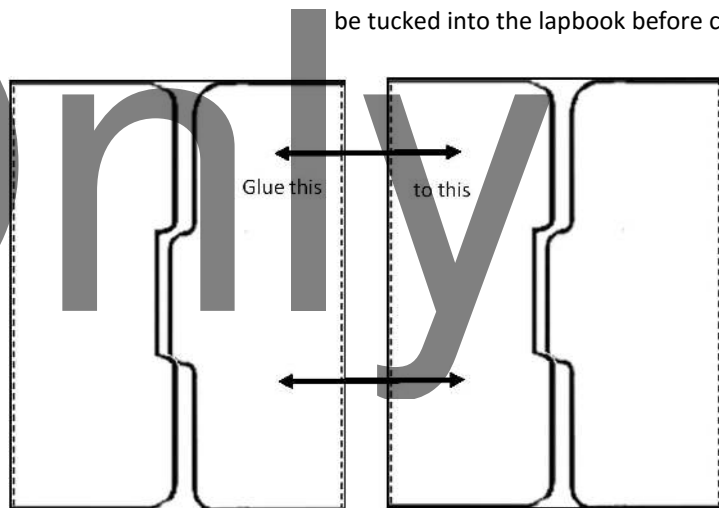

Additional flaps may also be added which can be tucked into the lapbook before closing.

Only

Double Tri-folds:

Using 2 single Tri-folds and gluing together as shown.
