

Dodge Grand Caravan

Northstar[®], Summit[™], and Northstar E[™] Conversions

VMI Northstar®

Power In-Floor Ramp

VMI pioneered the Northstar in-floor ramp system in 1993 to satisfy wheelchair user needs for additional interior space and a safe, clean, obstruction-free vehicle interior. After two decades of refinement, the Northstar remains the most technologically advanced ramp system on the market. The Northstar ramp simply slides out from within the vehicle floor, rather than taking up valuable space inside the vehicle. The significant advantages of the Northstar in-floor ramp system over traditional fold-out ramps make it VMI's best-selling conversion.

Obstruction-Free Doorway

Safe entry and exit without deploying the ramp for able-bodied passengers.

Interior Space

Ample interior space for wheelchair maneuverability.

PowerKneel®

Lowers the vehicle to provide a reduced ramp angle for easy entry & exit. Can be deactivated for deployment onto a curb.

Stowed ramp is protected within the vehicle floor with no squeaking or rattling. In-floor ramp keeps dirt and debris from entering the vehicle cabin.

Sure Deploy®

Provides a simple way to operate the ramp in the event of vehicle power loss.

VMI Summit™

Power Fold-Out Ramp

The VMI Summit fold-out ramp system features a fully powered, fold-out ramp. The Summit ramp stows inside the vehicle cabin and smoothly extends outward when deployed. The ramp is designed with 2" side rails to provide an additional level of comfort when negotiating up and down the ramp.

Easy Access to Door Handle

VMI's Summit ramp does not block the interior sliding door handle.

PowerKneel®

Lowers the vehicle to provide a reduced ramp angle for easy entry & exit. Can be deactivated for deployment onto a curb.

Ramp Perforations

The ramp perforations help remove debris and provide additional traction for wheelchair access.

The anti-rattle mechanism helps to ensure a quieter ride.

Rounded Corners

Rounded ramp corners make it easier to maneuver up and down the ramp in tight parking situations.

VMI Northstar E™

Manual In-Floor Ramp

The Northstar E manual conversion is designed for wheelchair users with caregivers. Its simple design features front-seat wheelchair access and an in-floor, slide-out ramp. With all of the core elements of a functional mobility vehicle, the Northstar E offers practicality, ease of use, and other side-entry benefits at an affordable price. The patented manual in-floor ramp of the Northstar E is easier to stow and deploy than other manual ramp options on the market, and it does not take up valuable interior cabin space when stowed.

Easy Manual In-Floor Ramp

Easy to use for caregivers of any age or size, requiring no bending or heavy lifting.

Flexible Seating Options

Optional single or double flip-up mid-row seating allows a caregiver to sit next to a wheelchair user in the front or mid-row.

The Northstar E has seating capacity for up to 7 people!

Obstruction-Free Doorway

Safe entry and exit without deploying the ramp for able-bodied passengers.

Interior Space

Ample interior space for wheelchair maneuverability.

1 EASY TO USE

2 ELEMENTARY

3 ECONOMICAL

Standard Features

One-Touch Controls

One-touch controls make it easy to deploy or stow the fully powered Northstar or Summit ramp system using the OEM remote, VMI dash button, or other interior vehicle buttons!

Not available on the Northstar E manual conversion.

All VMI van conversions come with 3 year / 36,000 mile* warranty coverage!

** whichever comes first*

Easy Front Row Access

The front row floor is free of obstacles to accommodate wheelchairs in the driver and front passenger positions.

Removable front seats are equipped with rolling casters, making them easy to remove and lock back into place.

Driver seat not removable in the Northstar E.

Front and Mid-Row Access

Wheelchair users can sit in the front row or mid row in any VMI conversion.

Lowered Floor

Allows the wheelchair user a clear line of sight and provides ample headroom for most users.

Engineered to minimize interior noise.

Ground Clearance

High clearance reduces scraping caused by speed bumps, crested pavement, or dips.

100% Crash Tested

Meets or exceeds all Federal Motor Vehicle Safety Standards governed by NHTSA (National Highway Traffic Safety Administration).

Optional Features

Step Flares

- Allows easy access to front-row seating on both driver and passenger sides
- Microspike textured non-slip surface
- 400 lb weight capacity
- Color-matched to each vehicle

Durafloor

- Unique rubberized flooring
- Provides excellent traction for wheelchairs
- Durable and easy to clean
- Full layer of insulation reduces noise

Seating Options

Multiple seating options for VMI's Dodge Grand Caravan conversions allow for independence and flexibility. Wheelchair users can choose to drive from their chair*, sit in the front passenger position, or ride in the middle of the van. This diagram shows just a few of the many possible seating options.

Northstar and Summit

Northstar E

Without Mid-Row Seat

With Single Mid-Row Seat

With Double Mid-Row Seat

*Wheelchair users cannot drive from their wheelchair in the Northstar E conversion because the front driver seat is not removable.

The single and double mid-row seats can fold up when not in use to allow more interior space. Seating options may vary.
