 **Quintro**  
HealthCare

At Quintro Healthcare, we partner with retailers, pharmacies, healthcare providers, aged care facilities, and resellers across Australia.

Whether you're supplying products to customers or supporting patient care, we know how critical reliable supply, quality products, and a team you can count on really are.

Our curated range of mobility and independent living products is designed to support both clinical and everyday environments, helping you deliver better outcomes with confidence.

## Why Partner With Us

### Quality Products, Reliable Supply

Access a carefully selected range of proven mobility and daily living products; ready when you need them. We focus on proven, high-quality solutions across mobility, bathroom safety, daily living aids, and more.

### Real People, Real Support

Our friendly team based in Melbourne, are here to support you and your team.

### Fast Shipping, Same-Day Dispatch

We're committed to dispatching your order on the same day when order is placed before 12pm.

### Stocked Spare Parts

Source replacement parts quickly and easily, so you can keep supporting your customers without delays.

### No Minimum Order Fees

Whether it's one item or a hundred, you're never penalised for a smaller order.

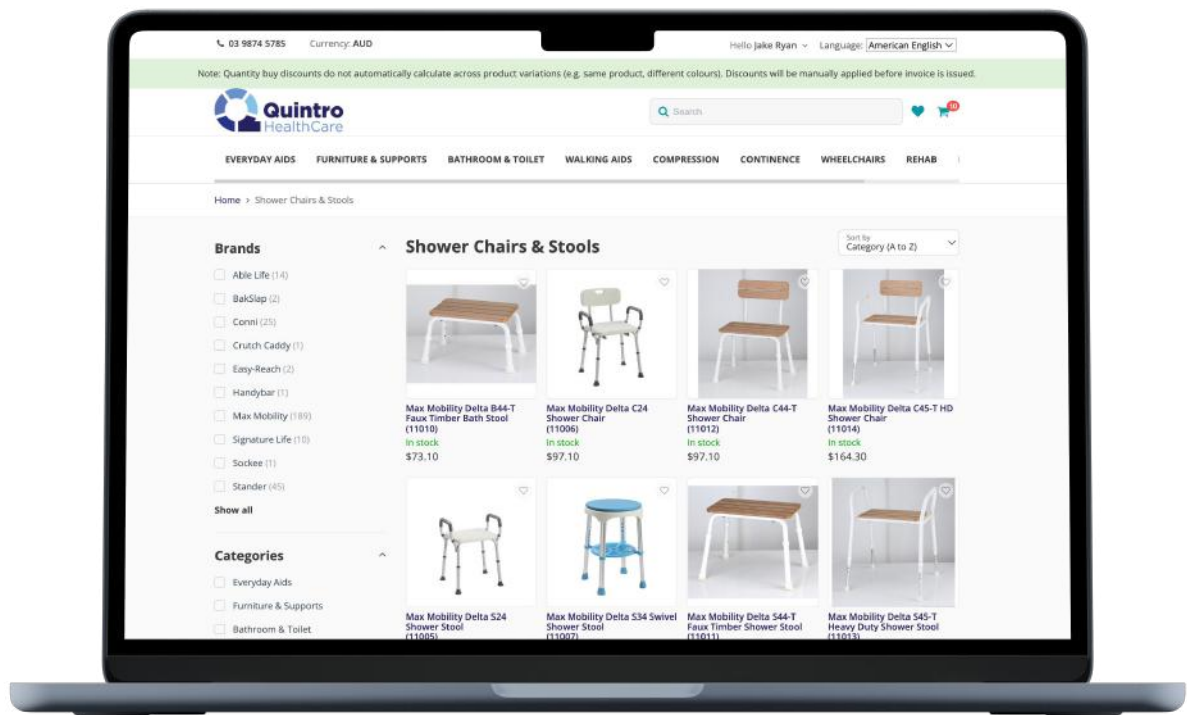

### Drop Shipping Available

If you're an online retailer or prefer not to hold stock - we can offer drop shipping to your customers.

## UriBag

The UriBag® is a convenient solution. Its compact storage tube, efficient shape and Latex construction are superior to any existing product. In every detail, the UriBag® is an improvement for the user. Light, but durable, the UriBag's snap-lock seal does not leak. It is easily stored and can be used discreetly, sealed, then emptied and washed later.

It is even more convenient than adapted urinals. The UriBag® can be carried in a pocket until needed.

For incontinent men who do not wear catheters, the UriBag® is available whenever they need to urinate. It requires only minimal privacy.

For boys and men who are traveling or camping, the UriBag® is a practical solution. Applications for the UriBag® are not limited to medical patients. is a small, well designed urinal that stows neatly into a pocket or handbag.

Conni Chair and Bed pads can be used countless times. They are machine washable and tumble dry safe on a low heat. Being free of chemicals and fragrances and Oeko-Tex accredited they are safe to use against the skin. The waterproof barrier uses a proprietary blend of micro-fibre in place of toxic PVC.

The Conni Absorbent Mat is designed to sit firm and flat on the floor to prevent trips and slips in areas where liquid might spill. It is easy to wash by hand, just rinse with warm soapy water, hose off and leave outside to dry.

## Compression Stocking Solutions

**Quintro HealthCare** is proud to be a chosen supplier of two world renowned brands of true gradient compression medical stockings - Varisan manufactured in Italy, and Therafirm manufactured in the U.S.A.

True gradient compression stockings improve blood flow and are designed to deliver a controlled amount of pressure which is greatest at the ankle of the garment and gradually decreases towards the top of the stocking. This gradient pressure promotes better circulation and helps control swelling, leg fatigue and other problematic leg conditions.

The Italian RAL certified Varisan brand, owned by family company Cizeta Medicali S.p.A., was first launched in 1971. The company itself has been in business since 1872, producing the first elastic stockings in 1936.

Each batch of stockings manufactured is tested to ensure it complies with key international quality standards for compression wear. Product quality is the key to its success on an international scale.

Cizeta Medicali is also a founding partner of eurocom, the European manufacturers federation for compression therapy and orthopaedic devices industry.

Therafirm, a division of Knit-Rite, is a leading USA manufacturer of quality compression hosiery and socks.

For over 50 years Therafirm has been a leader in manufacturing healthy, gradient compression products and innovating the way people view compression. Therafirm products are soft, cool and comfortable for all day wear. Products feature soft, comfort bands on the knee-high stockings and trouser socks, and soft waistbands on pantyhose. All Therafirm gradient compression hosiery garments are made using a Micro-Cool process.

Micro-Cool creates a wicking effect so moisture evaporates from the skin quickly, therefore providing a comfortable coolness.

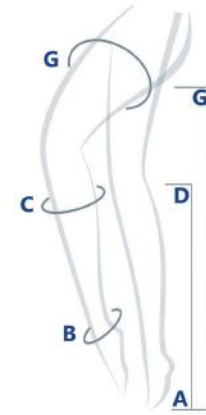

## VARISAN Top

The RAL-certified VARISAN® TOP is made from multifilament yarn that gives the stockings greater softness and breathability, which also makes them easier to wear.

VARISAN® TOP is available in Class 2 in five standard sizes, five plus sizes, and in two lengths.

## Core-Spun Support Socks - for Men and Women

Core-Spun's ultra stretchy yarns make the sock easier to put on and the sock thickness makes them comfortable for all-day wear. Made using moisture wicking yarns to wick moisture away from the skin the socks are comfortable and cool. They are designed to help prevent oedema, leg discomfort, and deep vein thrombosis making them ideal for long distance travellers.
