Established Brand

Now Established in NZ, Cellar Maison is recognised as the leading expert in the UK

Technical Support

Clients and partners receive technical planning and support resource

Bolt-on Services

Climate-control, bespoke elements, cellar doors, installation

Hear from our clients

'I am extremely happy with our wine wall both from a finished product perspective and the professional service and advice received from Cellar Maison throughout. We were able to create a very bespoke product that met our specific requirements; encompassing both a dividing wall with our kitchen and separate wine display cabinet along the back wall. It is certainly the feature of the entire room and a stunning piece of architecture. I would not hesitate to recommend Andrew and his team who were able to bring our vision into an impressive reality'
