UK Bamboo Supplies Ltd. are a leading UK supplier of bamboo fencing, bamboo poles, and bamboo plyboard. Founded in 2004, the business has been supplying the nation with bamboo for two decades and offers the widest range of bamboo materials available on the UK market. Bamboo is an incredibly versatile natural material and we are proud to work with a range of industries. From architects and events professionals, to landscapers and gardeners, there's always a new project on the horizon to supply. Hero projects have included supplying ITV's 'Love Your Garden with Alan Titchmarsh,' having products featured at the climate change conference COP26, and supplying the Eden Project. In 2023, UK Bamboo Supplies Ltd. became an official UK agent of the Dasso Group. Known as 'The Global Innovator of Bamboo Products', the alignment with the Group has expanded our product offering with a range of world-class engineered bamboo solutions: decking, cladding, and lumber.

About Us

Purpose

To supply a sustainable timber alternative and champion the versatility of bamboo.

Mission

To improve the UK's accessibility to bamboo materials by offering the widest range of bamboo poles, fencing and plyboards at affordable prices.

Vision

From the gardener to the conglomerate: To be part of a world where the full potential of bamboo is realised.

Natural Bamboo Geodesic Dome
by Atlas Domes

Bamboo Poles

Sourced from responsibly managed forests around the world, UK Bamboo have visited partner forests in Asia to inspect first-hand the forest management practices. Over time, we have built up a trusted network of partner plantations, meaning the business can import the finest natural bamboo that has been grown in line with best practice.

Our bamboo poles are divided into 3 easy-to-understand categories, based around species and characteristics: Natural, Dark, & Guadua. Sizes range from 20/25mm all the way up to 120/150mm, and also features the world's strongest bamboo: *Guadua angustifolia*.

Natural

The classic golden bamboo and our best selling poles.

Dark

Naturally tall, dark, and handsome. Bamboo known for its good looks.

Guadua

The world's strongest bamboo, loved by artists and architects.

40mm Caramel Bamboo
Kitchen Worktop
(9 Ply)

Bamboo Boards & Veneers

Made from 100% responsibly sourced bamboo. Bamboo plywood offers a sustainable alternative to traditional timber and MDF. As a giant grass, bamboo is a non-timber forest product, but can be used for all the same applications as timber ply.

From 1.35/1.5mm veneers to 40mm worktops:

UK Bamboo Supplies stocks an extensive range of bamboo ply, with products divided into veneers and boards, based on thickness. 1.35/1.5mm, 3mm and 5mm are veneers, while 7mm and above are boards. In addition to thickness, the products are available in a range of plys (from single ply to 9 ply) and presses (side-pressed & plain-pressed).

Side-pressed

Also known as 'Vertical Press'

The faces of the board are made by arranging the bamboo slats on their sides (thin edge), before pressing. This results in a more detailed face.

Plain-pressed

Also known as 'Horizontal Press'

The faces of the board are made by arranging the bamboo slats face-down before pressing. Individual bamboo slat and node details are clearly visible. A 'plainer' look, compared to the side-pressed.

Strand-woven

High-density 'Tiger' bamboo

Bamboo slats are crushed into fibres and combined with resin and subjected to a hydraulic press. The interwoven bamboo strands make this board impact-resistant. The board's face is uniquely striped, earning the name 'Tiger'.

Sizes available

1.35/1.5 & 3mm

- 300 x 200mm (+/- A4)
- 600 x 400mm (+/- A2)

Bamboo and articles of bamboo). **By choosing the products in this range, you are supporting responsible management of the world's forests.** *** Subject to FSC stock availability.

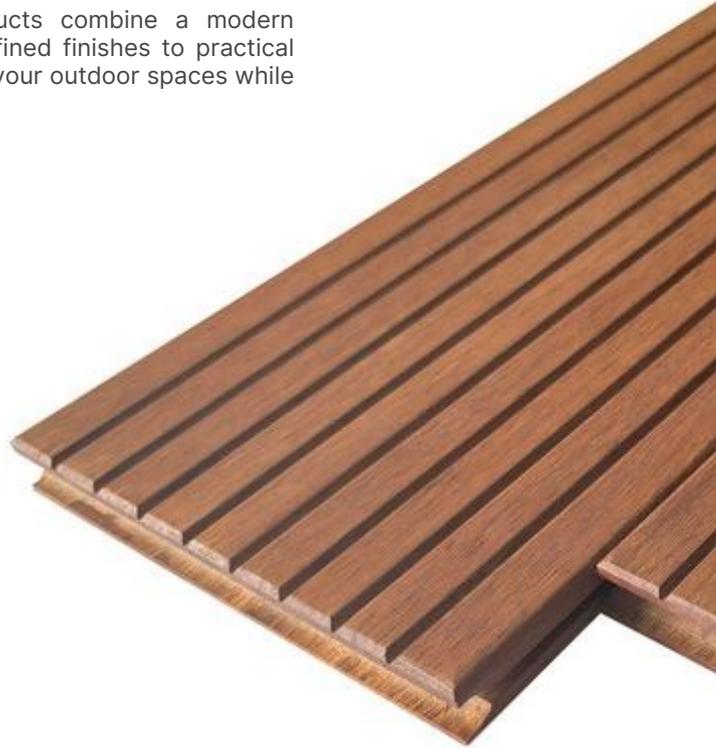

| Bamboo Cladding

Bamboo Decking, Cladding & Fencing

Made from 100% responsibly sourced bamboo, our decking, cladding, and fencing collections offer a sustainable, high-performance alternative to traditional hardwood products. Using advanced compressed bamboo technology, each board is precision-engineered for strength, durability, and long-lasting natural beauty.

Perfect for commercial or domestic projects, these products combine a modern aesthetic with environmental responsibility. From smooth, refined finishes to practical small-groove profiles, each component is designed to elevate your outdoor spaces while standing up to the elements.

The Teak Finish

Our bamboo decking, cladding, and fence posts are supplied in a warm, natural teak tone that adds instant sophistication to any outdoor project. Over time, exposure to the elements will naturally weather the colour to a soft, silvery grey, a characteristic feature of genuine bamboo materials. Prefer to retain or adjust the tone? You can easily preserve the original colour or customise the finish with any standard exterior timber stain or decking oil.

Bamboo Decking

L: 1850 x W: 137 x D: 18mm

A sustainable, high-performance alternative to hardwood decking. Made from compressed bamboo in a natural teak finish, our decking boards are durable, low-maintenance, and designed to weather beautifully to a soft silvery grey.

Feature	Reversible
Colour	Teak
SKU	BDT18

Key Features:

- Reversible: smooth or small-groove profile
- Decking clips and screws included
- 4 boards = $\pm 1\text{m}^2$
- Anti-slip tested
- Can be stained to suit your design
- CE certified & ISO 9001 compliant
- 25-year limited warranty

Bamboo Cladding / Fencing

L: 1850 x W: 140 x D: 14mm

A versatile tongue-and-groove bamboo board designed for use as either exterior cladding or fencing. Smooth-faced with a clean profile, it's perfect for contemporary garden or commercial spaces.

Key Features:

- Dual-use: cladding or fencing
- Smooth finish with tongue & groove connection
- Pair with our Teak Bamboo Fence Posts
- Weather-resistant and low-maintenance
- CE certified & ISO 9001 compliant
- 25-year limited warranty

Feature Tongue & Groove System
Colour Teak
SKU BC/FT14

Bamboo Fence Post

L: 2440 x W: 70 x D: 70mm

Strong, sustainable bamboo posts designed to complement our cladding and fencing boards. Each post includes two grooves for secure tongue & groove installation.

Key Features:

- Designed for UK Bamboo cladding & fencing
- Precision-grooved for easy installation
- Long-lasting and weather-resistant
- CE certified & ISO 9001 compliant
- 25-year limited warranty

Bamboo Roll Screens & Fence Panels

Bamboo fence panels are a firm favourite for those looking to introduce a high-end contemporary look to their outdoor space. Crafted from high quality bamboo, the panels balance strength and durability with an exotic aesthetic guaranteed to transform any garden. The light natural colour of the Tali bamboo brightens dark areas, while the Java Black pairs well with greenery to make vibrant colours pop. Versatile and easy to install, bamboo screens make light work of creating a feature area in the garden or disguising an existing fence.

Bamboo Garden Products

Introduce rustic charm to the garden with a subtle hint of bamboo. Enhance the ambiance of your outdoor space with the gentle sound of the Shishi Odoshi water feature, or give plants a stylish new home with a bamboo planter. Customers have also used the Bamboo Thatch to great effect, particularly in events and interior design, as decoration for tiki bars.

Flexible Bamboo Wall Panelling

A favourite with interior designers for both residential and commercial projects, the Flexible Bamboo Wall Panelling is made from Moso bamboo (*Phyllostachys edulis*) harvested from sustainably managed bamboo forests in Anji County in China.

Choose from 2 styles of panelling

The **Raised Profile** wall panelling features a naturally textured surface with prominent natural nodes, while the **Smooth Profile** wall panelling has been machined smooth with the nodes removed.
