

COLdeROVE
VALDOBBIADENE

*Each Colderove's
bottle has a story
to tell*

Nice to meet you!

Let's introduce ourselves: Attilio Mionetto and Stefano Cadamuro – friends, colleagues, dreamers, and founders of Colderove. This journey started in 1994 in the heart of Valdobbiadene, the cradle of modern Prosecco, after a long period during which we worked together in Attilio Mionetto's family winery. The passion for this land and its vineyards drove us then – and still lives in every bottle of Colderove wine we craft.

Led by our beloved Spago Rosso, Colderove wines reflect the spirit of the UNESCO-protected hills of Valdobbiadene: fresh, vibrant, and full of character. The entire string-tied collection shares the same lightness, liveliness, and fruity elegance that made Prosecco so cherished around the world. Each bottle is hand-tied with a string that is more than just a twine – it's a symbol of the bond between the past and the present, between you and us, who want to share this genuine legacy with joy.

But our passion doesn't stop there. Alongside our signature bubbles, we bring to life a broader mosaic of Italian excellence: from the wonderful hills of Valpolicella with its noble Amarone, to the sun-drenched vineyards of Tuscany, Piedmont, Campania, Apulia, Abruzzo and Sicily. From crisp whites to structured reds, each wine in our collection tells a story of its land, its people, and a way of living that is deeply Italian. With deep gratitude, let's raise our glasses to you – and to the sparkling People of Colderove.

Cheers!
