

# Bamboo Decking, Cladding & Fencing

---

Made from 100% responsibly sourced bamboo, our decking, cladding, and fencing collections offer a sustainable, high-performance alternative to traditional hardwood products. Using advanced compressed bamboo technology, each board is precision-engineered for strength, durability, and long-lasting natural beauty.

Perfect for commercial or domestic projects, these products combine a modern aesthetic with environmental responsibility. From smooth, refined finishes to practical small-groove profiles, each component is designed to elevate your outdoor spaces while standing up to the elements.

## The Teak Finish

---

Our bamboo decking, cladding, and fence posts are supplied in a warm, natural teak tone that adds instant sophistication to any outdoor project. Over time, exposure to the elements will naturally weather the colour to a soft, silvery grey, a characteristic feature of genuine bamboo materials. Prefer to retain or adjust the tone? You can easily preserve the original colour or customise the finish with any standard exterior timber stain or decking oil.

The mark of  
responsible forestry

## FSC® Certified Products *available upon request*

---

UK Bamboo Supplies Limited are FSC certified, licensed to sell the bamboo boards & veneers (1.35/1.5mm - 40mm) under FSC license C193661 (N5. Bamboo and articles of bamboo). **By choosing the products in this range, you are supporting responsible management of the world's forests.** \*\*\* Subject to FSC stock availability.
