Environmental Sustainability

— A Green Future

TRUST strives to be environmentally friendly and stands by strict environmental standards and business practices. We also align with environmental protection institutions and organizations for the undertaking of environmental sustainability. Our research project is effectively reducing the carbon footprint of manufacturing commercial products by means of product innovation.

Our vision is to provide comprehensive working solutions of high quality. By helping people around the world in their day to day working environments, our products improve the lives of them. Environmental sustainability and environmental responsibility are our core competence.

Creation of safe, sustainable products - Trust designs, manufactures, and markets green products. Our environmentally friendly practices are established in order to protect, conserve, and sustain the world's natural resources.

Incorporating environmental campaign into our partnerships – Our green vision lead us to include our business partnerships in seeking the green future. We make every attempt to keep our clients informed of our efforts.

Perfect Waste Management System

We provide you with an efficient, low-cost waste management system. Our products are made of high quality material and have sturdy structure to prolong life.

Cost-Efficient

Our waste collection and transport solutions help reduce the repetition work significantly.

Sustainable Development

All our plastic containers are 100% recyclable.

Multiple Solutions

We provide you with products of various sizes, colors and materials to offer practical waste solutions for any areas at your place.

All-purpose Containers

THOR® Round Containers

Product Features:

1. All-plastic construction will not rust, chip, or peel; resists dents.
2. Comes with an ergonomic handle with a smooth and comfortable feeling.
3. Reinforced rims increase strength and durability.
4. Comes with four trash liner grooves for easy attachment without the need to tie knots.
5. Four vent channels provide 50% less worker exertion when lifting a filled trash liner compared with a traditional container.
6. Bottom hand grips of 30 mm width assist in emptying.
7. Double and ribbed base increases stability and dragging capacity.

Four vent channels provide 50% less worker exertion when lifting a filled trash liner compared with a traditional container.

Reinforced rims add strength and durability.

■ Comes with four trash liner grooves for easy attachment without the need to tie knots.

■ Comes with an ergonomic handle with a smooth and comfortable feeling.

Bottom hand-grips of 30 mm width assist in emptying.

Double-ribbed base increases stability and dragging capacity.

We provide you with products of various sizes, colors and materials to offer practical waste solutions for any areas at your place

Multiple Solutions

Sustainable Development

Good product design, sound recyclability and durability, and use of environmentally friendly materials are our efforts made for environmental sustainability

Smarter Decorative Receptacles

We provide customer with comprehensive, high efficiency and cost-effective waste solution. Trust decorative receptacles are built for modern design, high quality surface treatment and long-lasting performance both indoors and outdoors

Rockface® Containers with Ashtray Top

Product Features:

1. Suitable for entrance to a building, a hall or a shopping center.
2. Comes with a wide opening for easy disposal of refuse.
3. The ashtray is a metal sand plate.
4. Optional faceplate available, which are sold separately.

Rockface® Containers with Funnel-top

Product Features:

1. Fit for applications in catering centers, theater halls or shopping centers.
2. Funnel-opening assists easy sliding entry of wastes.
3. The hinged top can be tied up with a belt for easy access to content.
4. Optional faceplate available, which are sold separately.

Rockface® Containers with Drum-type Top

Product Features:

1. The hinged drum-type top can be tied up with a belt for easy access to content.
2. The top has openings on four sides for easy disposal of refuse.
3. Weather resistant drum-type top ensures normal use under tough weather condition.
4. The container comes with an ashtray which allows for application in the smoking area.
5. Optional faceplates are available, which are sold separately.

Rockface® Faceplates

Product Features:

1. Clean and shiny faceplate for display of information and advertisement.
2. The dent-resistant faceplate supported by ABS is durable, resistant to tough weather conditions.

Grandmaid® Down Press Combos

Product Features:

1. The anti-splash mop bucket and wringer system reduces splashing, which means a safer environment, cleaner floors, and improved productivity.
2. High-efficiency wringer, wrings mop with 18% less effort.
3. Lasts 58 times longer than generic wringers.
4. Made of premium tubular steel and structural web molded plastic to ensure higher durability and toughness.
5. Ergonomically designed handles fit your hands and height, and reduce the need for bending.
6. Non-marking all-plastic wheels reduce the post-job clean-up.
7. Optional dirty water buckets keep the dirty water separate from the cleaning solution.

Ergonomically designed handles fit your hands and height, and reduce the need for bending.

Dirty Water Bucket

1. Keeps the dirty water from clean water.
2. Maintains the cleaning capability of cleanser.
3. Minimizes the consumption of water and chemical.
4. Brings you cleaner floor.
5. Divides the liquid to reduce the bucket weight for lifting and assist in emptying.

7.5 cm non-marking all-plastic wheel.

Wet Mop Selection Guides

Wet Mops

Some points need to be noted in selection of wet mops.

Please follow the selection guide given below to select the best wet mop for your floor maintenance.

Mops for General Cleanings

Mops with excellent absorbency, easy water release and high durability are preferred. If conditions permit, launderable mops are your best choice. Synthetic yarn, rayon and blend mops with looped-end and tailband are most launderable and bring you optimized performance.

Finish Mops

Mops with excellent absorbency, and easy water release are preferred. In addition, looped-end and tailbanded mops cover more floor area per stroke and reduce streaking.

Launderability and Durability :

Launderability is determined by the times to wash and dry the mop before it's worn out. The durability is indicated by the length of time to change a mop. Mops made of microfiber, rayon and blend have the highest durability.

Microfiber

Synthetic

Blend

Rayon

Absorbencies :

Absorbency means the capability to retain liquid. Higher absorbency means shorter duration to dry the floor, higher working efficiency and safer operation. Microfiber, rayon and cotton mops are best in absorbency.

Microfiber

Rayon

Cotton

Blend

Water-release Performance :

Water-release performance means the mop's capability to release water on the floor or during wringing. Stronger water release performance means shorter time needed to wring the mop and effective releasing of cleanser onto the floor.

Microfiber, rayon and synthetic fiber mops have the strongest water release capability.

Microfiber

Rayon

Synthetic

Blend

Cleaning Performance :

It indicates the capability to remove the dust and dirt from the floor.

Microfiber

Antimicrobial

Mop Selection Guides

Some points need to be noted in selection of wet mops. Please follow the selection guide given below to select the best mop for your floor.

General Cleanings

Mops with excellent absorbency, easy water release and high durability are preferred. If conditions permit, launderable mops are your best choice. Synthetic yarn, rayon and blend mops with looped-end and tailband are most launderable and bring you optimized performance.

Finishes

Mops with excellent absorbency, and easy water release are preferred. In addition, looped-end and tailbanded mops cover more floor area per stroke and reduce streaking.

Launderability and Durability

Launderability is determined by the times to wash and dry the mop before it's worn out. Synthetic yarn, rayon and blend mops have the best Launderability.

Water-release Performances

Water-release performance means the mop's capability to release water on the floor or during wringing. Stronger water release performance means shorter time needed to wring dry the mop and effective releasing of cleanser onto the floor. Rayon and synthetic fiber mops have the strongest water release capability.

Absorbencies

Absorbency means the capability to retain liquid. Higher absorbency means shorter duration to dry the floor, higher working efficiency and safer operation. Rayon and cotton mops are best in absorbency.

Durabilities

The durability is indicated by the length of time to change a mop. Rayon and blend Mops have the highest durability. Antimicrobial fiber mops are more durable thanks to its capability to inhibit the growth of bacterial, reduce odor and prevent fading.

Dust Mop Selection Guides

Select best cleaning tools for your facility according to the following guide:

Facility	Best	Better	Good
Hotels	Micro-fiber-dust Mop	Synthetic Dust Mop	Blended
Catering	Micro-fiber-dust Mop	Synthetic Dust Mop	Blended
Health Care	Micro-fiber-dust Mop	Blended Dust Mop	Synthetic Dust Mop
Industrial and Commercial	Micro-fiber-dust Mop	Synthetic Dust Mop	Blended Dust Mop
School	Micro-fiber-dust Mop	Synthetic Dust Mop	Synthetic Dust Mop
Office Building	Micro-fiber-dust Mop	Synthetic Dust Mop	Blended Dust Mop

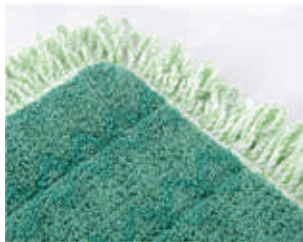

Dust Moppings

Some key factors shall be considered in selecting a dust mop. Please follow the below guide to select best dust mop for your floor.

General Dust Moppings

Durable dust mops with high dust pick-up capacity are preferred. If permitted, launderable dust mops are most cost-efficient choice. Twisted loop mops plus reinforced knitting and easily attachable backing unit bring you best performance and cleaning effects.

Feature of Dust Mop Structures

TWISTED LOOP END

For optimal cleaning of dust and dirt. Twisted loops resist snagging, fraying or unraveling in laundering.

CUT ENDS

Economical construction for general purpose dusting.

REINFORCED KNITTING

Add reinforced knitting on easily-wearing parts for extended service life.

BACKING DESIGN

The backing for easily attaching to and detaching from the frame helps improve your cleaning efficiency.

LAUNDERABILITY

Laundryability of dust mops is determined by the times of laundering and drying before the dust mops become worn-out or under-performing. The synthetic and blended dust mop have the highest laundryability.

DURABILITY

The durability is indicated by the length of time to change a mop. Synthetic and blended Mops have the highest durability. Antimicrobial fiber mops are more durable thanks to its capability to inhibit the growth of bacteria, reduce odor and prevent fading.

DUST PICK UP

Dust Pick-up Performance means the mop's performance to pick up dirt and dust on the floor. Synthetic and blended Mops have the best dust pick-up performance.

Dust Mops

NAELC® Quick Connect Handles

Product Features:

1. Lightweight aluminum construction.
2. Telescoping handle for cleaning of high place.
3. 6415 can be used with TRUST threaded tools.

6415 can be used with TRUST threaded tools.

Microfibre Technologies

10,000 meter of this extremely fine individual threads weigh just 1 gramme! By comparison: microfibres are twice as fine as silk fibres (the thinnest natural fibres), 3 times finer than cotton fibres and 200 times finer than human hair. As a result, they offer a much greater "contact surface" for dirt absorption than the fibres commonly used in mops and cloths. Due to their fineness, microfibres are able to develop a mechanical cleaning activity even in the micropores of surfaces which cannot be registered by the human eye, and easily dissolve dirt and thanks to their hair-like scaly structure, capture them.

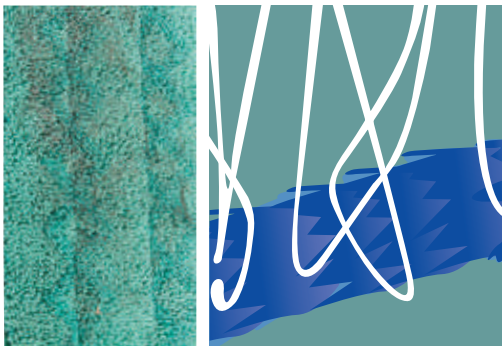

■ Ordinary fiber: cleaning still leave dirt

■ Microfiber: bacteria and dirt can be swept by more than 99.9%

The high-quality microfibre amazing cleaning results, so that the floor becomes more bright.

Premium superfine fibers make your floor brighter

Effectively remove over 99.9% bacteria and dirt with less water (only 1.5 L for every 250 m:)

Increase the cleanliness of floor by 45% than the line mop

25% better cleaning effects than traditional micro-fiber dust pads

Proven Performances To Ensure Healthy, Safe Environments

- Superior microfiber proven to remove microorganisms
- Helps reduce cross-transmission
- Withstands up to 500 commercial laundries

Sustainable Developments Low Cost and High Benefits

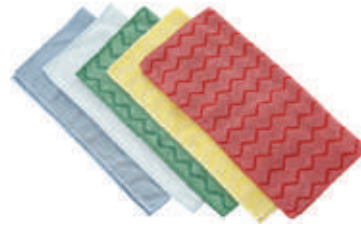

- **Economic Return:** Only need water. Save the cost of chemical detergent by 90%. Cut the cost for disposable items and relevant garbage treatment expense.
- **Social Welfare:** Improve the health and safety of operators by eliminating the use of chemical detergent.
- **Environment Benefit:** Reduce the pollution to the environment by reducing the consumption of water and avoiding the use of chemical detergents.

Microfiber Cleaning System

U-RAG® Microfiber Cloths

Product Features:

1. Double finished edges add durability.
2. Durable construction withstands more than 500 launderings.
3. Allows for sterilization in 100°C hot water without bleaching agent.
4. Color coded products help reduce cross-contamination by differentiating area of use.

Structure of Brooms and Brushes

Proper brooms and brushes shall be selected depending on the floor materials and dirt kinds, in order to improve the cleaning productivity. TRUST provides you with brush heads and bristles applicable for any kinds of floors.

Block Structures

Plastic Foam Blocks
Lightweight, textured surface, durable, resist splitting, deforming and decaying, non-absorbent, extended service life.

Wooden Bodies
Conventional appearance, resist splitting, vulnerable to decay and mildew.

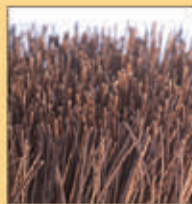

Injection-molded Blocks
Durable, resist splitting, deforming and decaying, non-absorbent, resist bacteria, extended service life.

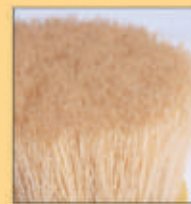

Bristles-natural Materials

Horsehairs
The ends are subject to special treatment to resist breaking and add durability; Resist scratching even on smooth and polish floor; Not fit for applications on oily or warm surfaces.

Palm Leaves
Palm leaf fibers of medium to high hardness are easy to restore its original form after operation; Fit for use on either wet or dry surfaces.

Tampico Fibers
Soft and medium hardness. Tampico fibers are easy to restore its original form after operation; Resists heat, alkaline, solvents and acid; Fit for use on either wet or dry surfaces.

Bristles-synthetic Fibers

Nylons
Very durable and resistant to wear or breaking; Bristles are easy to restore its original form after operation; Resists stain, fade or odor; Fit for use on either wet or dry surfaces; Resists alkaline and most solvents.

Polyvinyl Chlorides
Very durable and resistant to wear or breaking; Bristles are easy to restore its original form after operation, resists stain, water and oil solvents; Not fit for use on residential houses or oily surfaces.

Polypropylenes
Very durable and resistant to wear or breaking; It will neither pollute the floor, nor fade or absorb taste; Resists solvents, acid, oil, bacteria; Fit for use on either wet or dry surfaces.

Bristles-metal Wires

Coppers
Resists wearing, won't leave scratches on even hard surfaces; It will not rust; Best for cleaning surfaces of metal or brick which require no scratching.

Stainless Steels
Resists wearing, water and chemical solutions. It will not rust; Easy to restore its original form after operation; Best for tough cleaning jobs such as removal of residues on metals or other persistent dirt.

Steel Bristles
Resists wearing or corrosion; Easy to restore its original form after operation; Best for tough cleaning jobs such as removal of residues on metals or bricks.

Brooms and Brushes

Angle Brooms

Product Features:

1. Ideal for cleaning hard-to-reach areas.
2. Long-lasting stain-resistant Polypropylene bristles.
3. 6623 body comes with 2 handles attachment positions for 2 different cleaning purposes.
4. 6624 cleans the medium-sized rubbish, such as fine sand, leaves and metal shavings, with large cleaning area.
5. Handle is sold separately.

Model	Description	Dimensions	Color	Pack
6613	Angle Broom, PP Fill	29.0 cm	YEL	12

Washroom

Heimdall® Baby Changing Stations

Product Features:

1. Wide table is equipped with adjustable seat belts, safety and reliability.
2. All plastic web structure ensures strength and durability.
3. Die casting molding is convenient for hanging accessories.
4. The storage units at the top of table is convenient to place baby care products.
5. Closed thickness is only 10.2 cm, save the space.
6. Table is equipped with handle, convenient to open.
7. Built-in shelf and liner storage.
8. Antibacterial technology can inhibit bacteria growth and odor effectively.
9. Meeting the standards of ASTM F2285 and EN 12221-1.

8021

8023

Die casting molding is convenient for hanging accessories. The storage units at the top of table is convenient to place baby care products.

MICROBAN®

Microban® Anti-bacteria Protection Technologies

1. Microban® anti-bacteria technologies provide full protection and resist odor and stain due to bacteria.
2. Microban® anti-bacteria ingredients have been added to the baby changing station during its production for permanent protection.

Plastic sample without Microban® anti-bacteria ingredients.

Plastic sample with Microban® anti-bacteria ingredients.

Innovative Designs

TRUST platform trucks and utility carts provide you with transport facility meeting your demands in any environment.

Resist Distortion, Denting, Breaking, Rusting and Decaying

Tough, resilient surface absorbs impact and provides quiet operation. Virtually maintenance-free; resistant to most chemicals, impervious to water damage, and can be easily cleaned.

Metal: Dents and rests.

Wood: Splinters and rot.

Transport Materials Effectively and Safely

The handle on the cart is adjustable to fit your height and reduce muscle strain.

Polyolefin

Pneumatic

Thermoplastic Rubber

Castors Meeting Your Demands

Select optimized casters for each product through repeated tests to provide you with most effective and durable material transport solution.

Mobile Work Centers

Bitbar® Mobile Work Centers

Product Features:

- 1. Innovative design for easily transporting any items.
- 2. Sturdy structural foam construction wont rust, dent, chip, or peel.
- 3. Molded-in storage compartments and cup holder are available for storage of small items and tools.
- 4. User friendly handles provide comfortable and easy maneuverability.
- 5. 12. 5 cm non-marking casters (two fixed and two swivel with full braking mechanism) ensure easy maneuverability.
- 6. Full extension metal drawers with ball bearing slides are available.

4033

4031

Sturdy structural foam construction won't rust, dent, chip, or peel.

User friendly handles provide comfortable and easy maneuverability and help to reduce wrist and back strain.

Molded-in storage compartments and cup holder are available for storage of small items and tools.

Rounded corners protect walls and furniture.

Two non-marking 12.5 cm casters and two swivel casters with full-locking mechanism.

Sturdy aprons up to 67 mm height prevent items against rolling out.

The top has open-side to enable convenient use.

The grooves on the top prevent small items against rolling out.

Lockable storage compartment helps keep contents secure.

Doors open up to 270 degrees provide easy access to contents.

Three mid-shelves of different height are optional for items of various sizes.

4032

The top has open-side to enable convenient use.

The grooves on the top prevent small items against rolling out.

Lockable storage compartment helps keep contents secure.

Sturdy aprons up to 67 mm height prevent items against rolling out.

Doors open up to 270 degrees provide easy access to content.

Ladder Cart

Product Features:

- 1. For storing and moving 1.8 m ladder without damaging walls, doors or elevators.
- 2. The cart body is made of commercial grade plastic and galvanized steel. Maximum load up to 250 kg.
- 3. Compact design enhances the operability of the cart, and take up less space.
- 4. Cart height is ergonomically designed to offer comfortable working.
- 5. The cart is for storage of ladders and other long objects, and fits for a variety of work environments.

Tool case, can be used as a worktable after being turned over.

Tool Holder, assists easy operation of small tools.

Unlock the buckle to remove the ladder easily.

Lock the buckle to fix the ladder easily.

Sturdy structural foam.

4051

Tool Holder, assists easy operation of small tools.

Two non-marking 12.5 cm casters and two swivel casters with full-locking mechanism.

Select Casters Meeting Your Demands

Every TRUST carts and trucks use top heavy-duty casters to meet every demands.

PP Casters

PP casters are easier to move than soft casters. They are non-marking, resistant to impact and chemical corrosion, and will neither slide off the course, nor get metal debris or nails attached under load. Excellent on surfaces of concrete, wood, carpet and steel.

Pneumatic Casters

Ideal for fragile goods. Let the trucks run quietly on uneven, rough surfaces, just as they are moving on a soft cushion. Excellent on nearly all surfaces, including smooth concrete surfaces and rough gravels.

TPR Casters

TPR casters help reduce shock, protect the floor and run quietly. Excellent on tiles, Terrazzo, wood, smooth concrete, and carpets.

World-class Durability

- TRUST carts outperform the products of our industry peers on the durability test.
- TRUST platform trucks have unique design to ensure long life and to make your job easier.

Advanced Structural Foam Technology

- New technology of low-pressure injection molding has no internal stress.
- Optimized composite structure of the cortex and the core layer gains more bending cross-sectional area for equal amounts of materials and enhances the stiffness of the structure parts.
- Honeycomb core layer has good cushioning performance and better impact resistance.
- Blend structure of plastic and metal has the carrying capacity 50-60% higher than that of traditional products.

Multiple Solutions

- We offer you multiple products in different sizes to meet the demand on various occasions.

Platform Trucks

Oeasy® Platform Trucks

Product Features:

1. Perfect for transporting heavy loads in any environment.
2. User friendly handles help to maneuver the cart and ensure the safety of operators.
3. Molded-in structure adds strength and durability, and prolongs the service life.
4. Textured surfaces for non-skid and safe transporting.
5. Grooves close to edges help prevent small items against rolling out.
6. Notches on both sides are for secure binding of items.
7. Flexible fixing clip helps to prevent accidental release of handle while allowing easy disassembly.
8. Powder coated steel handle is durable.

4411

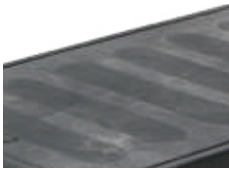

Powder coated steel handle is durable.

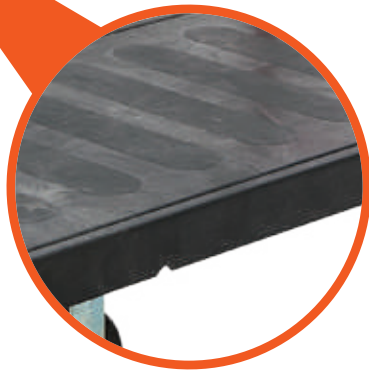

User friendly handles help to maneuver the cart and ensure the safety of operators.

Grooves close to edges help prevent small items against rolling out.

Textured surfaces for non-skid and safe transporting.

Notches on both sides are for secure binding of items.

Oeasy® Panel Platform Trucks

Product Features:

- 1. Designed to deliver small parcels and small objects.
- 2. Powder coated fence around the truck ensures effective protection of objects to be transported.
- 3. Fence is removable to allow for transporting jumbo size object.
- 4. User-friendly handrails add to easy maneuverability and higher worker safety.
- 5. Sturdy and durable structural foam construction adds to durability and service life of the cart.
- 6. Designed with elastic retaining clip to effectively prevent the handrail against coming off; and offer easy disassembly/assembly.
- 7. Powder-coated steel handrails ensure durability.
- 8. Two directional casters plus two universal casters ensure easy maneuverability.

Fence is easy to dismantle for accommodating objects of various sizes.

User-friendly handrails add to easy maneuverability and higher worker safety.

Powder coated steel handle is durable.

Flexible fixing clip helps to prevent accidental release of handle while allowing easy disassembly.

Two directional casters plus two universal casters ensure easy maneuverability.

Textured surfaces for non-skid and safe transporting.

Utility Trolleys

Product Features:

1. Efficiently transports large bulky loads, and then folds flat for easy storage.
2. Sturdy structural foam deck won't rust, dent, chip, or peel.
3. Non-skid platform surface helps prevent load shifting.
4. Three-position handle lets users push, pull or fold flat for use as a dolly.
5. Casters are non marking.

4482

Three different positions of the handle, provide greater flexibility, and convenience store

Totes Trolleys

Product Features:

1. Used to load Large Totes (3011/3012) and 55.5 x 35.0 cm Containers.
2. Has maneuverability of carrying heavy objects.
3. Sturdy structural foam construction won't rust, dent, chip, or peel.
4. Non-marking swivel casters ensure easy maneuverability.

Has maneuverability of carrying heavy objects.

Stackable for convenient storage and space saving.

Tilt Trucks

Rotomolded Tilt Trucks

Product Features:

1. Fits through standard commercial doorways and onto elevators easily.
2. Angle design of front end assists in emptying.
3. Industrial strength trucks handle heavy loads with ease.
4. Insert wheel position helps prevent damage to walls, equipment and customers.
5. Smooth surfaces are easy to clean and resist corrosion.
6. Optional hinged domed lid available.

4512

Heavy-duty Towable Tilt Trucks

Product Features:

1. Heavy-duty tow bar, hitch and frame for multiple truck towing and training.
2. Pneumatic wheels for smooth movement over multiple terrain surfaces or stairs.

4532

Model	Description	Dimensions	Load	Color	Pack
4532	Heavy-duty Towable Tilt Truck	183.2 x 85.1 x 111.4 cm	950 kg	BLA	1

Heavy-duty Forkliftable Tilt Trucks

Product Features:

1. Fully compatible with forklifts.
2. Multi-purpose durable welded fork pockets.

4542

Model	Description	Dimensions	Load	Color	Pack
4542	Heavy-duty Forkliftable Tilt Truck	183.2 x 85.1 x 111.4 cm	570 kg	BLA	1

Structural Foam Tilt Trucks

Product Features:

1. Molded construction adds to strength, transports heavy loads with ease.
2. Easy access to standard doors and lifts.
3. Non-marking wheels, non marking on the floor, reduce the post-job clean-up.
4. Easy operation for single persons.
5. Easy to clean, maintenance-free.
6. Optional hinged domed lid available.

4611

Storage and Organization

Shelving Systems

Product Features:

1. Stores, organizes, and transports in style with these durable, and attractive shelving units.
2. Stationary shelves feature molded feet for added stability.
3. Mobile shelf trucks come with 4 casters (two with brake).
4. Locking doors are optional for 3711, 3712, 3716.
5. Units are available with four, five or six shelves and a variety of heights up to 184 cm.
6. Shelves feature aluminum uprights for appearance and durability.
7. Steel bar reinforced molded shelves support higher load.
8. Textured shelves have higher load capacity.
9. Large shelves hold a variety of equipment and supplies.

3716

3717

Enclosed panels (3719) and lockable doors (3718) are available for 3711/3712/3715/3716.

Multi-function Ladders

Product Features:

1. Complies with the requirements of ANSI 14.2, AS/NZS 1892.1 and EN-131.
2. Patented auto-locking hinge design.
3. Triple modes of A-shaped ladder, straight ladder and extension ladder.
4. Made using premium quality lightweight aluminium, with outstanding strength and durability.
5. Non-slip step design for safety.
6. Reliable soft tips.
7. Can be folded down to save space and transportation costs.
8. Can be folded up to four times of length.

6945 Schematic Work Status

6945

6946

Can be quickly converted into a straight ladder, high operating convenience.

Can be used on the stairs, safe and reliable.

Storage Pallets

Product Features:

1. For overflow operation as drum filling and sub-packaging, chemical and electrolyte storage etc.
2. It prevents leakages of most chemicals including acids, alkaline and corrosive liquids.
3. Molded construction adds to strength, strong and durable, will not rust, dent, chip, or peel.
4. Removable grids for gathering leaked liquids.
5. Optional 4503 slopes for handling heavy drums; rubber strips on surface assure safety.
6. Non-forklifting; no IBC containers allowed.

Nestable Pallets

- Product Features:
- 1. Structural foam molded handles ensure strength and durability.
 - 2. Nestable stacking, easy to clean, light weight.
 - 3. Made of HDPE materials, recycling use offers low cost.
 - 4. Materials comply with the requirements of domestic and foreign regulations on the Food and Drug Sanitation.

PNB1210

Stacking coefficient (2.2), to save storage space of the pallet.

Designed for easy entry of forklift to save the time and make job simple.

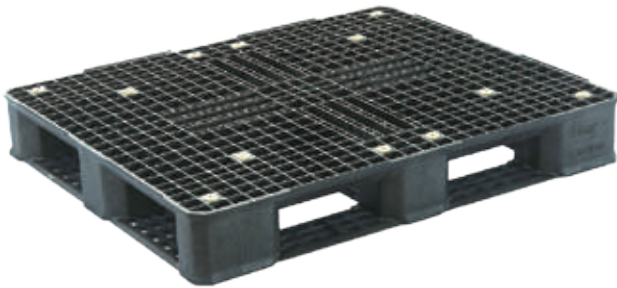

Vents are available on areas prone to water accumulation, so as to eliminate the possibility of water accumulation even when kept in open air.

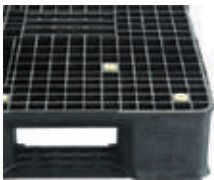

Model	Description	Dimensions	Fork height	Load(Static/Dynamic)	Color
PNB1111	Nestable Pallet	110.0 x 110.0 x 14.7 cm	9.5 cm	2500 kg / 1000 kg	BLA

PNB1210	Nestable Pallet	120.0 x 100.0 x 14.8 cm	9.8 cm	2500 kg / 1000 kg	BLA

Shelf Pallets

- Product Features:
- 1. Structural foam molded handles ensure strength and durability.
 - 2. Easy to clean, light weight.
 - 3. Made of HDPE , which can be used repeatedly for low cost.
 - 4. Integral double-sided plastic pallet structure fits for stacking, shelving systems and cargo transportation.
 - 5. Designed with consideration for cleanliness and sanitation, helpful for reduction of cleaning frequency.
 - 6. Pallet design is CAE optimized to attain lightweight and more load capacity.

PRB1210

Designed for easy entry of forklift to save the time and reduce the possibility of damage.

The solid, extra-thick base ribs are purposely arranged to increase the strength of pallet base, thus enhance its shelving and stacking durability.

The grid structure allows for easy and simple cleaning, and eliminates the problem of water accumulation even stored in open air.

Model	Description	Dimensions	Fork height	Shelf Load(Static/Dynamic)	Color
PRB1210	Shelf Pallet	120.0 x 100.0 x 16.7 cm	9.4 cm	13500 kg / 2300 kg	BLA

Stacking Pallets

Product Features:

1. Structural foam molded handles ensure strength and durability.
2. Easy to clean, light weight.
3. Made of HDPE, which can be used repeatedly for low cost.
4. Pallet design is CAE optimized to attain lightweight and more load capacity. Patent leg design for easy servicing.
5. All-plastic structure and smooth surfaces reduce the possibility of damage to products.
6. Materials are in compliance with the requirements of domestic and foreign laws/regulations on food and drug sanitation.

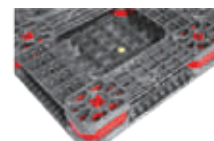

PSB1210

Patent detachable legs can be easily replaced when the pallet is partially damaged.

The round corner of leg and the bevel angle of top and base plates are designed for easy operation of forklift.

Extra-large area base plate ensures maximized contact area between the material and the plate to enhance the stacking stability.

Model	Description	Dimensions	Fork height	Load (Static/Dynamic)	Color
PSB1210	Stacking Pallet	120.0 x 100.0 x 14.9 cm	7.6 cm	4500 kg / 1200 kg	BLA

Heavy-load Bulk Containers

Product Features:

1. Structural foam molded construction ensures strength and durability.
2. Easy to clean, light weight.
3. Provide reliable protection to contents when used in picking, assembling, processing, warehousing and logistics operation in various industries.

BCHA4845-39

Large size flip door for easy loading and unloading of cargo.

Comes with a top cover with drainage and locking functions. Superior durability; and capable of preventing dust contamination to the contents.

The bulk container can be folded to save storage space and reduce transport cost.

Model	Description	Container External Dimension	Container Internal Dimension	Load	Color

Better Food Services

Our innovative products can ensure food freshness, reduce costs, and service for all your needs.

Sustainability Commitment

Good product design, sound recyclability and durability, and use of environmentally friendly materials are our efforts made for environmental sustainability, so that people can live and work in a more beautiful environment.

Safety Commitment

Our products meet food preparation, storage and transport industry standards.

Food Storage

Food Material Storage Bins

Product Features:

1. Designed with a connected lid and a separate spoon to enable fetching materials with only one hand, for higher work efficiency.
2. Designed with a transparent lid to quickly identify the type of contents and allows for easy inventory management.
3. Smooth walls assist easy cleaning without leaving behind any dirt.
4. All plastic web structure ensures strength and durability.
5. The lid is easy to open for higher work efficiency.
6. Found in compliance with NSF standards.

Model	Description	Dimensions	Capacity	Color	Pack
8411	Food Material Storage Bin	74.3 x 33.4 x 75.5 cm	80 L	WHT	1
8412	Food Material Storage Bin	74.3 x 39.4 x 75.5 cm	100 L	WHT	1
8413	Food Material Storage Bin	74.3 x 45.7 x 75.5 cm	120 L	CLR	1
8414	Spoon	27.4 x 12.2 x 12.0 cm	1 L	CLR	6

Storage Bin Lid

Model	Description	Fits material storage bin	Dimensions	Pack
8415	Storage Bin Lid	Fits 8411	73.7 x 30.7 x 4.8 cm	1
8416	Storage Bin Lid	Fits 8412	73.7 x 36.8 x 4.8 cm	1
8417	Storage Bin Lid	Fits 8413	73.7 x 43.7 x 4.8 cm	1

Shelf-type Raw Food Material Containers

Product Features:

1. A storage system that can still allow you to obtain raw food materials when stacked, providing space utilization.
2. Specially designed slide lid and spoon allow you to obtain raw materials with only one hand, improving work efficiency.
3. Transparent lid for quick raw materials identifying and inventory management.
4. "First in, first out" design to ensure food circulation and food quality.
5. Smooth inner wall for easy cleaning without leaving any dirt.
6. Durable plastic mesh structure.
7. The lid is easy to open, improving work efficiency.
8. In compliance with NSF standards.

Model	Description	Dimensions	Capacity	Color	Pack
8418	Shelf-type Raw Food Material Containers	38.1 x 29.8 x 21.6 cm	10 L	WHT	1
8419	Shelf-type Raw Food Material Containers	59.7 x 29.2 x 42.9 cm	23 L	WHT	1
8420	Shelf-type Raw Food Material Containers	59.7 x 48.8 x 42.9 cm	47 L	WHT	1

Spoon

Model	Description	Dimensions	Capacity	Color	Pack
8433	0.5-Cup Measuring Spoon for 8418	18.7 x 8.6 x 3.8 cm	0.12 L	CLR	1
8434	2-Cup Measuring Spoon for 8419, 8420	11.7 x 13.0 x 13.3 cm	0.48 L	CLR	1

A storage system that can still allow you to obtain raw food materials when stacked, providing space utilization.

THOR® Food Storage Boxes

Product Features:

1. A must-to-have container for storage and moving.
2. Ribs on the bottom prevents damage on dragging.
3. Ergonomic handles offer comfortable feeling, and resist hand injuries.
4. Come with a tight lid. The best choice for the storage of food.
5. Found in compliance with european food safety standards and NSF standards.
6. Work with dollies to carrying heavy loads fast and convenient.

3011

3012

Model	Description	Dimensions	Capacity	Color	Pack
3011	Food Storage Box with Lid	70.8 x 43.4 x 27.2 cm	53 L	WHT,RED,YEL,GRN BLUE,CLR,GRAY	6

THOR® Stackable Food Containers

Product Features:

1. For cost-effective storage and transportation.
2. Fits 120 x 100cm pallets with no overhang.
3. Nestable for efficient storage and transport.
4. Stackable with and without lids.
5. All-plastic construction will not rust, dent, chip, or peel.
6. Rounded corners and smooth surfaces are easy to clean.
7. Complies with the requirements of NSF #2.

3021/3023

Model	Description	Dimensions	Capacity	Color	Pack
3021	Stackable Food Container	59.2 x 39.2 x 27.0 cm	40 L	WHT,RED,YEL, BLUE,GRN	6
3022	Stackable Food Container	59.2 x 39.2 x 36.0 cm	55 L	WHT,RED,YEL, BLUE,GRN	6
3023	Lid for 3021/3022	60.0 x 40.0 x 3.3 cm	N/A	WHT,RED,YEL, BLUE,GRN	6

Goods Shelves

Product Features:

1. Designed for storage of frozen, refrigerated or dry goods.
2. Structural foam molding ensures strength and durability.
3. The hollow pad offers maximized ventilation for perishable or dry goods.
4. The pad height meets NSF standards.
5. 4491 and 4493 Lock catches can lock goods shelves together for better stability.

Lock catches can lock goods shelves together for better stability.

4493	Goods Shelf	152.0 x 53.3 x 30.5 cm	1360 kg	BLA	1

THOR® Square Food Containers

Product Features:

1. Square shape offers up to 27% more capacity than round containers.
2. Comes with an ergonomic handle with a smooth and comfortable feeling.
3. Reinforced rims add strength and durability.
4. Thick walls up to 4 mm add strength and durability.
5. Bottom hand grips of 30 mm width assist in emptying.
6. Tight fitting lids help protect the contents.
7. Square dollies are available to ensure easy mobility and maneuverability of heavy loads.

THOR[®] Fresh Fruits and Vegetables Storage Bin with Lid and Cart

Product Features:

1. An ideal solution for storage, washing, drying and flavor-maintaining of fresh fruits and vegetables.
2. Comes with an embedded-in tank to receive water flowing through the filter disc.
3. Equipped with an easily detachable cart for easily transporting the bin from unloading area to the cleaning area and cold storage area.
4. Accompanied with a tightly-fit lid to keep the contained fruits and vegetables fresh and clean.
5. Seamless construction and smooth interior walls ensure easy cleaning.
6. For storage of oranges, strawberries, tomatoes and other fruits and vegetables.

Model	Description	Dimensions	Capacity	Color	Pack
8421	Fresh Fruits and Vegetables Storage Bin with a Lid and a Cart	57.2 x 85.1 cm	75 L	WHT	1
8422	Fresh Fruits and Vegetables Storage Bin with a Lid and a Cart	63.5 x 97.8 cm	121 L	WHT	1

THOR[®] Ice Buckets

Product Features:

1. Ensures safe delivery of ice.
2. All-plastic construction will not rust, chip, or peel; resists dents.
3. Comes with an ergonomic rounded handle providing comfortable feeling.
4. Reinforced rim adds to strength and durability.
5. Bottom hand-grips of 30 mm width assist in emptying.
6. Bucket surface is printed with the name of the food for easy recognition.
7. Found in compliance with NSF # 2 inspection standards.

Model	Description	Dimensions	Capacity	Color	Pack
8431	Ice Bucket	40.0 x 44.0 cm	38 L	WHT	6
8432	Ice Bucket	49.0 x 57.0 cm	75 L	WHT	6

Round Storage Containers

Product Features:

1. Stores food safely and conveniently.
2. Two models available with white polyethylene or semi-clear polypropylene, for better visibility.
3. Easy-to-clean cover.
4. Operates where the temperature is between -34° C and 100° C.
5. Compiles with the requirements of NSF 3A and NSF 2.

Lid in special design is convenient to open.

Semi-clear Polypropylene Round Storage Containers

Model	Description	Dimensions	Capacity	Color	Pack
8311	Round Storage Container	21.6 x 10.2 cm	1.9 L	STRAN	12
8312	Round Storage Container	21.6 x 19.7 cm	3.8 L	STRAN	12
8313	Round Storage Container	25.4 x 19.4 cm	5.7 L	STRAN	12
8314	Round Storage Container	25.4 x 27.0 cm	7.6 L	STRAN	12
8315	Round Storage Container	33.3 x 20.6 cm	11.4 L	STRAN	6
8316	Round Storage Container	33.3 x 30.2 cm	17.0 L	STRAN	6
8317	Round Storage Container	33.3 x 35.6 cm	20.8 L	STRAN	6
8318	Round Storage Container with Bail	33.3 x 35.6 cm	20.8 L	STRAN	6

Polyethylene Round Storage Containers

Model	Description	Dimensions	Capacity	Color	Pack
8321	Round Storage Container	21.6 x 10.2 cm	1.9 L	WHT	12
8322	Round Storage Container	21.6 x 19.7 cm	3.8 L	WHT	12
8323	Round Storage Container	25.4 x 19.4 cm	5.7 L	WHT	12
8324	Round Storage Container	25.4 x 27.0 cm	7.6 L	WHT	12
8325	Round Storage Container	33.3 x 20.6 cm	11.4 L	WHT	6
8326	Round Storage Container	33.3 x 30.2 cm	17.0 L	WHT	6
8327	Round Storage Container	33.3 x 35.6 cm	20.8 L	WHT	6
8328	Round Storage Container with Bail	33.3 x 35.6 cm	20.8 L	WHT	6

Lids

Product Features:

1. Double wall insulated lock is easy to use and keeps food fresh.
2. Unique way to hold, easy and stable.
3. Taggable with customized notes.
4. Three sizes available to fit up to 8 different kinds of containers.

Round Storage Container Lids

Model	Description	Dimensions	Color	Pack
8331	Lid for 8311,8312,8321,8322	22.2 x 2.2 cm	YEL	12
8332	Lid for 8313,8314,8323,8324	26.0 x 2.5 cm	YEL,NAT	12
8333	Lid for 8315,8316,8317,8325,8326,8327	34.0 x 3.0 cm	YEL,NAT	6

Food Pans

Product Features:

1. Makes preparing, cooking, serving and storing effortless.
2. No Bisphenol A, Effectively preventing food safety risks.
3. Resistent to rust, dent, twist, odor and cross contamination.
4. The reaction does not occur with the risk of food to reduce the potential for chemical reactions or acid reaction.
5. Effectively prevent cross-contamination.
6. Non-stick feature makes cleaning easier.
7. Complies with the standards of EN 631-1.
8. Complies with the requirements of NSF #2.

Cold Food Pans

Product Features:

1. Temperature rated: -40°C to 100°C.
2. Microwave safe.
3. Not for use in steam table wells.

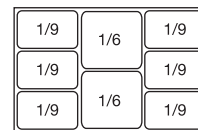

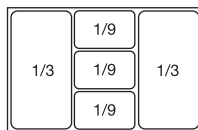

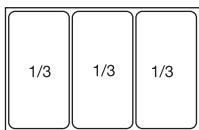

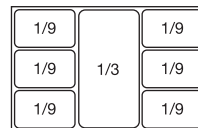

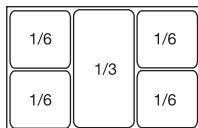

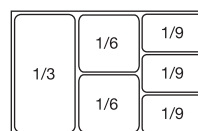

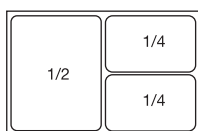

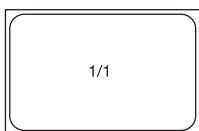

Hot Food Pans

Product Features:

1. Lessens the work load and costs of operation over preparation, freezing, baking and steaming.
2. Temperature rated: -40°C to 190°C.
3. Steam table well and microwave safe, not for ues open flame.
4. Cooler to the touch than metal.

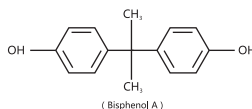

Food Pan Layout

Tritan™ is a new generation of copolymerization of polyester belonging to Eastman company, and it passed the FDA certification.

- 1. Tritan do not contain bisphenol A (BPA). In polymerization and using processing, Tritan don't have chemical composition and BPA, which accorded with environmental protection and the FDA requirements.
- 2. Tritan is transparent with crystalline luster, light transmittance is greater than 90%, the haze is less than 1%.
- 3. Tritan is a tough and durable material that can maintain functional and aesthetic integrity over a long product life. Tritan compares favorably with PC in notched Izod impact tests. At 1/4" thickness, PC demonstrates low energy absorption and brittle failure, while Tritan continues to demonstrate high energy absorption (exceeding 15 ft-lb/in.) and ductile behavior.
- 4. Tritan offers a unique balance of properties than results in greater dishwasher durability. Because parts made from Tritan combine greater hydrolytic stability and lower levels of residual stress, they can stand up to many chemically harsh environments without crazing, cracking or hazing.
- 5. Tritan has a higher glass transition temperature (T_g) than traditional copolyesters, which can provide greater ability to withstand higher temperatures in dishwashers and other environments.

Bisphenol A (BPA), is used to synthesis PC and epoxy resin in industry. Animal experiments proved that the effects of mimicing estrogen, even very low doses can make animals produce female precocious, sperm count down and prostate growth. Study confirms that bisphenol A has certain embryo toxicity and teratogenicity, it can obviously increase the animal ovarian cancer, prostate cancer, leukemia and other cancers. Study also shows that the PC will release toxic bisphenol A, the higher the temperature the faster the release speed. Concluded that bisphenol A may eventually lead to prostate and breast cancer, Canada announced that bisphenol A is toxic chemicals on October 18, 2008, which will become the first country in the world to rank it as the toxic chemicals and prohibit from using PC food containers which contains bisphenol A. Norway, the United States, Sweden and other European and American developed countries gradually begin to ban the use of BPA food container.

Food Preparation

Scraper/Spoon-shaped Scrapers

Product Features:

1. A multipurpose tool combining spoon, scoop and scraper.
2. Body and handle are integrally molded to eliminate the possibility of coming off.
3. Seamless structure eliminates the retention of dirt and bacteria.
4. The convex design on the back of scraper prevents the contact between the blade and the worktable for reducing the possibility of food contamination.
5. Traditional flat scraper is for scraping; Spoon-shaped scraper is used to scoop, dig and wipe.
6. All the handle and body are white.
7. Found in compliance with NSF # 2 inspection standards.
8. Dishwasher safe.

Chopping Boards

Product Features:

1. An ideal tool to ensure safety in working.
2. HDPE molded structure ensures strength and durability.
3. Chopping board color recognition system is the first step to ensure food safety.
4. Red boards are used for raw meat, blue for seafood, brown for cooked meat, green for fruits and vegetables, yellow for poultry and white for dairy.
5. Stainless steel Chopping board holder is safe, clean and durable.
6. A cleaning brush, which is sold separately, can be hung on the Chopping board holder.
7. Found in compliance with NSF standards.

CERTIFICATIONS

ISO-international Organization for Standardization

ISO9001-2001 is an internationally recognized quality management system that provides:

1. Guidance for businesses that want to implement or improve quality systems within their business.
 2. Benchmarks that customers can use to evaluate an organization's quality system.
 3. Represents a commitment to continuous value improvement.
- ISO 14000 is a family of standards to plan, implement, inspect and review environment management and operation system to enhance the environment protection:
1. Promote the implementation of environmental management regulations and systems.
 2. Promote the improvement of environmental management within the business.
 3. Promote the harmonious development of environment and economy.

ASTM Certification

ASTM F404 is the American Society for Testing and Materials' safety standard for evaluating a High Chair. TRUST youth seat has been approved in ASTM F404 testing.

ASTM F2285 is an American Society for Testing and Materials' safety performance specification that establishes performance requirements, test methods, and labeling requirements to minimize the hazards to children presented by Diaper Changing Tables for commercial use with children up to 22.7KG. TRUST baby changing station passed the ASTM F2285 testing.

QS Certification

Quality Safety. TRUST has been granted a QS production license certificate.

HACCP Certification

Hazard Analysis and Critical Control Points is a systematic method using principles (Food Hygiene Practices) for analyzing food process and determining the possible chemical, physical, and biological hazards within that process that should prevent any unsafe food from leaving the process.

FDA Certification

Under regulations administered by the U.S. Food and Drug Administration (FDA), this product, as supplied by Eastman Chemical Company, may lawfully be used on the basis of 21 CFR 174.5(d)(5) as a component in the manufacture of repeated use food-contact articles as described in Food Contact Notification No. 729. The finished food contact article containing this polymer is intended to contact all types of food at temperatures up to and including 100 °C (for definitions of food types, refer to Tables 1 and 2 at website <http://www.fda.gov/Food/FoodIngredientsPackaging/FoodContactSubstancesFCS/default.htm>). This formulation contains a proprietary additive which complies with the regulations for indirect food additives published by the U.S. Food and Drug Administration. In addition, the general provisions for indirect food additives in 21 CFR 174.5 are applicable to the use of this product.

China Environmental Labeling

China Environmental Labeling Product Certification is the most authoritative certification of green products and environmental-friendly products in China, to recognize the product quality and environmental performance and confirm that the products meet the national standards for environmental protection requirements on behalf of the government.

UL Certification

Underwriters Laboratory (UL) approved containers (1261/1262 /1263/1264), up to UL94-2010 standard, while rated to be V0.

NSF Certification

NSF (National Sanitation Foundation) is committed to standards development, product testing and certification services in the fields of public sanitation and security. It's a widely recognized leading global provider of public health and security certification.

ISTA-international Safe Transit Association

TRUST has ISTA-certified laboratory for testing and certification of transport packaging.

EU Certification

The EU issued directive 1935/2004 for substances in contact with food. The purpose of this directive is to ensure that materials and substances in contact with food directly or indirectly is safe to the consumers both in design and structure. The TRUST food storage box (3011/3012) has been proved safe by relevant EU tests.

TÜV Certification

TÜV is a security authentication marks which Germany TÜV specially made for components products. It has been widely accepted in Germany and Europe. The purpose of safety standards is to prevent household electrical products, mechanical products, automobile products causing the danger of personal injury and property damage during the using process.

GS Certification

GS is the meaning of "German Geprüfte Sicherheit" (security certification). GS is recognized by European market as German security authentication marks, which based on German product safety (GPS), and it is also a voluntary certification according to the European standard EN or German industrial standards DIN testing. TRUST multi-purpose draw ladder (6945/6946) passed GS testing.

LEGEND

Need to be assembled by yourself.

UV absorber is added to extend the service life in outdoor applications.

Untouching products, reduce the risk of exposure to dirt.

Made of Eastman Tritan™ copolymerization pet food container, it does not contain toxic chemical bisphenol A (BPA) and can prevent food safety risks.

Color-coded cleaning system.
Please select proper color-coded equipment depending on the area to prevent cross-contamination.
Blue: For cleaning office and lobby.
Yellow: For general purpose cleaning of bathroom.
Red: For cleaning areas susceptible to high cross-contamination, such as toilet and bathroom.
Green: For cleaning food service facilities, such as dining room, kitchen, canteen.

Bisphenol A is harmful to health
Animal experiments proved that the effects of mimicing estrogen, even very low doses can make animals produce female precocious, sperm count down and prostate growth. Study confirms that bisphenol A has certain embryo toxicity and teratogenicity, it can obviously increase the animal ovarian cancer, prostate cancer, leukemia and other cancers.
