Who are G.Network?

G.Network is London's full fibre broadband provider. We are building our own infrastructure delivering full fibre broadband to London's businesses and residents.

All our infrastructure is brand new 100% fibre. Instead of using cabling and ducts from other providers, we've dug London's roads and laid our own 100% fibre cables.

This means we're able to offer customers a dedicated, symmetrical 10 GIG connection. This is a dedicated connection from your business to our high capacity infrastructure.

G.Network's 100% Fibre-to-the-Business gives you straightforward access to the speeds you need to supercharge your business.

Fibre-to-the-Business

Introducing, G.Network's dedicated Fibre-to-the-Business. For businesses looking for high bandwidth with ultra-reliable connectivity.

We own all of our infrastructure, which means that we're in a unique position to offer dedicated internet access at a great price and with market leading SLAs.

Our monthly fee starts from just £599, with a £1,000 connection charge.

We'll even aim to connect you in less than 3 months.

10 GIG Fibre-to-the-Business

10 GIG connection	
Symmetrical upload / download speeds	
SLAs - 20 Ms Latency - Target 100% Availability - 5 hr fix	
Connection Charge*	£1,000
Monthly Fee	£599 (5 year term)
Connection time*	3 months

*Connection Charge and Connection Time based on a standard connection

Fibre without the fuss:

6 reasons why you should switch

Dedicated internet access from G.Network gives you an uncontended, 100% full fibre connection.

Because we own the infrastructure, we can provide market leading SLAs, fast and transparent connection timelines, all at a very low cost.

1. More Reliable

Through dedicated 100% full fibre into our high capacity backbone infrastructure.

2. Very fast

High bandwidth, with symmetrical 10 Gbps connection

3. Lowest Latency

Send and receive data seamlessly with our lowest ever latency. Our target core network latency is <20ms

4. More Affordable

Affordable and transparent costs - £599 per month for 5-year and a £1k connection charge*

5. Speedy Connection

Fast connection timelines, we've got the infrastructure in place so we can connect you in 3 months*

6. Leading SLAs

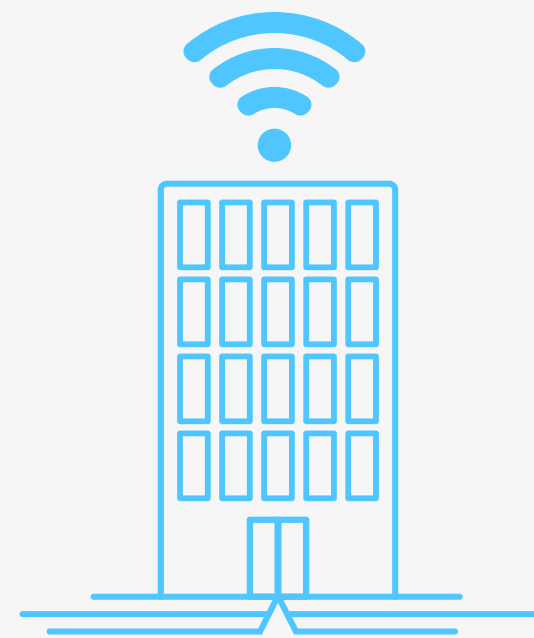

We target 100% network availability and we'll aim to fix any issue within 5 hours of being notified. We also have a London based support team to help.

*Connection Charge and Connection Time based on a standard connection

Supercharge your work with 10 GIG Fibre-to-the-Business

G.Network are bringing dedicated internet access to the masses.

Whether you need to support multiple connections, quickly transfer large files or need low latency access to cloud servers our 10 GIG connection will supercharge your business:

For businesses with multiple connections and growing bandwidth capacity requirements e.g. Hotels

For businesses that handle very large files quickly on a regular basis both locally and from the cloud e.g. Film and media houses

For businesses that require high network performance for latency sensitive applications e.g financial institutions

For businesses dependent on remote cloud based server access to service large volumes of customers. e.g fintech/ high growth startups

For businesses that need to future proof connectivity to support business change or growth

Don't just take our word for it

“Simply amazing! The installation was super fast, and great customer service. The replies were almost immediate, and always with the same customer service contact, which made the entire process so simple.

Speed is incredible, super stable, and also cheaper than any other provider.”
