# Catalogue Updates

Jonluca Neal is proud to be Canada's largest national, family-owned natural food distribution company. As a proudly Canadian-owned company with a founder team bolstering 150 years of Canadian natural food industry experience, we will continue to help support and promote local products, as well as Canadian-owned businesses.

To help support our retail partners looking for Canadian-specific product and brand information, we have included new 'Canadian' attribute tags within the JN catalogue.

Our goal with this project is to help clearly define our catalogue's brand and product information as related to products that are **'Made in Canada'**, **'Canadian Owned'** or a **'Product of Canada'**. Please look for these attribute tags throughout the JN Catalogue.

For further information on defining some of these terms, please reference the below links, or please reach out to your vendor care contact.

## A2 MILK

A2 Milk is an A1 protein-free meaning it comes from cows that naturally produce only the A2 protein and no A1. Research shows that some people may avoid digestive discomfort when they drink milk with only A2 protein. A2 Milk Company is the only milk validated to be A1 protein free from COW to CUP.

# ORGANIC BONE BROTH

We partner with family farms that prioritize organic and sustainable practices to source high-quality, local ingredients for our Organic Beef and Organic Free-Range Chicken Bone Broths. Made in small batches, we slow-simmer bones, vegetables, and herbs for 24 hours to preserve their nutrients, then flash freeze to retain vitamins, minerals, and protein. Our thick, gelatinous broths are rich in flavour, high in protein, low in sodium, and perfect for sipping or using as a cooking liquid in recipes.

- RAISED WITHOUT ANTIBIOTICS
- PESTICIDE & HERBICIDE FREE
- PREPARED IN SMALL BATCHES
- TRACEABLE INGREDIENTS
- NO ADDITIVES OR PRESERVATIVES

# FREE-RUN QUAIL EGGS

Our Free Run Quail are raised in a small flock on a family farm by farmers who care. Never caged, we allow our birds to roam freely in an enriched environment, provide ample access to a nutritious diet, and do not use antibiotics or hormones. Tasting similar to chicken eggs, our quail eggs are delicious with a rich and creamy taste.

# COMEBACK SNACKS

Comeback Snacks is a specialty popcorn company that challenges the status quo. After being sentenced to a four-year jail term stemming from her battle with addiction, Founder Emily O’Brien set out on the mission to get clean, transform herself, and make her time in jail as meaningful as possible. Having fostered an entrepreneurial career before her sentence, Emily birthed the idea for Comeback Snacks to create snack foods, starting with unique popcorn flavours inspired by the ones she found and curated in prison. Aware of the hardships of being incarcerated, Emily is driven to help remove the stigma surrounding people with prior convictions, as well as give them opportunities for reintegration through training, empowerment and education.

# CULLEN'S FOODS

Cullen's Foods promotes a model of food business that connects agricultural producers more directly with consumers. That is why they are 100% transparent in a supply chain and deal directly with farmers they know, rather than using intermediaries. This allows Cullen's to promote more sustainable food systems at home. They believe in total transparency. Enter the lot code on the back of your package on the Cullen's Foods website to learn more about the specific product you're putting in your pantry including who grew it, when it was harvested, and where it was packed.

Guernsey cow milk is naturally higher in Beta-Carotene, Omega 3, calcium and A2 protein (the lesser known A protein), so the cows don't need specially formulated feed to achieve these nutritional benefits. It's pure and wholesome...naturally.

These natural advantages simply create the creamiest, best tasting and nutritious dairy product we have ever tasted.

# ELIAS HONEY

Imagine a world without bees. There would be no fruit, veggies, and certainly no honey! In fact, with most of the food we eat we can pretty much guarantee a bee had something to do with it.

That's why we work closely with our farmers and beekeepers to ensure good beekeeping practices are followed. We want to see our hives not just survive—but thrive

# GENUINE TEA

At Genuine Tea, we pride ourselves on leading the Third Wave Tea movement in Toronto. The purpose of the Third Wave Tea movement is to close the gap between the tea in your cup and the people who have dedicated their lives to producing it.

It is a shift in focus from convenience and quantity to freshness and quality.

# ICELANDIC GLACIAL WATER

ICELANDIC Glacial is the Super-Premium Natural Spring Water from Iceland's legendary Ölfus Spring. Naturally balanced, environmentally kind, exceptionally pure. Home to glaciers, spouting geysers, volcanoes and raging rivers, Iceland is one of the world's cleanest ecosystems. The water is slowly and naturally filtered through layers of volcanic rock, thereby producing a natural spring water so pure that nothing is added or taken away.

LAIKI

The secret to Laiki's taste is black and red rice from Thailand. Black and red rice pack more nutrients and flavour than white or brown rice. By keeping the ingredients to a minimum, all the flavour you get in every crunchy bite comes from the wholegrain rice itself. Laiki® Rice Crackers are the labour of love: a love of food, a love of snacking, and a love for sharing this with all of you.

# LEVEL GROUND

Our mission is to trade fairly and directly with small-scale producers in developing countries, and to market their products in North America, offering our customers ethical consumer choices. Since 1997, we've been all about connection.

It started with small-scale coffee farmers in Colombia, and it's grown to a community of like-minded people connected by the belief that our choices matter.

A unique mix of real citrus juices, pulp from mandarin oranges and fine bubbles has made Orangina a beloved brand around the world. Just shake, pop, and sip to enjoy it au naturel, or mix it into a cocktail. Magnifique! Either way, Orangina is just the subtly sweet citrus sunshine you need to shake up the everyday — every day.

Pacific makes foods that are clean and simple, using only natural and organic grains, meats and veggies. Preservatives and their packaging have never met. That's because the packages Pacific uses allow even the most perishable foods to stay fresh and tasty without chemicals or preservatives. They also require no refrigeration, which saves on energy, too. At Pacific, their ingredients are held to some pretty high standards. Long before there were USDA Organic labels, Pacific began tracing the origin of every natural and organic ingredient used in their foods.

# SOBRII

## Sobrii

Sobrii means “sober” in Latin. By removing the alcohol, Sobrii 0-Spirits offer a way for health-conscious adults or the sober curious, to enjoy cocktails without compromising on taste or social experience. We’re proud to support responsible drinking, and we think “non-alcohol” should be just as celebrated as “with alcohol”.

# SOILMATES

## SOILMATES

More than 20% of all avocados get tossed away for being ‘too ugly’. That’s over a million avocados a day in Europe alone! Soilmates come in, rescue them and squeeze out the good stuff.

The result? The superhero of cooking oils.

Yep, beauty is on the inside, mates!
