ZUCCHETTI GROUP

IT Alle spalle quasi un secolo di esperienza e all'orizzonte una nuova fase di sperimentazione: a un passo dal suo centesimo compleanno, il marchio Zucchetti rafforza la sua identità storica e istituzionale rinnovando e precisando i suoi percorsi progettuali e la sua immagine. Il neonato Zucchetti Group, all'interno del quale coesistono distinti ma complementari i brand Zucchetti e Kos, continuerà ad operare con decisione, carattere e qualità nel mondo del bagno, incrementando la diversità e la molteplicità dei linguaggi, accentuando la specificità dei due marchi e intraprendendo inedite collaborazioni con il mondo del design.

La storia di Zucchetti inizia nel lontano 1929 con la fondazione di una piccola fonderia a Valduggia (VC) ad opera di Alfredo Zucchetti ed arriva ad oggi con la costituzione di Zucchetti Group, guidato dalla terza generazione - Elena, Carlo, con i cugini Marco e Paolo Zucchetti. Il gruppo occupa un grande ed evoluto stabilimento produttivo, per un totale di circa 30.000 mq coperti, 200 dipendenti e 600.000 articoli prodotti ogni anno. Innovazione, design e qualità sono da sempre i pilastri fondanti dell'azienda, cardini imprescindibili dell'evoluzione della sua storia. Dopo una fase iniziale legata alla produzione di rubinetteria e valvole industriali, nel 1950 Zucchetti converte lo stabilimento interamente alla realizzazione di rubinetteria sanitaria cromata.

Nei primi anni Cinquanta entrano in azienda Mario e Luciano Zucchetti, figli di Alfredo. Mario presidente e imprenditore illuminato guiderà l'azienda per quasi cinquant'anni, verso un importante sviluppo produttivo, tecnologico e commerciale: ultimerà il nuovo grande stabilimento aziendale con sede a Gozzano (NO) caratterizzato da impianti produttivi all'avanguardia, esporrà il brand nelle più importanti fiere internazionali di settore, a Milano aprirà il primo ufficio export, per la conquista dei mercati esteri impegnati nella ricostruzione post bellica. Nel 1958 arrivano le prime importanti commesse oltre oceano: Canada e Australia (fra altri paesi) divengono nuovi importanti mercati per l'azienda. Sono gli anni Settanta quando l'azienda inizia il proprio percorso nel mondo del design. Mario Zucchetti era infatti fortemente convinto dell'importanza del segno in ogni progetto, sintesi di innovative valenze tecniche ed estetiche. Per il primo miscelatore monocomando prodotto in Italia sceglie di collaborare con lo Studio Nizzoli.

Gli anni Ottanta vedono l'ingresso di Zucchetti nel mondo della comunicazione, sia in televisione che sulla carta stampata, con l'obiettivo di costruire un brand forte e conosciuto. Un iter che l'azienda non ha mai abbandonato perché consapevole dell'importanza di trasferire i propri valori e la propria eccellenza attraverso diversi canali.

Con il cambio di secolo il bagno diviene un ambiente di primo piano, capace di riflettere i cambiamenti della società e della cultura; il gusto si evolve come anche la sensibilità del consumatore ed il bagno diventa "la sala da bagno". Attenta al mutare degli aspetti sociologici e antropologici Zucchetti è tra i primi a credere e ad investire in progetti sempre più innovativi, intercettando le istanze di un pubblico che cerca esperienze desiderabili e non solo oggetti necessari.

Nel 2004 l'azienda decide di avvalersi della consulenza strategica di Ludovica + Roberto Palomba come nuovi art director del marchio, una efficace collaborazione durata 15 anni. Nel 2007 nasce il progetto per una proposta bagno completa a seguito dell'acquisizione di Kos, brand associato alla migliore produzione di vasche e complementi bagno di design.

Un mondo-bagno che trasla dal piano della funzione a quello della sensazione e della seduzione, dando vita ad una delle più interessanti ed eclettiche proposte progettuali nel settore.

Il 2019 segna una nuova svolta con la definizione di Zucchetti Group e la direzione artistica di Matteo Fiorini con Studio Lys. Il gruppo nasce per rappresentare istituzionalmente e congiungere i due marchi Zucchetti e Kos con l'intento preciso di esaltarne le specificità, spingendo sulla loro complementarietà e differenza.

EN With nearly a century of experience behind them and a new experimental phase on the horizon: as the Zucchetti brand nears its 100th birthday, it strengthens its history and institutional identity by renewing and sharpening its design direction and image. Inside the new Zucchetti Group, the Zucchetti and Kos brands will be distinct yet complementary—continuing to operate with decision, character and quality in the world of bathrooms and wellness, while increasing the diversity of languages and forming new collaborations with the design field.

Zucchetti's story first begins back in 1929, with a small foundry in Valduggia (Piedmont) set up by Alfredo Zucchetti. Today the Zucchetti Group is led by the third generation, Elena and Carlo, with cousins Marco and Paolo Zucchetti. The group holds a large and advanced production plant, covering a total surface of about 30,000 square metres, employing 200 people and manufacturing 600.000 articles every year.

The basic values of Zucchetti have always been innovation, design, and quality: the essential cornerstones that have guided the firm throughout its history. After an early phase manufacturing industrial valves and fittings, in 1950 the factory is converted to produce chrome sanitary taps. In the early 1950s the firm brings in Mario and Luciano Zucchetti, Alfredo's sons. Mario, president and enlightened entrepreneur goes on to lead the company for nearly fifty years. He steers the company towards, technological and commercial advancement and major production development: he completes the large new headquarters in Gozzano (Novara) which he equips with advanced manufacturing facilities, he exhibits the brand at the Milan trade fair and then, one by one, at all the other most important international trade fairs. Mario also opens the first Zucchetti export office, to conquer international markets engaged in the post-war reconstruction. The first significant overseas contracts come in 1958: Canada and Australia (among the others) become important new markets for the firm.

The seventies see the company start its own path in the world of design. Mario Zucchetti strongly believed in the importance of the design image of any product, as a synthesis of innovative technical and aesthetic values. He decides to call in Studio Nizzoli for the first single-lever mixer produced in Italy.

In the eighties, Zucchetti enters the world of communication, both on television and in the press, with the aim of building a strong, recognised brand. The company has never abandoned this course because it is fully aware of the importance of conveying its values and excellence through several communication channels.

With the turn of the century, the bathroom moves centre-stage, reflecting changes in society and culture as taste evolves in line with consumer sensitivity and the bathroom becomes the "bathing room". Attentive to changing sociological and man-made aspects, Zucchetti is one of the first to believe in investments in increasingly

more innovative projects, meeting the demands of a public looking for desirable experiences rather than necessary objects. In 2004 the company decides to avail of the strategic consultancy services of Ludovica+Roberto Palomba, successful art directors of the brand for 15 years. 2007 sees the birth of the project for a complete bathroom proposal, following the acquisition of Kos, a brand associated with the best production of design bathtubs and bathroom complements. A bathroom- world that shifts from a merely functionality level to one of sensation and seduction, giving rise to one of the most interesting, eclectic design realities linked to the bathroom sector.

2019 marks a new turning point with the definition of Zucchetti Group and the art direction by Matteo Fiorini with Studio Lys. The group is formed to represent institutionally and join the two Zucchetti and Kos brands, with the precise intent to enhance its specificity, pushing their complementarity and difference.

ES Con casi un siglo de experiencia y una nueva fase de experimentación en el horizonte, a un paso de su centenario, la marca Zucchetti refuerza su identidad histórica e institucional precisando y renovando sus procesos proyectuales y su imagen. El recién nacido Zucchetti Group, en el que coexisten las distintas y complementarias marcas Zucchetti y Kos, seguirá operando con decisión, carácter y calidad en el mundo del baño incrementando su diversidad y multiplicidad de lenguajes, acentuando la especificidad de las dos marcas y emprendiendo inéditas colaboraciones con el mundo del diseño.

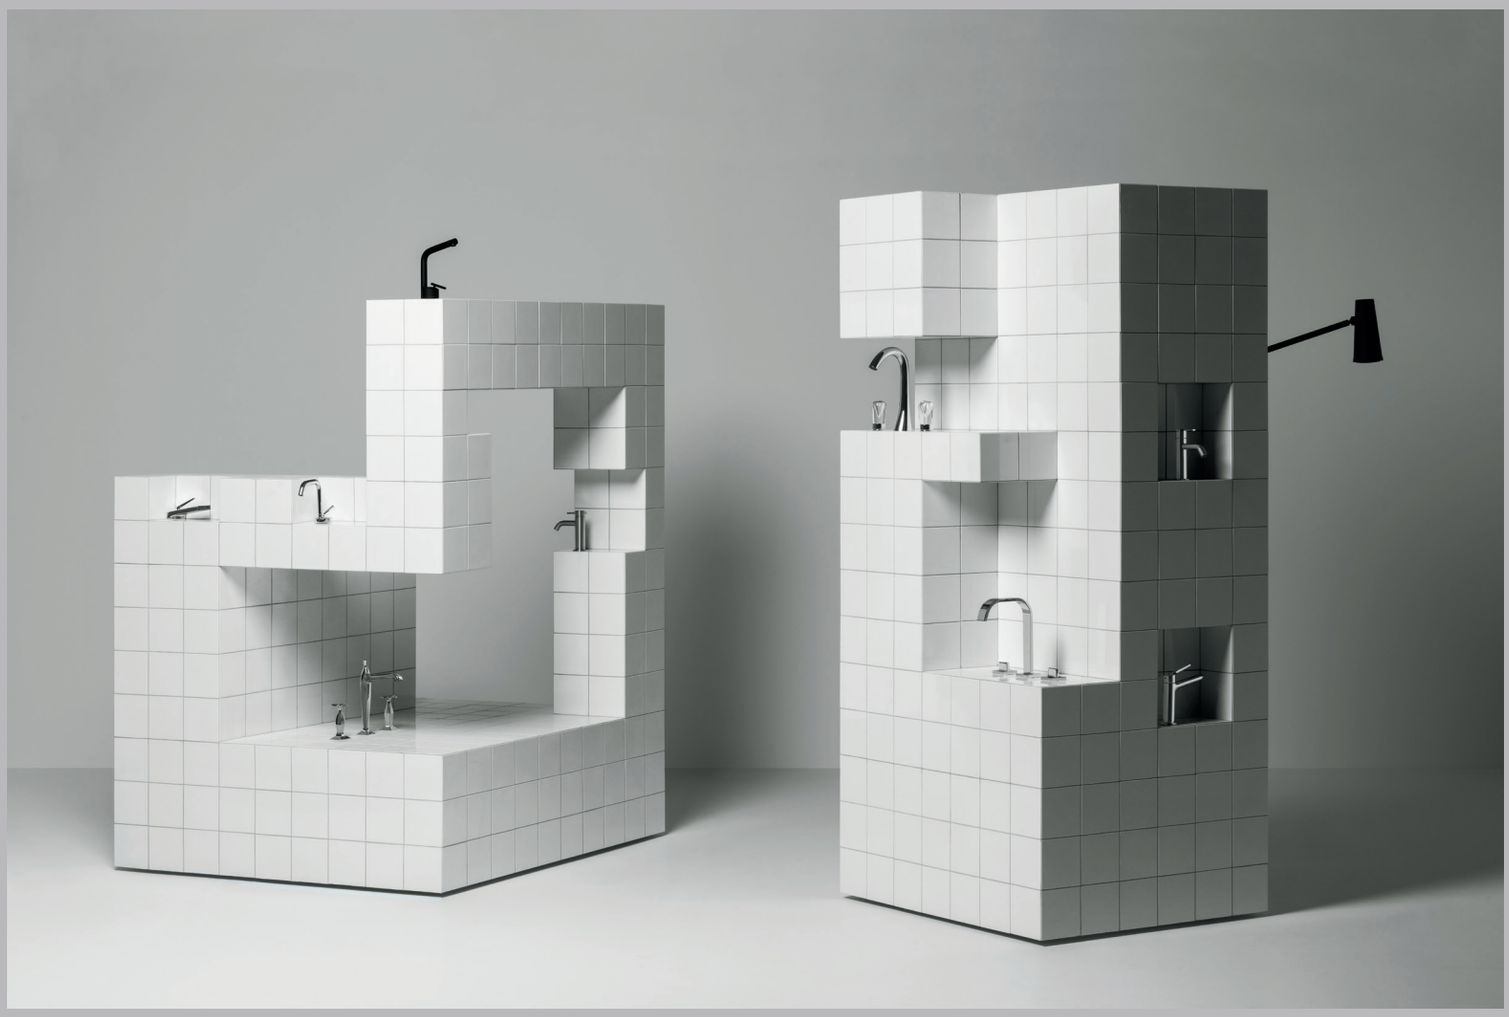

La historia de Zucchetti comienza en el lejano 1929 con la fundación de una pequeña fundición en Valduggia (Vercelli, Italia) por parte de Alfredo Zucchetti y llega a nuestros días con la constitución de Zucchetti Group, dirigido por la tercera generación, Elena y Carlo, con la colaboración de sus primos Marco y Paolo Zucchetti. El grupo ocupa una planta de producción grande y avanzada, un total de 30 000 m² cubiertos, 200 empleados y 600 000 artículos fabricados cada año.

Innovación, diseño y calidad son desde siempre los pilares fundadores de la empresa, bases imprescindibles de la evolución de su historia. Tras una fase inicial relacionada con la producción de grifería y válvulas industriales, en 1950 Zucchetti transforma completamente su fábrica para realizar grifería sanitaria cromada.

En los primeros años de la década de los cincuenta entran en la empresa Mario y Luciano Zucchetti, hijos de Alfredo. Mario presidente y empresario iluminado guía la empresa durante casi cincuenta años hacia un importante desarrollo productivo, tecnológico y comercial: conclusión de la nueva gran fábrica empresarial con sede en Gozzano (Novara, Italia) caracterizada por sus instalaciones productivas de vanguardia; exposición de la marca en las principales ferias internacionales del sector y apertura en Milán del primer departamento de exportación para conquistar los mercados extranjeros ocupados en la reconstrucción posbélica. En el año 1958 llegan los primeros pedidos importantes de la otra parte del océano: Canadá y Australia (entre otros países) que se convierten en nuevos e importantes mercados para la empresa.

Durante la década de los setenta la empresa empieza su recorrido en el mundo del diseño. Mario Zucchetti estaba firmemente convencido de la importancia del signo estilístico en cada proyecto: síntesis de innovadores valores técnicos y estéticos. Para el primer mezclador monomando producido en Italia elige la colaboración con el estudio Nizzoli.

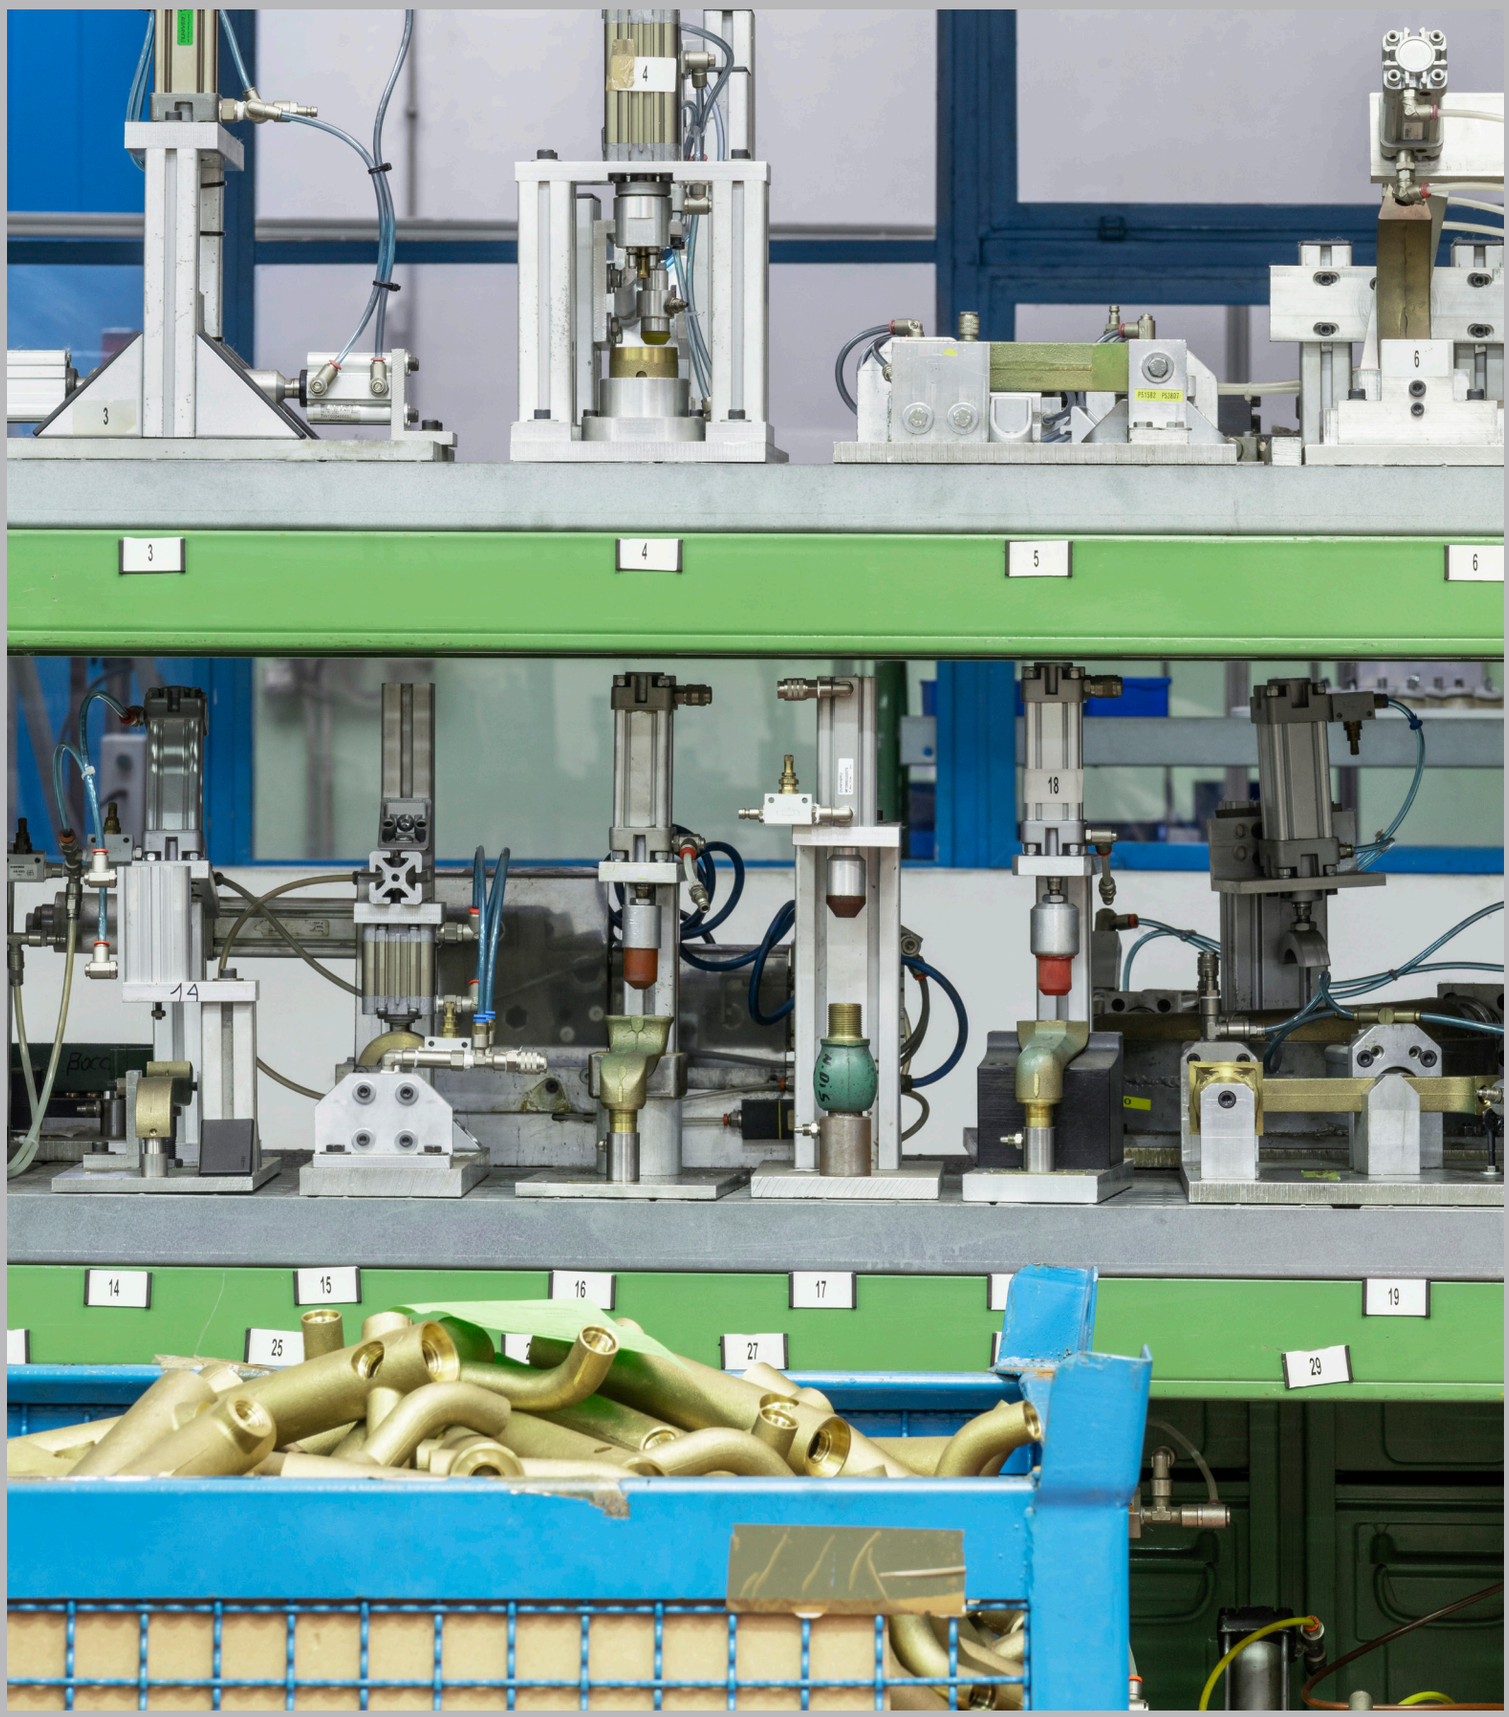

En los años ochenta Zucchetti entra también en el mundo de la comunicación, tanto en la televisión como en la prensa, con el

objetivo de construir una marca fuerte y conocida. Un proceso que la empresa no ha abandonado jamás, consciente de la importancia de transmitir sus valores y su excelencia a través de diversos canales.

Con el cambio de siglo, el baño pasa a ocupar un lugar de primer plano, capaz de reflejar los cambios de la sociedad y de la cultura; el gusto evoluciona, así como la sensibilidad del consumidor, y el baño se convierte en «la sala de baño». Atenta al cambio de los aspectos sociológicos y antropológicos, Zucchetti es una de las primeras marcas en creer e invertir en proyectos cada vez más innovadores, captando la demanda de un público que busca experiencias deseables, y no solo objetos necesarios. Por este motivo, en 2004 la empresa decide valerse del asesoramiento estratégico de Ludovica + Roberto Palomba, como directores artísticos de la marca, colaboración de exito durante 15 años. En 2007 nace el proyecto para una propuesta completa de baño, tras la adquisición de Kos, marca asociada a la mejor producción de bañeras y complementos de baño de alta gama. Un mundo-baño que se desplaza del plano de la función al de la sensación y la seducción, dando origen a una de las más interesantes y eclécticas propuestas de proyecto en el sector.

El año 2019 marca un nuevo giro con la definición de Zucchetti Group y la nueva dirección artística de Matteo Fiorini con Studio Lys. El grupo nace para combinar y representar institucionalmente las dos marcas, Zucchetti y Kos, con la precisa intención de resaltar sus especificidades, potenciando su diversidad y complementariedad.

WATERWORDS

IT Waterwords - acqua e parole - identifica la collezione delle collezioni, quella che da molti anni raccoglie tutti i gesti di design, mirati e magistrali, all'origine del successo dell'azienda. Merito anche dell'estro creativo di progettisti internazionali di primo piano che a partire dagli anni Settanta hanno plasmato progetti precursori delle aspirazioni e delle esigenze del vivere contemporaneo. Collezioni innovative e pluripremiate, ispirate dall'acqua e dal mondo che ci circonda, vere icone di stile che custodiscono la vision dell'azienda.

EN Waterwords, water and words, is the name Zucchetti has chosen for its collection of collections, bringing together all the specific instances of masterful design that have earned the company great success over the years. This is also thanks to the creative flair of renowned international designers who, since the 1970s, have shaped projects that anticipate aspirations and demands of contemporary living. Innovative and award-winning collections, inspired by water and the world around us, are true style icons that preserve the company's vision.

ES Waterwords —agua y palabras— es el nombre elegido por Zucchetti para identificar la colección de las colecciones: la que desde hace años recoge todos los gestos de diseño, estudiados y magistrales, que han determinado el éxito de la empresa. Esto también es gracias al talento creativo de diseñadores de fama internacional que, desde los años setenta, han dado forma a proyectos que son precursores de las aspiraciones y necesidades de la vida contemporánea. Colecciones innovadoras y premiadas, inspiradas en el agua y el mundo que nos circunda, verdaderos iconos de estilo que custodian la visión de la empresa.

ISY22

IT Matteo Thun e Antonio Rodriguez ripensano l'iconica collezione ISY dando vita a ISY22, un sistema per il governo dell'acqua versatile, composto da 4 famiglie di prodotti. ISY22 eredita il DNA inconfondibile della collezione originaria, ma si propone in una veste attualizzata per rispondere alle esigenze contemporanee.

Nuove funzionalità come il miscelatore progressivo o il rubinetto elettronico "no touch"; nuove dimensioni (diametro 22 da cui il nome) che rendono il prodotto particolarmente adatto anche al mondo contract; finiture e colori inediti per definire ambienti diversi.

EN Matteo Thun and Antonio Rodriguez have rethought the iconic ISY collection and created ISY22, a versatile water control system comprising 4 product families. ISY22 inherits the unmistakable DNA of the original collection, but has been given a makeover to meet contemporary needs.

New features such as the progressive mixer or the 'no touch' electronic tap; new sizes (diameter 22, hence the name) that make this collection particularly suitable also for the contract world; new finishes and colours to match a wide variety of decor.

ES Matteo Thun y Antonio Rodriguez reinterpretan la icónica colección ISY dando vida a ISY22, un sistema para la gestión del agua que se distingue por su versatilidad, compuesto por 4 familias de productos. ISY22 hereda el inconfundible ADN de la colección original, pero se presenta con una versión actualizada para responder a las necesidades contemporáneas.

Nuevas funciones, como el mezclador progresivo o el grifo electrónico «no touch»; nuevas dimensiones (diámetro 22, de donde toma su nombre) que lo hacen especialmente adecuado para el mundo contract, y acabados y colores inéditos para definir diversos ambientes.

HELM

IT Helm è la prima linea di rubinetteria in acciaio lanciata da Zucchetti, sia nella versione monocomando che tradizionale. Firmato da David Lopez Quincoces, Helm riprende la tipologia classica del rubinetto con manopole a croce e la evolve in una scomposizione e ricomposizione di volumi cilindrici, secondo attente proporzioni. L'introduzione di colori, texture, cannettature e zigrinature articolano e diversificano l'estetica del prodotto, lo rendendo prezioso e tecnico al tempo stesso, brutalista o super chic.

EN Helm is the first line of stainless steel taps launched by Zucchetti, both in single-lever and three hole versions. Signed by David Lopez Quincoces, Helm takes the classic archetype of the tap with cross handles and turns it into cylindrical volumes that have been deconstructed then reconstructed, with carefully-designed proportions. The introduction of colours, textures, vertical ridges and knurling expands and diversifies the aesthetics of the product, making it simultaneously exquisite and highly-performing, brutalist and ultra-chic.

ES Helm es la primera línea de grifería de acero lanzada por Zucchetti, tanto en la versión monomando como tradicional. Creada por David López Quincoces retoma la tipología clásica del "grifo con maneta en forma de cruz" y la desarrolla en una descomposición y recomposición de volúmenes cilíndricos, según atentas proporciones. La introducción de colores y texturas, acanalados y estriados, que articulan y diversifican la estética del producto, haciéndolo precioso y técnico al mismo tiempo, brutalista o sumamente refinado.

Per le sue qualità materiche Helm si adatta anche agli spazi outdoor, oggi più che mai territorio di sperimentazione e ricerca per creare soluzioni di continuità tra interno ed esterno.

Thanks to the qualities of its material, Helm can also be used outdoor, today more than ever an uncharted territory of experimentation and research to create seamless solutions between indoors and out.

Para sus calidades matericas, Helm se adapta también a espacios outdoor, hoy cada día más territorio de experimentación y estudio para crear soluciones de continuidad entre interior y exterior.

OCTO

IT Ricerca, sviluppo, sperimentazione, tecnologia di ultima generazione, design curato nei minimi dettagli. Octo firmato David Lopez Quincoces è un connubio di questi elementi. Le forme della bocca piatta e della leva del rubinetto creano un profilo definito e netto. Il focus è il tema delle proporzioni, in un gioco di equilibri sapientemente soppesati per caratterizzarne il design che, come ama definire il progettista, è femminile e rotondo.

EN Research, development, experimentation, state-of-the-art technology, and design curated down to the smallest detail. Octo by David Lopez Quincoces is a combination of these elements. The shapes of the flat spout and the lever create a defined, clear-cut profile. The focus is the theme of proportions, in a game of balances that have been intelligently considered to characterise the design which, as the designer likes to put it, is feminine and rounded.

ES Investigación, desarrollo, experimentación, tecnología de última generación, diseño cuidado en los mínimos detalles. Octo firmado por David López Quincoces es la unión de todos estos elementos. Las formas del caño plano y de la palanca del grifo crean un perfil definido y neto. El enfoque está en el tema de las proporciones, en un juego de equilibrios sabiamente sopesados para caracterizar el diseño, que, como gusta decir al proyectista, es femenino y redondo.

MEDAMEDA

IT Pensato a quattro mani da Alberto e Francesco Meda, Medameda sceglie un linguaggio rassicurante e composto, scevro da stravaganze formali e caratterizzato da un'attenzione minuziosa ai dettagli e alle funzionalità. Il risultato è una collezione dalle linee organiche e fluide mai sovra-disegnate, che deve la sua trasversalità anche all'interazione tra le due generazioni di designer, padre e figlio, che lo hanno ideato. Medameda è sinonimo di efficienza, durevolezza e affidabilità.

EN Medameda, designed by Alberto and Francesco Meda four-handed, chooses a reassuring, composed style that avoid extravagant forms and pay special attention to details and functionality. The result is a collection featuring organic, flowing lines that are never over-designed, with a cross-cutting nature, produced by the interaction of designers of two generations, father and son. Medameda is efficient, long-lasting and reliable.

ES Pensado a «cuatro manos» por Alberto y Francesco Meda, Medameda elige un lenguaje tranquilizador y compuesto, sin extravagancias formales y caracterizado por una meticulosa atención al detalle y la funcionalidad. Nace así una colección de líneas orgánicas y fluidas, pero nunca sobrediseñadas, que en parte debe su transversalidad a la interacción entre las dos generaciones de diseñadores que la han ideado, padre e hijo. Medameda es sinónimo de eficiencia, durabilidad y confiabilidad.

PAN

IT Il design guarda al mondo naturale, alla sua bellezza e alla sua intelligenza. Ludovica + Roberto Palomba, per la collezione Pan, si concentrano sul tronco di un albero: dal corpo del rubinetto si generano la bocca e la manopola, senza tagli o saldature. Merito di un raccordo dolce che riproduce la medesima logica non traumatica dell'innesto tronco/ramo, dando origine a un'interpretazione fluida e intramontabile della tipologia cilindrica del monocomando.

EN Design looks to the beauty and intelligence of nature for inspiration. To make the Pan collection, Ludovica + Roberto Palomba have focused on the shape of a tree trunk: the body of the tap flows into the spout and the lever, entirely without visibly cut or welded parts. Credit is due to a smooth connection that reproduces the gentle, un-traumatic technique of grafted branches or trunks, giving rise to a flowing, timeless interpretation of a cylindric single-lever mixer.

ES El diseño contempla el mundo natural, su belleza y su inteligencia. Para la colección Pan, Ludovica + Roberto Palomba se concentran en el tronco de un árbol: la boca y la maneta surgen del cuerpo del grifo sin cortes ni soldaduras. Mérito de un delicado empalme que reproduce la lógica del acoplamiento ininterrumpido entre el tronco y la rama, dando origen a una interpretación fluida e imperecedera del tipo de monomando cilíndrico.

JINGLE

IT Parola d’ordine modernità. Jingle, design di Ludovica + Roberto Palomba, è un rubinetto che fa della sobrietà e dell’eleganza il suo punto di forza. La memoria va alla progettualità del maestro Achille Castiglioni, a un’idea di semplicità che è anche raffinatezza. Compatto e squadrato, Jingle è un progetto estremamente curato in ogni dettaglio costruttivo, sia che si tratti di un raccordo o uno smusso tutto è calibrato in modo equilibrato.

EN Modernity is the matchword of Jingle: designed by Ludovica + Roberto Palomba, this tap has its strength in understatement and elegance. Attentive observation will bring to mind the design master Achille Castiglioni forward-thinking creativity and his vision of refined simplicity. Compact and defined by rectangular forms, every constructive detail of Jingle is the result of meticulous intentionality: whether a connector joint or bevel, everything is impeccably balanced and calibrated.

ES Palabra clave: modernidad. Diseñado por Ludovica + Roberto Palomba, Jingle es un grifo cuyo punto de fuerza se encuentra en la sobriedad y la elegancia. La memoria viaja a la proyectualidad del maestro Achille Castiglioni y a una idea de simplicidad que también es refinamiento y distinción. Compacto y rectilíneo, Jingle es un proyecto cuidado minuciosamente en cada detalle constructivo: tanto si se trata de un empalme como de un biselado, todo está calibrado con el máximo equilibrio.

SAVOIR

IT Una linea completa di rubinetteria pensata per architetture raffinate e ricche di segno, dove il tema del classico versus contemporaneo si intreccia senza soluzione di continuità. Savoir, design di Matteo Thun e Antonio Rodriguez, è un'indagine sulla geometria del cerchio, una collezione riconoscibile nella sua essenzialità ma altamente personalizzabile grazie alla combinazione di colori, finiture e decori. Una collezione in equilibrio tra classico e contemporaneità.

EN A complete line of taps designed for refined buildings which are rich in detail, where the theme of classic versus contemporary seamlessly intertwines. Designed by Matteo Thun e Antonio Rodriguez, Savoir is an exploration of the geometry of the circle, a collection that's recognisable for its essential shapes, but also highly customisable thanks to a selection of colours, finishes and details. In short, a collection that balances classic and contemporary.

ES Una línea completa de grifería pensada para arquitecturas sofisticadas y con un fuerte signo estilístico, donde el tema del clásico versus contemporáneo se entrelaza sin solución de continuidad. Diseñado por Matteo Thun e Antonio Rodriguez, Savoir es un estudio sobre la geometría del círculo, una colección reconocible por su esencialidad pero altamente personalizable gracias a la combinación de colores, acabados y decoraciones. Una colección en equilibrio entre el mundo clásico y el contemporáneo.

BELLAGIO

IT Bellagio ha una personalità metropolitana e contemporanea. Disegnato da Matteo Thun e Antonio Rodriguez, è un oggetto aristocratico ed esclusivo. Cittadino del mondo anche se con un nome così italiano dichiara il DNA della realtà industriale che lo ha fatto nascere. Bellagio è molto più di un semplice rubinetto per il bagno, è un vero e proprio elemento d'arredo esclusivo in grado di conferire eleganza e raffinatezza all'ambiente che lo ospita.

EN Bellagio is metropolitan and contemporary in its personality. Designed by Matteo Thun e Antonio Rodriguez, this aristocratic, exclusive object is also a world citizen that unabashedly declares its DNA—rooted in the industry and land that created it—through an unmistakably Italian name. Bellagio is much more than a simple tap for the bathroom. It's a veritable, exclusive design object that will confer elegance and sophistication to the room it inhabits.

ES Bellagio tiene una personalidad metropolitana y contemporánea. Diseñado por Matteo Thun e Antonio Rodriguez, es un objeto aristocrático y exclusivo. Un ciudadano del mundo, aunque su nombre declara el incuestionable ADN italiano de la realidad industrial que lo ha generado. Bellagio es mucho más que un simple grifo para el baño: es un elemento decorativo exclusivo capaz de conferir elegancia y distinción al ambiente que lo aloja.

AGORÀ

IT Agorà è una collezione bagno completa che nasce negli anni Trenta ma subito dimenticata a causa della progressiva e inarrestabile modernità. A partire da vecchi disegni presenti negli archivi, Ludovica + Roberto Palomba hanno rieditato il progetto di rubinetteria e accessori, nel rispetto dell'eredità culturale. Una sfida riuscita che coniuga perfettamente passato e presente con grande eclettismo, anche grazie all'utilizzo di materiali di ultima generazione.

EN Agorà is a complete bathroom collection born in the 1930s, but which was immediately forgotten due to the progressive, unstoppable advance of modernity. Based on the historical designs found in the archive, Ludovica + Roberto Palomba have updated this tap and accessory project while respecting its cultural legacy. A challenge and a successful outcome that perfectly combine past and present with abundant eclecticism, in part thanks to the use of next-generation materials.

ES Agorà es una colección de baño completa que nace en los años treinta pero cae inmediatamente en el olvido, a causa de la progresiva e irrefrenable evolución hacia la modernidad. Partiendo de los viejos dibujos presentes en los archivos, Ludovica + Roberto Palomba han reeditado el proyecto de grifería y accesorios respetando su herencia cultural. Un desafío que se ha superado combinando perfectamente pasado y presente con gran eclecticismo y gracias al empleo de materiales de última generación.

DELFI

IT Cromo, gold e brushed gold. Tre finiture ricercate e preziose che caratterizzano la personalità della collezione Delfi firmata da Giorgio Marianelli. Le forme sono sinuose e omaggiano la rubinetteria tradizionale senza però abdicare alle tecnologie più moderne e performanti dei giorni nostri. Delfi si sposa sia all'interno delle architetture in stile che in quelle moderne, dimostrando la grande versatilità oltre che raffinatezza, soprattutto in abbinamento con materiali naturali.

EN Chrome, gold and brushed gold. Three sophisticated, precious finishes that characterise the Delphi collection by Giorgio Marianelli. Its sinuous shapes are an ode to traditional taps, without, however, forgoing the modern, high-performance technology of the present day. Delfi fuses perfectly with historical buildings and modern structures alike, demonstrating versatility in addition to refinement, especially when paired with natural materials.

ES Cromo, gold y brushed gold. Tres acabados elegantes y exclusivos que caracterizan la personalidad de la colección Delfi firmada por Giorgio Marianelli. Sus formas sinuosas rinden homenaje a la grifería tradicional sin renunciar a las tecnologías más modernas y eficientes de nuestros días. Perfecta tanto en los edificios de época como en los modernos, Delfi demuestra una gran versatilidad y elegancia, sobre todo en combinación con materiales naturales.

AGUABLU

IT L'identità di Aguablu passa attraverso forme geometriche, pulite, ricercate. Disegnata da Barbara Sordina, è una collezione trasversale, inseribile in contesti diversificati interpretando l'ambiente bagno in modo elegante. La forma della bocca richiama la leggerezza di un nastro, rendendo Aguablu immediatamente riconoscibile e in grado di valorizzare il bagno classico e quello contemporaneo. La sezione rettangolare consente all’acqua di fluire in modo generoso, riportando alla memoria lo spettacolo delle cascate naturali.

EN Clean, sophisticated geometric forms mould the identity of Aguablu. Designed by Barbara Sordina, this collection is cross cutting, it easily adapts to different contexts and interprets bathrooms with elegance. The shape of the spout echoes the lightness of a ribbon, rendering Aguablu immediately recognisable and able to enhance both classic and contemporary styles. The rectangular cross-section lets water flow generously, bringing the spectacle that is a natural waterfall to mind.

ES La identidad de Aguablu ha quedado plasmada a través de sus líneas geométricas, limpias y sofisticadas. Diseñada por Barbara Sordina, es una colección transversal que se adapta a diversos entornos interpretando el ambiente del baño de manera elegante. La forma del caño evoca la ligereza de una cinta, haciendo que Aguablu resulte inmediatamente reconocible y capaz de valorizar tanto el baño clásico como el contemporáneo. Gracias a su sección rectangular, el agua fluye de forma abundante trayendo a la memoria el espectáculo de las cascadas naturales.

LAB

IT Zucchetti è attenzione al design, alla qualità e alla funzionalità. Le collezioni raccolte in questa sezione, pur caratterizzandosi per un approccio più democratico, non accettano compromessi in fatto di rigore e piacevolezza delle forme, di efficienza ed attualità delle tecnologie. LAB è il termine scelto per identificarle, un riferimento alla sperimentazione e all'innovazione, presenti in azienda da quasi un secolo. Capacità di sintesi, abilità di disegnare "il semplice" rimanendo lontani dal "banale", funzionalità e sostenibilità sono i valori che hanno guidato gli autori di LAB: prodotti più accessibili che non rinunciano alla qualità progettuale e al senso estetico.

PRODOTTO	PAGINA	INFO. TECNICHE
TODD	200	397
GILL	212	400
BRIM	226	404
NIKKO	234	407
SIMPLY BEAUTIFUL	242	410

EN Zucchetti is attention to design, quality and practicality. The collections in this section, despite being made for greater affordability, do not imply compromise in terms of rigour, captivating forms, efficiency or the use of cutting-edge technology. 'LAB', the term chosen to identify them, references experimentation and innovation existing in the company since almost a century. Ability to think critically, to design 'simplicity' while never straying into the commonplace, functionality and sustainability are the values that guided the creators of LAB: products meant to be affordable without sacrificing aesthetics.

ES Zucchetti se distingue por la atención al diseño, la calidad y la funcionalidad. A pesar de caracterizarse por su enfoque democrático, las colecciones recogidas en este sección no aceptan compromisos en lo que respecta al rigor y la belleza de las formas y a la eficiencia y la actualidad de las tecnologías. El término elegido para identificarle y agruparle , «LAB», evoca el tema de la experimentación y la innovación, presentes en la empresa desde casi un siglo. Capacidad de síntesis, habilidad para ofrecer un diseño «simple» distante siempre de lo «banal», funcionalidad y sostenibilidad son los valores que han guiado los autores de LAB: una producción más accesible no significa renunciar a la calidad y al signo estilístico.

TODD

IT Ideata dal team Zucchetti Design Studio, Todd è una serie di miscelatori monocomando contraddistinta da dimensioni compatte, linee gentili ma decise, che ben si adattano in modo armonico a ogni tipo di ambiente. Protagonista è la manopola cilindrica con incisioni verticali, particolarmente apprezzabili nelle finiture opache, che producono eleganti giochi di riflessi: assolve al duplice scopo estetico e funzionale, garantendo ergonomia e comfort.

EN Designed by the team of Zucchetti Design Studio, Todd is a range of single-lever mixers with compact dimensions and gentle but bold lines that adapt harmoniously to spaces of every kind. The protagonist is the cylindrical knob with vertical incisions. These are particularly appreciable in the opaque finishes, which produce elegant reflections. The knob fulfils a dual aesthetic and functional purpose that guarantees both ergonomics and comfort.

ES Ideada por el equipo Zucchetti Design Studio, Todd es una serie de mezcladores monomando caracterizada por dimensiones compactas, líneas suaves pero definidas, que bien se adaptan a cualquier tipo de ambiente de una manera armoniosa. Protagonista es la maneta cilíndrica con incisiones verticales, particularmente apreciables en los acabados mate, que producen elegantes juegos de reflejos: cumple con el doble propósito estético y funcional, garantizando ergonomía y comodidad.

GILL

IT Dal disegno pulito e minimale, Gill trova il giusto equilibrio compositivo nell'incastro tra diversi elementi cilindrici: corpo, bocca e leva, sono definiti da differenti sezioni circolari, che intraprendono curve delicate e originali. La linea Gill è composta da una gamma di articoli, monocomando o a due manopole, che si caratterizzano per semplicità e trasversalità, dimostrandosi ideali per progetti contract e spazi bagno anche di dimensioni contenute.

EN With its clean, essential design, Gill strikes the right balance between different interlocking cylindrical elements: the body, spout and lever are defined by varied circular sections with delicate, original curves. The Gill line is composed of single-lever or two handle mixers that are characterised by their simplicity and adaptability, ideal for contract projects and bathrooms both large and small.

ES Con su diseño limpio y minimalista, Gill encuentra un perfecto equilibrio compositivo en el encastre entre distintos elementos cilíndricos: el cuerpo, el caño y la palanca son definidos por diferentes secciones circulares que emprenden curvas delicadas y originales. La línea Gill está compuesta por una gama de artículos monomando o con dos manetas que se caracterizan por su simplicidad y transversalidad, mostrándose ideales para proyectos de colectividades y cuartos de baño incluso de reducidas dimensiones.

BRIM

IT Rassicurante ed essenziale, la pluripremiata collezione Brim si distingue per il design compatto che elabora, in un unico lessico, due figure diverse, il cerchio e il quadrato. Disegnata da Ludovica+Roberto Palomba, Brim è la sintesi di un progetto di industrial design che ha avuto inizio con il miscelatore Soft e si è evoluto secondo canoni attuali accordando geometrie opposte per raggiungere forme perfette.

EN Reassuring and essential, the award-winning Brim collection stands out for its compact design that uses a single lexicon to elaborate two different shapes, the circle and the square. Designed by Ludovica+Roberto Palomba Brim is the synthesis of an industrial design project, that began with the Soft mixer and has evolved according to ever-modern canons, managing to tune opposing geometrics to achieve perfect shapes.

ES Reconfortante y esencial, la galardonada colección Brim se distingue por su diseño compacto, que elabora con un solo léxico dos figuras distintas, el círculo y el cua¬drado. Diseñada por Ludovica+Roberto Palomba Brim es la síntesis de un proyec¬to de diseño industrial que empezó con el monomando Soft y que ha evolucionado de acuerdo con los estándares actuales, combinando geometrías opuestas para lograr la perfección de las formas.

NIKKO

IT La forza estetica di Nikko si esprime in un insolito ossimoro tra linee dritte ed essenziali e forme morbide e rotonde che convivono nelle diverse declinazioni di questo miscelatore monocomando. Compatto, pratico, elegante è stato pensato per coniugare l'estetica con una produzione industriale efficiente e sostenibile. Nikko è infatti realizzato utilizzando ottone a basso contenuto di piombo e dispositivi in grado di controllare e limitare la portata d'acqua.

EN The aesthetic power of Nikko is expressed in an unusual contrast between the straight, essential lines and the soft, round shapes that coexist in the different versions of this single-lever mixer. Compact, practical and elegant, it was designed to combine impeccable style with efficient, sustainable industrial production. To that end, Nikko is made from brass with a low lead content, and devices that control and limit the water flow.

ES La fuerza estética de Nikko se expresa en un insólito oxímoron entre líneas rectas y esenciales y formas suaves y redondas que conviven en las diversas declinaciones de este mezclador monomando. Compacto, práctico y elegante, ha sido pensado para combinar la belleza estética con una producción industrial eficiente y sostenible. De hecho, Nikko está realizado utilizando latón con bajo contenido de plomo y dispositivos capaces de controlar y limitar el caudal de agua.

SIMPLY BEAUTIFUL

IT Caratterizzata da un segno deciso, puntuale, “semplicemente bella”, questa collezione di rubinetteria monocomando o tradizionale, progettata da Matteo Thun con Antonio Rodriguez, si distingue per essenzialità e trasversalità. Le esigenze estetiche non si piegano alla necessità di creare un prodotto accessibile e versatile, convivono al contrario con la volontà di raggiungere un pubblico sempre più vasto e incontrano i grandi numeri senza rinunciare alla qualità e all’incisività del progetto.

EN Characterised by decisive, punctual style, this collection of ‘simply beautiful’ single-lever or three hole taps designed by Matteo Thun with Antonio Rodriguez stands out for its essential look and overall adaptability. Aesthetic requirements are on equal footing with the need to create an affordable, versatile product. They coexist with the desire to open up to an ever-larger consumer base, reaching more people without sacrificing the quality or visual impact of the product.

ES Caracterizada por un signo estilístico «simplemente bello», marcado y preciso, esta colección de grifería monomando o tradicional diseñada por Matteo Thun con Antonio Rodríguez se distingue por su esencialidad y transversalidad. Las exigen¬cias estéticas no ceden a la necesidad de crear un producto accesible y versátil; por el contrario, conviven con la voluntad de llegar a un público cada vez más amplio al¬canzando grandes números sin renunciar a la calidad y a la fuerza del proyecto.

DOCCE

IT DOCCE

Sintesi perfetta tra tecnologia, design e performance, la doccia è il luogo del benessere del corpo e della psiche. Estetica e innovazione corrono in parallelo: il bagno si trasforma in un vero e proprio tempio del benessere, fulcro di indispensabili momenti nel segno del relax. L'acqua, simbolo della vita e fonte di rigenerazione, è l'elemento prezioso che Zucchetti celebra per assicurare il massimo piacere durante i rituali di cura del corpo nel luogo più intimo della casa.

HOOP	254	454
WATERCANDY	262	459
SOFFIONI + OUTDOOR	266	455

EN SHOWERS

The perfect synthesis of technology, fine design and high performance, the shower is the quintessential site of physical and mental well-being. Aesthetics and innovation run on parallel tracks: the bathroom transforms into a true temple to wellness, an altar of indispensable moments dedicated to relaxation. Water, a symbol of life and a source of rejuvenation, is a precious element that Zucchetti celebrates to ensure maximum pleasure while caring for the body in the most intimate room in the house.

ES DUCHAS

La cocina marca el perfecto equilibrio entre funcionalidad y vida social, creatividad y prestaciones. Tanto si se trata de un moderno open space en el que las dos zonas de la casa son comunicantes como de un ambiente de cocina más tradicional, Zucchetti propone soluciones pensadas para cultivar las relaciones y los momentos de vida en común prestando una gran atención al diseño y a los detalles capaces de marcar la diferencia. Porque la cocina es un escenario de momentos únicos e inolvidables, sinónimo del placer de disfrutar de una buena compañía.

HOOP

IT Versatile, essenziale nella forma, intuitivo e funzionale. Hoop, il sistema doccia a pulsanti disegnato da Matteo Thun e Antonio Rodriguez, è declinato nella versione termostatica per vasca e doccia, abbinando da una a quattro uscite acqua. Estetica e funzionalità sono nuove ed immediate. Con un semplice gesto, l'acqua si apre o si chiude premendo il tasto corrispondente.

Hoop può essere accostato a qualsiasi collezione di rubinetteria e installato in orizzontale o verticale, consentendo ampia libertà compositiva e garantendo sempre comfort e sicurezza.

EN Versatile, minimal, intuitive and functional. Hoop, the push-button shower system designed by Matteo Thun and Antonio Rodriguez, comes in a thermostatic version for bath and shower and can combine one to four water outlets. Aesthetics and functionality are new and immediate. A simple push of the corresponding button turns the water on or off.

Hoop can be teamed with any tapware collection and installed horizontally or vertically, permitting ample planning freedom and guaranteeing constant comfort and safety.

ES Esencial en sus formas, versátil, intuitivo y funcional. El sistema de ducha con pulsadores Hoop diseñado por Matteo Thun y Antonio Rodriguez ha sido declinado en versión termostática para bañera y ducha, combinando de una a cuatro salidas de agua. Su estética y su funcionalidad son nuevas y naturales. Con un simple gesto, el agua se abre o se cierra pulsando la tecla correspondiente.

Hoop puede unirse a cualquier colección de grifería e instalarse en horizontal o en vertical, por lo que ofrece una gran libertad compositiva garantizando siempre el máximo comfort y seguridad.

WATERCANDY

IT Funzionalità ed ergonomia incontrano eleganza e modernità delle forme nel progetto WaterCandy firmato da Ludovica+Roberto Palomba. Un'innovativa e rivoluzionaria doccetta a mano, maneggevole e leggera, che offre un'esperienza unica di massaggio idroterapico a intensità variabile, per lasciarsi cullare dalla morbidezza e dalla rotondità dell'acqua. Per assecondare momenti di benessere personalizzabili e fruibili da tutti, portando all'interno delle mura domestiche tutto il piacere di una spa.

EN Functional design and ergonomics meet elegance and modernity in the shapes of WaterCandy by Ludovica+Roberto Palomba. An innovative, revolutionary, lightweight hand shower that is easy to handle, wich offers a unique hydrotherapy massage experience in varied intensities, all while being cradled by the soft roundness of water. Customisable moments of wellness to be enjoyed by everyone are its vocation, bringing the pleasure of a spa within the domestic walls.

ES La funcionalidad y la ergonomía se unen a la elegancia y la modernidad de las formas en el proyecto WaterCandy firmado por Ludovica+Roberto Palomba. Una innovadora y revolucionaria ducha de mano, manejable y ligera, que ofrece una experiencia única de masaje hidroterápico de intensidad variable para dejarse mecer por la suavidad y la sonoridad del agua. Para acompañar momentos de bienestar personalizables y al alcance de todos llevando a nuestro hogar el placer de una espá.

Ducha de mano para masaje cuerpo 3 chorros

SOFFIONI+ OUTDOOR

IT L’ambiente bagno si trasforma in un’oasi votata al benessere, leggerezza e serenità. Il potere pacifico e rigenerante dell’acqua si ottiene grazie a una pioggia riposante e massaggiante che arriva dall’alto oppure grazie a un getto a cascata che rilassa e tonifica il corpo, coinvolgendo tutti i sensi. Un luogo ad alto tasso di design e personalizzazione, dove recuperare energia fisica e mentale plasmato sulle proprie necessità ed esigenze estetiche.

EN SHOWER HEADS

Bathrooms transform into oases of well-being, repose and serenity. The peaceful, restorative power of water is channelled through soothing, massaging rain falling from above, or such as a cascading stream, which relaxes and tones the body, engaging all senses. A place infused with design and customisation, shaped around personal needs and aesthetic requirements, where recovering physical and mental energy.

ES CABEZALES DE DUCHA

El ambiente del baño se transforma en un oasis dedicado al bienestar, la ligereza y la serenidad. El poder pacífico y regenerador del agua se obtiene gracias a una lluvia que llega de lo alto ofreciendo un masaje restaurador o con un chorro en cascada que relaja y tonifica el cuerpo involucrando todos los sentidos. Un lugar con un alto nivel de diseño y personalización donde recuperar la energía física y mental, plasmado según las propias necesidades y exigencias estéticas.

ELETTRONICI

IT ELETTRONICI

L'immediatezza del gesto, la semplicità dell'azione. Basta un semplice passaggio della mano per attivarlo: il rubinetto elettronico è dotato di un dispositivo intelligente che consente di rilevare i movimenti e azionare l'acqua. Una soluzione altamente tecnologica e funzionale, ideale per l'ambito contract ma anche privato, che consente un cospicuo risparmio d'acqua, nel segno della sostenibilità. I rubinetti con sensore sono durevoli, resistenti ed efficienti, grazie alla batteria integrata che garantisce sicurezza, facilità d'installazione e manutenzione.

EN ELECTRONICS

Direct movements, simple actions. All it needed is a mere hand passing to activate them: electronic taps are equipped with a smart device, that makes it possible to detect movement and get water flowing. A hi-tech, practical solution ideal for contract projects and even individual customers, saving an impressive amount of water in the name of sustainability. Taps with sensors are durable, long-lasting and efficient thanks to an integrated battery that ensures their safety, easy installation and simple maintenance.

ES ELECTRÓNICOS

La espontaneidad del gesto, la simplicidad de la acción. Es suficiente pasar la mano para activarlo: el grifo electrónico está dotado de un dispositivo inteligente que permite detectar los movimientos y accionar el agua. Una solución altamente tecnológica y funcional, ideal tanto para el ámbito contract como para el particular, que asegura un ahorro considerable favoreciendo la sostenibilidad. Gracias a la batería integrada, que garantiza su seguridad y facilidad de instalación y mantenimiento, los grifos con sensor son eficientes, resistentes y duraderos.
