We will send you detailed data sheets of interesting items

In the Bathroom catalog you can discover fantastic dispensers for all kind of tissue, made of bamboo wood, recycled and antibacterial plastic, brass or Aisi 304 Steel

Some of which available on free loan with tissue supplies long time accord

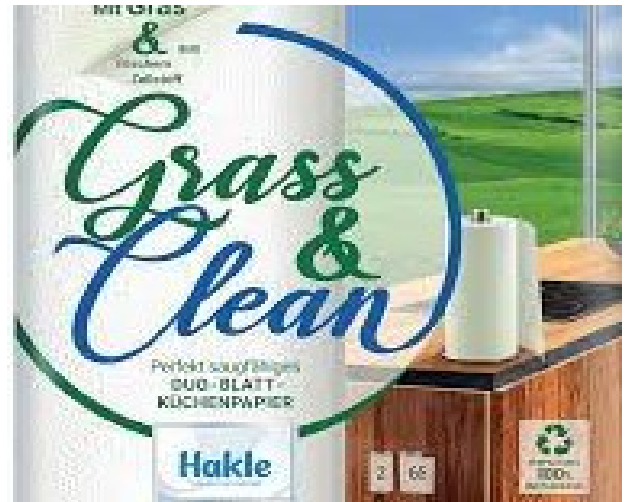

Tissue footprint and EcoTissue

We are losing forests surfaces at a staggering rate generating climate and environmental impacts that threaten to become irreversible

Only in 2022 we lost 4.2 million hectares of forest, an area the size of the Netherlands, were in primary tropical moist forests, which are particularly important for carbon storage and biodiversity

The destruction resulted in carbon emissions (2.64 Gt CO₂) equivalent to the annual emissions of 570 million cars, more than twice the number of cars on the road in the United States

Much of the deforestation is caused by intensive agriculture, but tissue production also plays a role because there are few sustainable alternatives to paper made from trees. Every minute an area of forest the size of about 20 football pitches disappear for create tissue products

With Ecotissue, we propose innovative low impact tissues: made from bamboo, field grass, recycled paper and unbleached paper. All Promotable with EcoHero

Tissue e Towels

Bamboo is an innovative, renewable and biodegradable raw material perfect for create GreenGuroo tissue and disposable towels

Discover more about Bamboo EcoRevolution and all GreenGuroo professional collections at this [LINK](#)

Tissue

New technology makes it possible to produce 100% virgin bamboo tissue, improving quality and avoiding deforestation

Bamboo has much longer fibers compared to trees, perfect to create a superior quality paper, like an Egyptian cotton of tissue products

More velvety, durable and absorbent than other types of tissue, it doesn't release dust and doesn't flake when wet

Fully biodegradable and free from chemicals, BPA, dioxins, pesticides, talcum, fragrances

Safe for the skin, hypoallergenic and non-cytotoxic, they help prevent irritation and skin problems and their natural properties slow the proliferation of fungi and bacteria

No bleaching agents that would ruin the elegant and natural amber colour

By choosing ImBamboo tissue, your accommodation becomes more sustainable and with EcoHero you can promote it, increasing bookings and positive feedback

BIO TECH is the active toilet paper that **combats bacteria** and **cleans the pipes** in your restrooms.

SAFEZONE

Frequently clogged toilets and strange smells from plumbing? often are caused by stubborn bacterial fouling that populates your drains. BioTech will help you eliminating clogs and odors decreasing maintenance costs by 40 percent by year

It is the only tissue in the world produced with Biologic Active technology based on BAPT enzymes, harmless to humans and the environment, which upon contact with water are activated, feeding on the organic material and bacterial buildup in the pipes, leaving them flowing, sanitized and odor-free

FSC and Ecolabel certified, dermatological tests by the prestigious Chelab Institute, and won the 2015 PPI award, reserved for the world's most innovative tissue solutions. Promotable with SafeZone

BIO TECH

Perfect with all types of drains, Biotech is the perfect choice for planes, trains, boats, RVs, and all situations with problematic drains, like septic tanks, chemical toilets, and bathhouses

MadeInItaly

Problematic drains or guests who insist on flushing paper towels down the toilet, ignoring your warnings? Avoid continuous clogging with DissolveTech, Papernet's patented fast-dissolving virgin cellulose tissue line, which disintegrates in seconds on contact with water

Other manufacturers reduce thickness and offer fast-dissolving products that are not very absorbent, DissolveTech provides the same quality and absorbency as other Papernet products while guaranteeing record dispersion times: 6 seconds for toilet paper and 3 minutes for towels, certified by the prestigious Centre technique du papier in Grenoble

Perfect with all types of drains, DissolveTech is the best choice for planes, trains, boats, RVs, and all situations with problematic drains, like septic tanks, chemical toilets, and bathhouses

DissolveTech also respects the environment: it is Ecolabel certified and most products are packaged in plastic-free paper EcoPacks

Medical sheets

From 50 to 77 meters long, 35 to 90 cm wide, also Class I medical devices

Cleaning

Cleaning

Cleanliness is the factor that most influences the feelings and feedback of your guests, especially after the Covid pandemic, which has increased the demand for hygiene and safety

Professional cleaning has nothing to do with domestical cleaning, and often using products designed for the home does not save money: they are generally less effective and sometimes so diluted that you need 30-50% more than a professional cleaner

The use of non-compliant products, combined with incorrect procedures, can make cleaning operations take longer and be less effective, and can lead to sanctions or temporary closures, causing irreversible damage to image and reputation by wiping out any supposed savings

To solve all these problems and make your work easier, we offer you innovative and efficient solutions, all 100% Made in Italy, designed to optimise the cleaning of surfaces, dishes and fabrics, helping you to comply with regulations and protect the safety of your guests and, if you wish, the environment

Concentrated detergents in water-soluble capsules, modular cleaning trolleys, eco-friendly and antibacterial sponges and cloths, and a tailor-made program that allows you to professionalise and optimise your cleaning processes

If you choose eco-friendly or antibacterial solutions, you can promote them with SafeZone and EcoHero.

MadeInItaly

EcoHero **SAFEZONE**

Sutter
PROFESSIONAL
Hi-cleaning Solutions

ecocaps™

Made in Italy quality and Swiss technology in Sutter's line of concentrated detergents, designed for professional use and to reduce environmental and logistical impact

Contained in pre-dosed water-soluble capsules, they are compact and easy to use: simply dilute them in the appropriate spray bottles, buckets or directly in the tank of the scrubbing machine and they are ready to use in seconds

Environmentally friendly, respect traditional solutions they reduce plastic use by 78%, Co2 in ambient by 74% and logistical impact by 93%

Cam and Ecolabel certified, can be promoted by EcoHero

Zero
natural force

With H+SuMisura you can discover all other Sutter alternative including the innovative Zero Natural Force and Sanify+ lines

You can also discover, innovative dilution systems for concentrated detergents, air fresheners, enzymatic cleaners for drain and pool cleaning and many other innovative solutions

Pro

In 2 simple steps you can optimise your cleaning procedures, ensuring maximum hygiene and safety for your guests, save resources and be 100% compliant with regulations

Free of charge and without obligation, our experts will carry out an on-site analysis to observe the products and procedures you use to clean surfaces, dishes and fabrics. We will then propose a tailor made hygiene plan, suggesting the best procedures and products

Over 3000 products in the catalogue, all made in Italy and available in various versions, including CAM, Ecolabel and Icea Bio, HACCP or PMC certified solutions

Not only the supply, but also the training of your staff in the most efficient procedures for the use of the products and, if you wish, free periodic monitoring to check and possibly renew the hygiene plan

MadeInItaly

By choosing pro solutions you will also obtain on a free loan the professional dilution systems that will allow you to use hyper-concentrated products and save 80% of packaging compared to standard solutions, lowering the logistical, environmental and even cost impact of detergents

Systems are managed by software that ensures accurate dosing to the milliliter and are equipped with a filter system to purify and demineralize the water to obtain pure products without bacterial contamination, identical to those pre-diluted in factories

Made in Italy, can contain up to 12 concentrated products, built with high-quality components, they will be kept efficient through a free periodic maintenance program and, in case of malfunctions, intervention is guaranteed within the next 24 hours

The Plus version is also equipped with a touch screen to manage procedures and monitor usage by each operator via a personal badge recognition system

You can also install dilution systems to perfectly dose concentrated detergents for washing machines, dishwashers, and glasswashers

Cleaning Trolley

Modular, environmentally friendly and safe, made from antibacterial recycled plastic: IPPR certified (Institute for the Promotion of Plastics from Recycling) and treated with silver ions to reduce bacterial and viral load. Also available with MDF components with patented Rilsan antibacterial treatment

All solutions are 100% Made in Italy, CAM certified and promotable with SafeZone and EcoHero

TAGLIA GUANTI	6	7	8	9	10	11
CIRCONFERENZA MANO - MM	152	178	203	229	254	297

All Reflexx gloves comply with EN 420:2003 and are therefore made in sizes that meet international standards

For guests we usually offer size L, which is the most universal. For staff, however, it is important to use the chart and choose the perfect size to ensure maximum performance

With H+SuMisura, you can discover the entire Reflexx glove catalog, with alternatives in biodegradable natural latex, vinyl and nitrile, including hypoallergenic, accelerant-free, powdered, additivated with aloe, colloidal oats. Also reusable models for kitchen, cleaning and maintenance

Chef Line

Special collection developed with the Italian Cooks Association to ensure maximum performance in the kitchen

PPE cat III PPE certified CE, Moca for food contact, EN ISO 374-5:2016 against Bacteria, Fungi and Viruses

Made of nitrile and free of major allergens, such as latex, gluten, silicone or nickel

Powder-free, reinforced cuff and internal chlorination for easier wearing, with micro-roughened surface for super grip

Clearly detectable blue in color to avoid any micro-fragment leakage into the plates

EN ISO 374-1:2016/Type B

EN ISO 374-5:2016

R77

Only 0.06mm and 3g in weight, made to maximize sensitivity. Certified as medical-surgical devices

H+DP25748	100	S
H+DP25749	100	M
H+DP25750	100	L

Avviso

Hospitality Plus è un'azienda di TOT Group. Sebbene le informazioni contenute nel presente catalogo siano riportate in buona fede e ritenute corrette al momento della stampa, TOT Group non rilascia alcuna garanzia in merito alla completezza o all'accuratezza delle stesse.

TOT Group si riserva il diritto di cambiare, cancellare o modificare in altro modo le informazioni rappresentate senza alcun preavviso. In nessun caso TOT Group sarà responsabile per danni di qualsiasi natura derivanti dall'uso o dalla fiducia nelle informazioni di questo catalogo o dai prodotti a cui le informazioni si riferiscono. Tutti i pesi e le misure indicati sono le migliori approssimazioni

Il possesso del nostro listino prezzi non costituisce un'offerta di vendita. I prezzi indicati sono prezzi di listino e sono soggetti a sconti commerciali e a modifiche senza preavviso. I prezzi possono modificarsi senza preavviso a causa di aumenti imprevisti delle materie prime o delle fluttuazioni di valuta

Controlliamo attentamente i prezzi e le specifiche tecniche dei prodotti, ma occasionalmente possono verificarsi errori, quindi ci riserviamo il diritto di cambiare entrambi senza preavviso. Non siamo responsabili degli errori dei prezzi dei clienti. Possono verificarsi alcune variazioni tra l'immagine e il prodotto. Alcuni prodotti elencati possono essere articoli non in stock.

Disclaimer

Hospitality Plus is a TOT Group company. Although the information in this price list is presented in good faith and believed to be correct at the time of printing, TOT Group makes no representations or warranties as to the completeness or accuracy of the information.

TOT Group has no liability for any errors or omissions in the materials. TOT Group reserves the right to change, delete, or otherwise modify the information which is represented without any prior notice. In no event will TOT Group be responsible for damages of any nature whatsoever resulting from the use of or reliance upon information from this catalog or the products to which the information refers. All weights and measures shown are best approximations.

Possession of our price list or literatures does not constitute an offer to sell.

Prices shown are list prices and are subject to trade discount and to change without notice. Prices may also be changed without notice due to unforeseen cost increases of raw materials or currency fluctuations. We carefully check pricing and product specifications, but occasionally errors can occur, therefore we reserve the right to change both without notice. We are not responsible for customer pricing errors. Some variations between picture and product may occur. Some products listed may be non-stock items.
