

## Principal's Message

Nothing great is ever achieved without much enduring. –  
 St. Catherine of Siena

### Dear Parents/Guardians,

The 2020/2021 academic year has indeed been a memorable one. We began this year with full virtual classes using the Google Classroom platform. However, thanks to the foresight, planning and commitment of the administrators, teachers and the entire Catholic Board of Education staff, our schools were able to successfully transition to face-to-face instruction. Although this shift to in-person learning brought many obstacles and challenges, we were ultimately able to provide a high quality of education in a safe environment; a reality that could not be achieved without the protection and guidance of our Heavenly Father. As we conclude a second school year while navigating a global pandemic, it is helpful to take a moment to reflect on the many lessons learned over the past nine months. Perhaps one of the most significant is that of the importance of resilience and teamwork. We were able to accomplish many successes this year because we resolved to work together toward a common goal. Hence, we would like to applaud all stakeholders who supported our school community. We especially say thank you to our parents and students who adhered to the many safety protocols and other restrictions associated with these unusual times. Former president of the United States, Barack Obama stated, "We must choose hope over fear and see the future not as something out of control but as something we can shape for the better through concerted and collaborate effort." As we prepare for the 2021/2022 school year it is more crucial than ever that we commit to a continued partnership; working together as a school family to shape a bright and hopeful future for our children and this nation.

**Have a wonderful summer break and may God continue to bless and guide you throughout these months.**
