

ROGELLI

CATALOG FALL/WINTER 2020

OUR STORY

Rogelli Sportswear was founded in 1974 and bought by Rini Wagtmans in 1992. The well-known Dutch cyclist rode the French Alpes and Pyrenees several times in his professional career. In the Tour de France this brought him once the yellow jersey, three stage wins and a fifth and six place in the general classification. He rode all his races with old acrylic jerseys, which were not comfortable and heavy due rain and perspiration. That's why Rini went looking for new technologies and improved fabrics that would turn-around the world of sportswear. His search brought him in Italy and imported this revolutionary technology to the Netherlands; Rogelli Sportswear was born.

Our mission is to inspire and motivate athletes to have fun while working-out. We strongly believe that we make sport clothes which makes everyone happy. Our clothing is made of the best fabrics with the right functionality. With our gear we would like to contribute to your happiness which makes sure you stay motivated for the long time.

ENJOY THE DISTANCE

A cyclist is shown from the waist down, riding a black road bike on a dirt path. The cyclist is wearing black cycling pants with a white stripe on the back, black socks, and black cycling shoes with 'ROSELLI' written on the side. The bike has 'CONTINENTAL' tires and a water bottle is mounted on the frame. The background is a blurred forest. The image is framed by a dark blue diagonal shape on the left and bottom, and a white diagonal shape on the right.

EYEWEAR TECHNOLOGIES

All Rogelli glasses are provided with polycarbonate lenses:

- lightweight
- very clear
- decentred
- scratch resistant
- 100% UV400 protection
- resistant against extreme temperatures

INTERCHANGEABLE LENSES

Easily take the lenses out of the frame and simply click in a pair of alternate lenses. In that way, the glasses are suitable for every weather situation.

ADJUSTABLE TEMPLE TIPS

The hypoallergenic rubber temple tips can be shaped to the face contours. In that way, the glasses are comfortable for everyone.

ADJUSTABLE NOSEPIECE

The nosepiece can be shaped to the nose contours. In that way, the glasses are comfortable for everyone.

TR90 MATERIAL

TR90 is a lightweight and flexible fabric. Thereby, the glasses are bendable and have a high fracture resistance. TR90 safe guards quality and sustainability.

CLEANING POUCH INCLUDED

The pouch which is included, also functions as a cleaning cloth for the lenses.

ADJUSTABLE
NOSE PIECE

TR90
LIGHTWEIGHT
MATERIAL

EASY SYSTEM
FOR CHANGING
THE LENSES

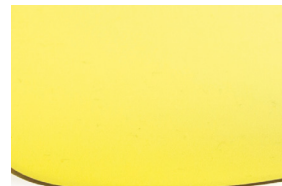

ADJUSTABLE
TEMPLE TIPS

CLEAR

These transparent lenses allow nearly every ray of a light. Wear them at night to keep wind, bugs and dirt out of your eyes.

Best for night riding
Light transmission 90-95%

YELLOW

The sunny hue increases clarity and can brighten colors (and your disposition). The tint helps objects pop against dark or gray backgrounds.

Best for stormy weather
Light transmission 70-90%

SMOKE

This darker, neutral shade won't distort colors, which means you can discern red lights from yellow ones. But it enhances contrast less than colored tints.

Best for sunny days
Light transmission 15-18%

REVO

Revo is a contrast increasing coating which provides mirror lenses. Because they make objects appear darker, mirrored coatings often are paired with lighter shades.

Best for glaring sun
Light transmission adds 3-7%

PHOTOCHROMIC

Photochromic lenses are ideal for cycling. These lenses darken on exposure to specific types of lights, for example bright sunrise. In absence of activating light, the lenses return in clear state. This way, you don't need to change your lenses depending on the light.

A dynamic photograph of two triathletes swimming in the ocean. The triathlete in the foreground is wearing a red triathlon suit, a white swim cap with 'PERSONAL SWIM' and a logo, and black swim goggles. He is captured mid-stroke, with water splashing around his head and arms. The triathlete in the background is wearing a black and yellow triathlon suit and a white swim cap. The background shows the blue ocean and a white horizon line.

SIZECHART

Every body is built differently. At Rogelli we strive to find suitable clothes. Rogelli uses three kinds of fits, namely comfort, race and pro.

COMFORT FIT RECREATIVE

The Comfort fit is especially made for those who prefer pleasure and comfort over aerodynamics, for example the recreational rider.

RACE FIT COMPETITIVE

The focus of the Race fit lies on endurance using comfortable and supportive performance fabrics for long distance races. It's not as slim fitted as compression shirts, but it's a good mix of aerodynamics and comfort.

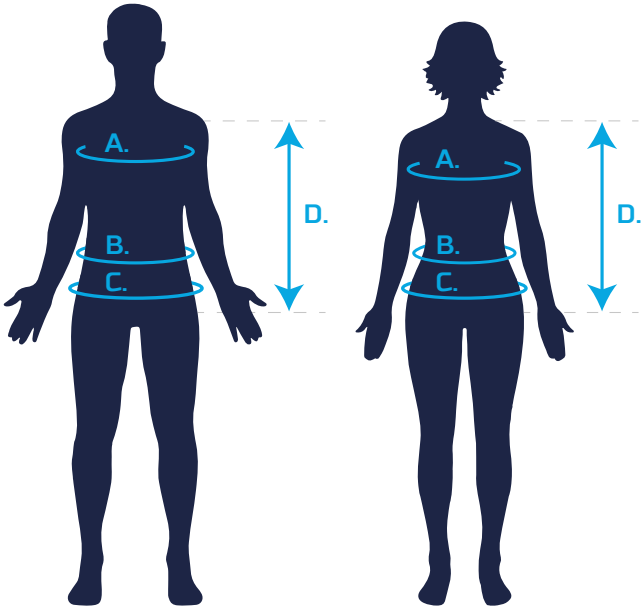

PRO FIT PROFESSIONAL

The Pro fit is for the competitive cyclist who prefers technology, innovation, lightweight materials, aerodynamics and love to wear a shirt as their second skin.

ROGELLI DISTRIBUTORS

Size A: To measure your chest, place the measuring tape just under the armpit and measure the fullest part of the chest. Women: place the measuring tape just below the armpit and measures around the chest.

Size B: To measure your waist, place the tape measure at the narrowest point of the waist.

Size C: To measure your hip size, place the measuring tape at the widest point of the hips.

Size D: Is the length from the top of the back to where the bottom of the shirt should come.

ICONS

4 WAY STRETCH

Elastic fabric that moves with the body for optimal freedom of movement.

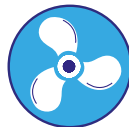

LIGHTWEIGHT

Ultralight material that provides a gravity-defying sensation.

BREATHABLE

Expels moisture away from the skin to the outside of the garment. Keeps cool and dry during intense workouts.

STRATEGIC VENTILATION

Strategic ventilation ensures that the product gives extra ventilation on specific parts of the product.

QUICK DRY

Quick-drying fabric that expels moisture away from the skin and keeps you cool during sweaty workouts.

FLEECE INNER LINER

The fleece inner liner provides extra warmth, is soft and feels comfortable on your skin.

WINDPROOF

Protects your body from the wind.

WATER REPELLENT

A fabric which has been treated with a surface coating. This coating makes that water doesn't penetrate easily.

WATERPROOF

Waterproof fabric that keeps you dry in pouring rain.

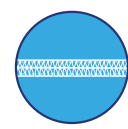

TAPED SEAMS

Taped seams assure a waterproof design.

REFLECTIVE

Reflective technology increases the visibility in the dark when light the product reaches.

FLATLOCK STITCHING

This way of stitching creates a flat seam. In order to create a higher level of comfort.

POWER GEL

MEN PADDING

This padding provides very good protection for long distances, for medium intensive usage (on- and off-road). The Power Gel is specially designed for male anatomy, since it gives a good freedom of movement due to minimum extra volume. Also, the padding is very light weighted and has molded wings. Furthermore, the fabric is soft, has good breathability, and dries quickly.

- Designed for long distances
- High density foam, up to 85 kg/m³
- Maximum thickness of 13,5mm
- Soft touch surface fabric
- Provides excellent freedom of movement
- Very light weight construction with pre-molded wings
- Good breathability and quick dry
- Gel inserts to reduce vibrations
- Made with Italian fabrics

//SUGGESTED DURATION

1	2	3	4	5	6
HOUR	HOURS	HOURS	HOURS	HOURS	HOURS

EVO-1 GEL

MEN PADDING

The EVO-1 gel, with its Italian fabric, is specially designed for long distance rides. The padding, with a maximum thickness of 12mm, provides excellent freedom of movement. The pre-molded wings and perforated foam improve comfort. Also, the gel reduces vibrations.

- Designed for long distances
- High density foam, up to 90 kg/m³
- Maximum thickness of 12mm
- Provides excellent freedom of movement
- Pre-molded wings
- Perforated to improve breathability
- Gel inserts to reduce vibrations
- Made with Italian fabrics

//SUGGESTED DURATION

HOUR	HOURS	HOURS	HOURS	HOURS

COMFORT GEL

MEN PADDING

The Comfort gel padding is perfect for medium and long distances. The gel padding reduces vibrations easily. The perforated padding enhances the breathability and the pre-molded wings the comfort.

- Designed for medium and long distances
- High density foam, up to 120 kg/m³
- Maximum thickness of 13,5mm
- Pre-molded wings
- Perforated to improve breathability
- Gel inserts to reduce vibrations

//SUGGESTED DURATION

1	2	3	4
HOUR	HOURS	HOURS	HOURS

ACTIVE

MEN PADDING

This padding is ideal for short and medium distance rides. The Active has a maximum thickness of 10mm. The pre-molded wings and the soft touch surface fabric provide excellent freedom of movement.

- Designed for short and medium distances
- High density foam, up to 45 kg/m³
- Maximum thickness of 10mm
- Soft touch surface fabric
- Provides excellent freedom of movement
- Pre-molded wings

//SUGGESTED DURATION
