

ADVENT GIFT GUIDE 2021

OUBAS

KNITWEAR | MADE IN BRITAIN

We carefully craft our knitwear here in
England using carefully sourced, pure
natural fibres to create beautiful
pieces to enjoy forever.

From our knitwear studio in the
Lake District, to you.

Welcome...

We have created an advent gift guide this year for the first time to give you an insight into our world and inspire you with gifting something to be treasured this season.

All our knitwear pieces are made carefully by myself, and my small team in our knitwear studio in Ulverston, Cumbria. You can visit us here too and see how we make all our pieces, or create something a little more bespoke.

Additionally, we have also included an insight into our favourite craftspeople and independent businesses that, like us, are striving to make a difference to both people and the planet.

Get cosy with a cup of something and enjoy our guide...

THE OUBAS STORY

HOAD HILL. MONUMENT, AND HAMILTON GROVE.

OUBAS: pronounced 'oo-bas'
Named after 'Oubas Hill', Ulverston, Cumbria.

We are passionate about producing knitwear in Britain. Since 2012 we have been creating our own designs using the finest natural fibres.

OUBAS was launched for a few different reasons, encouraged primarily by intuition and a desire to be a positive force within the fashion landscape.

Having gained skills in traditional knitwear production, founder Kate Stalker wanted to create something that was a slow, local alternative to a vast global industry.

The complexities of the industry brought insight to what needed to shift over the coming decades if as a population we are to stop damaging both people and the planet. Through OUBAS we offer a hopeful and positive community where a closer relationship between 'consumer' and a clothing label can be enjoyed.

A greater personal connection to an item of clothing is encouraged, through our limited run collections and transparent processes. Throughout history trade and art have been interlinked, and we believe creativity is needed in these times more than ever.

Our vision is to build something that has a positive and lasting effect on employment in our local area and the skills associated with knitwear and clothing.

OUR STUDIO

Our studio is based in Ulverston, which is in the South Lakes just outside the Lake District National Park.

Combining traditional craft with innovative knitwear technology, we create knitwear that lasts using the finest natural fibres.

We officially opened our studio to the public in October 2021, allowing you to visit the space where we operate, to ask questions, to connect to the complete design process and develop a greater connection to the heritage and future of our local area.

THE BRITISH WOOL COLLECTION

This year our founder Kate worked closely with Maria of Nibthwaite Grange Farm, 8 miles from the OUBAS studio, to spin three exclusive yarns for our knitwear using local fleeces. These are three beautiful undyed blends, each using Blue Faced Leicester with another local wool. We had these yarns spun in a small mill in Yorkshire and as with all our knitwear, we produce these items ourselves in Cumbria.

The Soft Brown is a blend of rare breed Castlemilk Moorit with Blue Faced Leicester, the Slate Grey is Hebridean with Blue Faced Leicester, and the Ecu is Teesewater with Blue Faced Leicester. Each of these yarns have slightly different characteristics as well as their shade. The Ecu has the most sheen as the lightest and most silky, Soft Brown is lofty and soft, whilst the Slate Grey has a rich depth and more texture.

The Hollins British Wool Poncho

£165.00

100% local Cumbrian British Wool

Our blend of Castlemilk Moorit with Blue Faced Leicester

The Hollins is a simple, understated poncho shape in a timeless moss stitch. With enough tension for structure but loose enough that the fabric is still soft and cosy, twist to wear as an elegant cape, or cosy up in a winters evening with it over your knees.

Our Piel Cable Sweater is named after a local island Piel Island off the coast of Morecambe Bay, south of the Lake District National Park. The fleeces used were sourced in collaboration with local farmers within 10 miles of the OUBAS studio and the yarn was spun in Yorkshire. We knit each of these jumpers for you to order in Cumbria.

THE IRISH DONEGAL MERINO COLLECTION

Merino grow a beautiful, fine micron fibre and the fine count of the fleeces means it can be spun much finer than many British Wools, which is why we choose to use it for our knitwear.

Donegal is a traditional yarn spun in Donegal, Ireland. It has beautiful slubs within the yarn adding specks of colour to the knit. There is no other traditional Donegal, we use the only one still spun and dyed in Ireland.

RETURNS AND EXCHANGES

This year we have extended the date of our returns and exchanges for Christmas purchases until January 14th 2022.

CELEBRATING OUR COMMUNITY

OUBAS is proud to be a part of a network of independent brands and craftspeople who are working hard to preserve traditional skills, champion innovative manufacturing techniques and redefine what it means to run a business; all whilst using natural resources that best honour our planet and its future.

In celebration of this, we have highlighted a selection of our favourites to raise awareness for these individuals and teams situated nearby in Cumbria and further afield in the UK.

To find out more about each, please click on their name to follow a link their website or social page.

WORKING IN HARMONY WITH THE LAND

Lorna Singleton

Oak swill basket, coppicing and leatherwork
Grizedale Forest, Cumbria

Lorna creates baskets based on the traditional patterns from the South Cumbrian region, as well as contemporary applications of this historic practice.

Proving the importance of Lorna's work, in 2017 oak swill basketry was listed as a Critically Endangered Craft in the Radcliffe Redlist of Endangered Crafts and as part of the 2021 update, hazel basketry has now also been added.

Heft – chef Kevin Tickle

Local foraged food

Newton in Cartmel, Grange-over-Sands

Like the Herdwick, Kevin and Nicola Tickle are ‘Hefted’ to Cumbria. Nicola is from a family that have continuously farmed the fells and valleys of the Lake District since the 1600’s.

Kevin, also Cumbrian born, was taught by his father to forage and fish. He understands the rhythms of the lakes, becks, heaths and the sea. They are of this landscape, Cumbria is their Heft.
