# About Rim

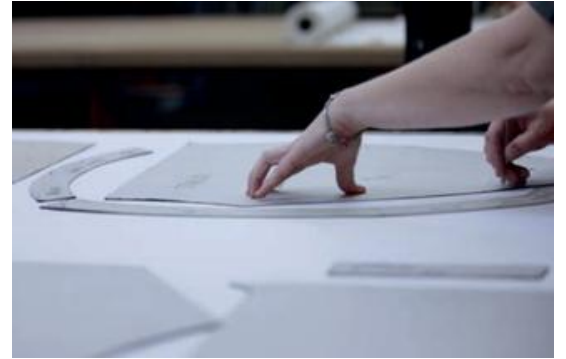

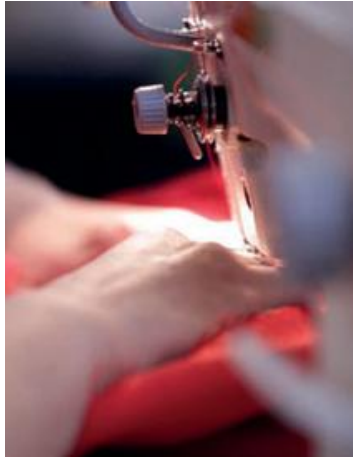

RIM CZ was established in 1991 with a mission to craft chairs that captivate: ergonomic, functional, durable and distinguished by high-quality design. For over 30 years, we have consistently achieved this goal.

Today, chairs from RIM bring comfort to hundreds of thousands of individuals worldwide, enhancing their workplace experiences. While our product portfolio continually expands, the fundamental principles endure despite the changes of three decades.

At the core of our philosophy lies the commitment to the excellent ergonomics of each product. The incorporation of high quality materials, meticulous craftsmanship, unique design, and a steadfast commitment to sustainability has been our guiding ethos since the outset.

**KOPLUS UK** have partnered with Rim Seating to offer the entire collection to the UK market from our **London showroom in Clerkenwell.**

# Designers

For us, design is not only a matter of personal taste, but also a way to develop innovative and successful products. What makes them unique and recognizable is the combination of our technological solutions with the creative minds of talented designers.

Robin Platt (UK)

Massimo Costaglia & Giulio Mazzanti (IT)

Alegre Design (ES)

# Sustainability

From our inception, our business has been grounded in steadfast principles and responsibility. We approach all our activities, including the development of new products, material procurement, production, transportation of goods, and customer service, with a profound respect for the environment and society.

Our sustainable development strategy is built on the following pillars:

- Effective utilisation of resources and adherence to a circular economy
- Commitment to climate change action
- Prioritising the well-being of people

In alignment with these values, we adhere to the environmental management system outlined in the internationally acclaimed **ISO 14001** standard. This framework delineates the approach of business institutions toward environmental protection, aids in mitigating negative impacts, and ensures compliance with legal regulations.

# Work Chairs

Seating for task-focused activities

# Muuna

Design:  
Massimo Costaglia  
& Giulio Mazzanti (IT)

When it comes down to it, Muuna can add charisma to any interior. Its distinctive character is underlined by the armrests and the seat combined into one optical unit, inviting you to take a seat.

The neo-retro design of the Muuna, is allied with the comfort of a meeting room chair and the flexibility of a task chair.

MU 3101.15  
SELF 1C

MU 3101.04  
SELF 1C

For easier maintenance, optional padding of the upper part of armrests in washable Silvertex imitation leather available.

Step into your home office, take a seat and let the integrated SELF mechanism set everything up for you.

Environmentally-friendly Oceanic fabric is made from recycled plastic waste that currently pollutes our seas and oceans.

# Linna

A premium choice for executive offices and meeting rooms. The high backrest adds a touch of authority, while the lower height are perfect as meeting chairs. Fully upholstered, with a swivel five-star base and armrests, it ensures comfort during intense work sessions.

Design:  
**dieSitzarchitekten –  
DESIGNTEAM (DE)**

LN 3110

LN 3111

LN 3110 Alu

LN 3111 Alu

A lightweight and elegant shell, which, thanks to its well-thought-out construction and hidden SELF mechanism, allows for synchronous seat and backrest movement.

# Tea

The elegant curves and slender profile of the backrest, paired with a thoughtfully selected mesh, render the Victory task chair a visually striking element that cannot go unnoticed. It's not merely a victory for your back but also for enhancing the aesthetics of your office interior.

Design:  
**Massimo Costaglia & Giulio Mazzanti**

The award winning **TEA** collection is suitable for managerial offices and meeting or conference rooms.

It will also fit perfectly in relaxed spaces, hotel lobbies and reception areas. Spacious and comfortable, TEA chairs were crafted with meticulous attention to detail, especially the stitching.

Seen above with Kloe swivel chairs on 4-star wood base.

**reddot** award 2017  
winner office design

The 4-star polished base with glides offers a fixed swivel meeting chair and the perfect partner for boardroom or meeting tables.

Fully-upholstered Executive chair with medium or high backrest (with integrated headrest) and five-star polished aluminium base and arms. The Ergorelax mechanism offers great support for the user and creates a feeling of distinction and design class. TEA also looks fantastic in leather design with contrasting STYLE A sewing detail.

# Modaq

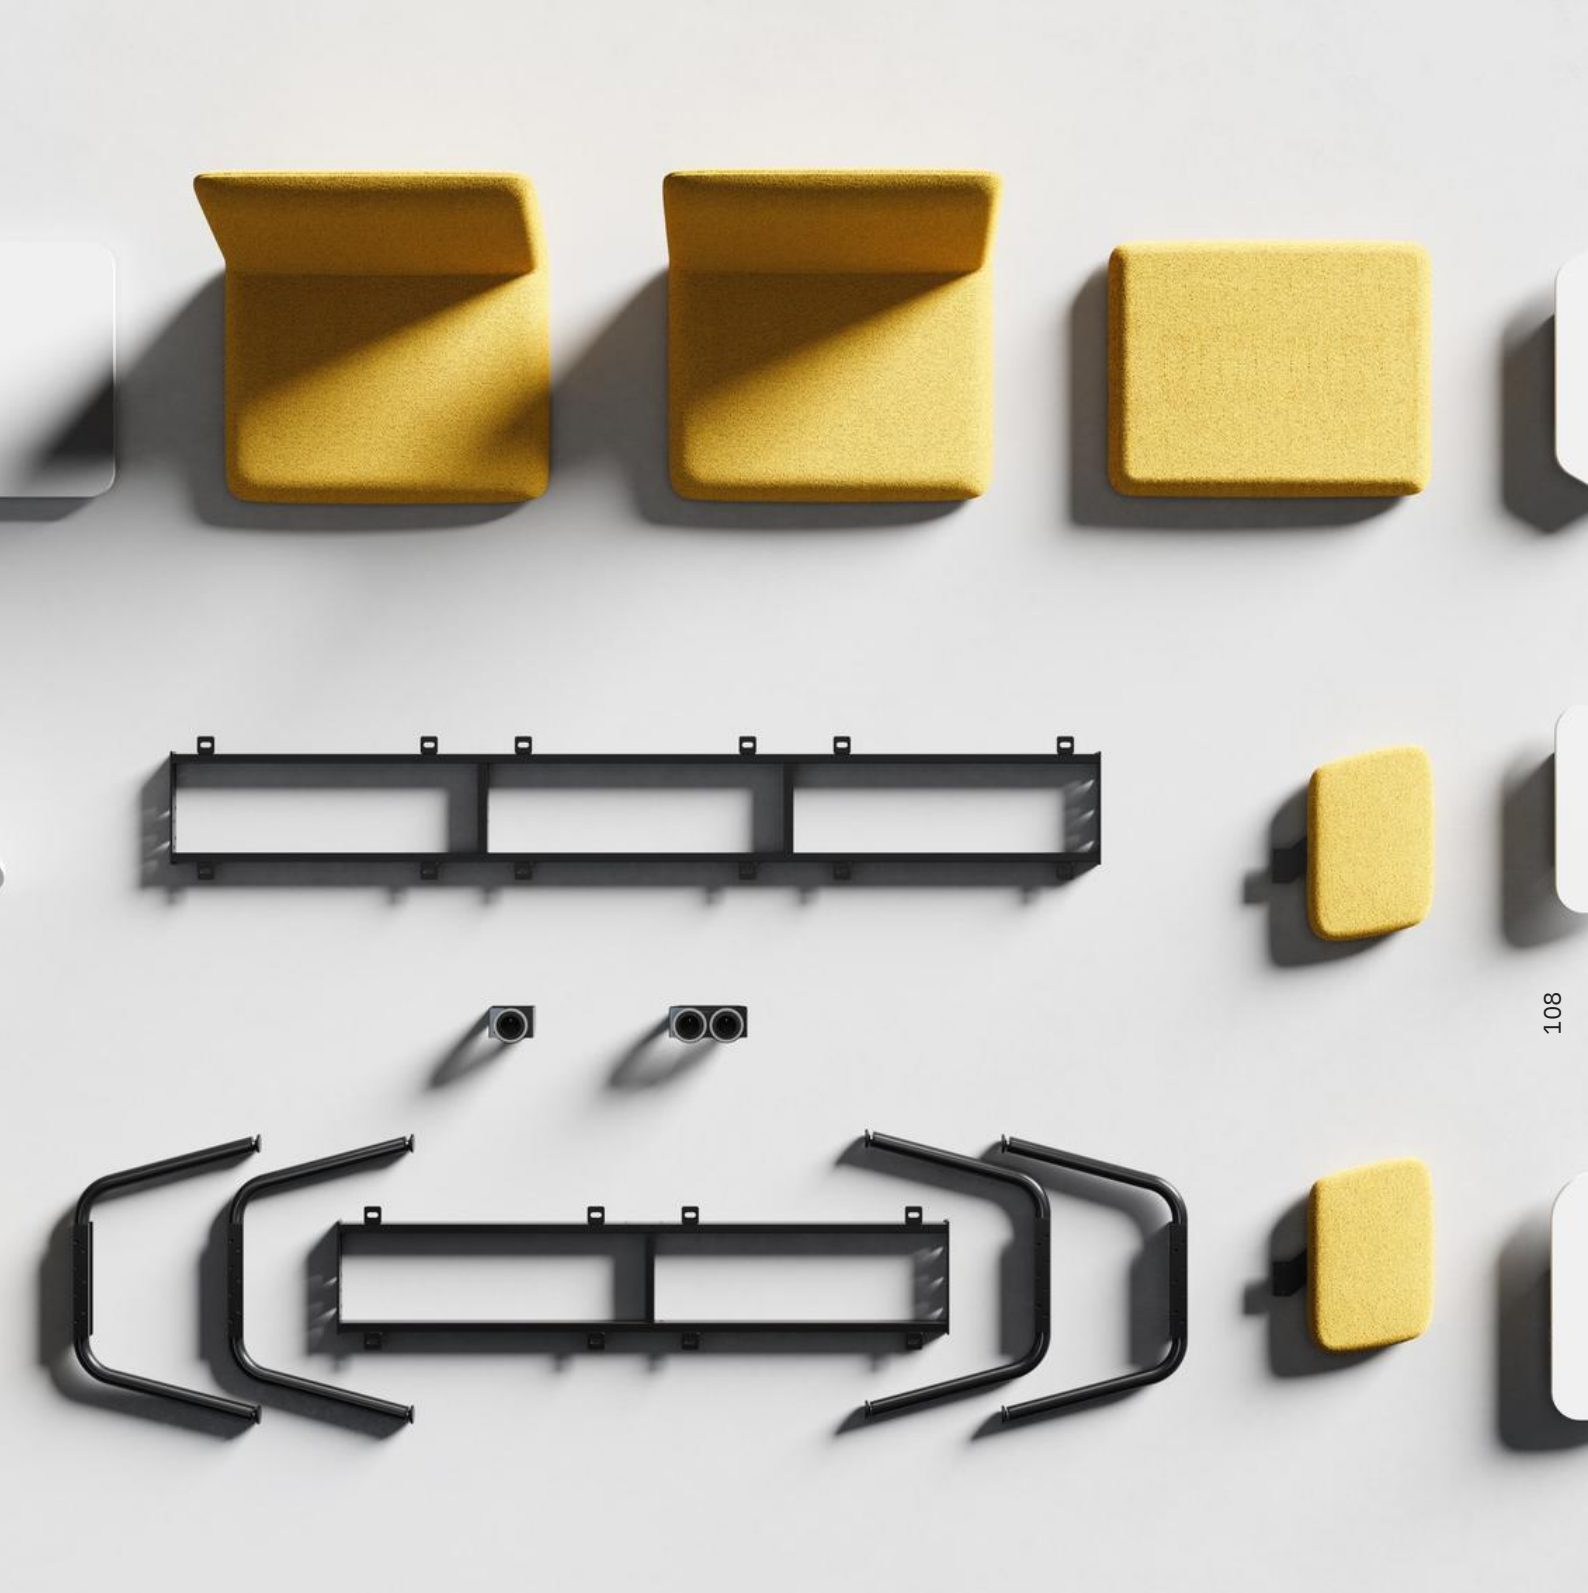

Design:  
**Alegre Design (ES)**

The **Modaq** bench adapts effortlessly to any interior thanks to its variable components - from waiting rooms and receptions to large public halls and offices. Clean lines, a solid construction and comfortable upholstery with an ergonomic backrest ensure a high level of comfort even during extended sitting.

Modular configuration allows the creation of endless rows, corner layouts, and other dynamic combinations. Accessories, such as tables or charging points, expand its functionality.

Modaq seamlessly blends design, functionality, and durability into harmony.

DIRECTORY

Synaq

Synaq is a contemporary collection of reconfigurable sofa's. Utilising a robust framework beneath the chair, you can specify a numbr of layout's and accessories to create your ideal space.

Design:  
Martin Kožucharov (CZ)

Single and double modules can be used to create a space that suggest comfort and relaxation.

The perfectly sprung seating gives those that sit on the Synaq sofa, the knowledge that they are experiencing true craftsmanship.

Synaq can be dressed in various ways, to bring the term: *Resimercial* to life. Playful cushions, table decorations and elegant fabrics are an alluring combination.

Versatility is paramount in many workplaces and Synaq offers you the chance to configure your space in the most effective way.

# Stones

Design:  
Martin Kožucharov (CZ)

The Stones range of free-form stools present a temporary seating option; With a little imagination, you can create many types of configurations, such as a creative brainstorming space, a refreshment area or welcome seating for visitors. In addition, the stones are easy to handle due to their light weight, additional castors and practical handles.

Agility - The moveable **Stones** can be changed around to create multiple seating arrangements, complementing our other ranges such as some of the Organix range seen above.

The beautiful upholstery and stitching details lend a sophistication to a playful product, whilst the handle ensures practicality for each user.

Sumptuous fabrics such as velveteen, bouclé, wool and crepe can elevate these iconic shapes into works of art.

Available with glides or castors.
