TEN

COLLECTION

Furniture pieces made with the finest materials and paying close attention to details. Our design team worked diligently on various prototypes to render perfection in each product.

Modern architecture
is reinterpreted

A reinvention of modern architecture in furniture design. Inspired by masterpieces of two creative geniuses such as Oscar Niemeyer and Zaha Hadid. Niemeyer's designs characterized by the propensity towards curves, attracted by free-flowing and sensual movements found in ocean waves; were one of our conceptual milestones.

Our Tenth Collection has a meaningful metaphor that defines the Adriana Hoyos brand. 'Ten', is 'Deca', in the ancient Greek language with a triangle as its sacred symbol.

Our logo and design elements incorporate this symbol to illustrate our evolution of designing artful pieces with the grace of simplicity and the passion of innovation that work together to complete our collection TEN.

ten cocktail table 400

The meandering movements of rivers and the windows created when you look up at the sky and you find yourself gazing through sun rays in the trees. In TEN, nature is our muse to create decorative elements that blend into the environment. Furniture turns into a mesmerizing accessory made up of flowing angles that represent the very latest innovations in design and fashion.
