OUR VISION

It is our vision to provide world-class services that support individuals with autism and their families in leading fulfilling lives.

ABOUT EAP MALAYSIA

WHO WE ARE

Early Autism Project (EAP) Malaysia is the pioneer of Applied Behavioural Analysis (ABA) treatment in Malaysia and was founded by Wisconsin Early Autism Project in September 2006.

In 2016, EAP Malaysia launched its nonprofit initiative, The Hope Project, in partnership with Yayasan Kajian dan Pembangunan Masyarakat (YKPM) to make world-class services for autism accessible to all.

OUR TEAM

With a combined experience of more than 60 years, our Clinical Team are trained and experienced in bringing the best standards of intensive behavioural treatment to individuals with autism.

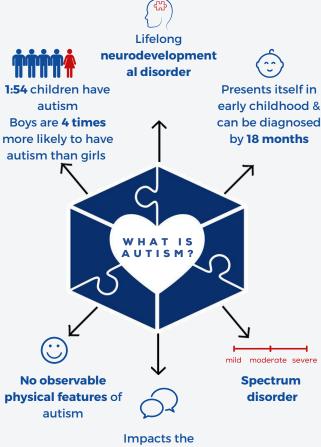

Our therapy team comprises a dynamic group of people who are committed to providing quality treatment services to individuals with autism, whilst upholding international standards.

OUR IMPACT

EAP has provided services to over 400 individuals from 30 different countries, as well as international supervision to Kuwait, Denmark, Singapore, Brunei and New Zealand.

The Hope Project has provided 3 scholarships, supported nonprofit centres, as well as conducted multiple autism awareness events and campaigns all across the schools in Klang Valley.

Impacts the individual's ability to communicate, socially interact and learn.

WHAT IS ABA?

Applied Behavioural Analysis (ABA) is based on operant conditioning principles, where complex skills are broken down, paired with reinforcement and provided with sufficient practice.

The **gold-standard treatment** approach for autism spectrum disorder, with over 1000 journal articles to support the efficacy of the ABA approach.

The only **research-based treatment** for autism with findings that almost 50% of children who receive it are able to catch up to their typical age.

WHY IS ABA EFFECTIVE?
