

Green Theory™

Site Furnishings

Big Moves in Site

A modern, minimalist black bench with a bright yellow seat cushion is positioned against a dark grey, textured wall. The bench has a sleek, low-profile design with thick legs. The floor is a light grey, speckled concrete. The overall aesthetic is contemporary and industrial.

A new chapter begins.

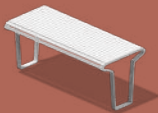

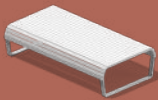

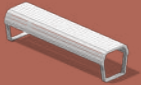

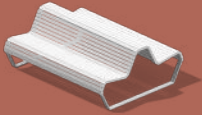

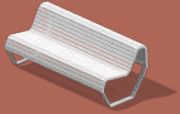

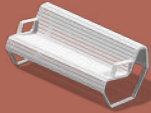

Green Theory has earned a reputation for exceptionally high-quality planters, and now we are thrilled to offer our new range of site furnishings.

Through our partnership with Street + Garden, the renowned Australian product design firm, we can help you to create impactful custom environments and realize your landscape vision at any scale.

All of our products are manufactured to the highest standards utilizing marine-grade aluminum or stainless steel, right here in North America.
