

ALBERTA *Energy* DIRECTORY

2026

SEELEVEL™

Accuracy and Reliability Elevated

Precision Tank Monitoring for Safer, Smarter Operations

- Digital microprocessor design for stable, continuous readings.
- High resolution accuracy as low as 1/4".
- Intrinsically safe fiber optic connections for hazardous liquids.
- Built-in alarm outputs for overfill protection.
- No recalibration required.
- New 810-TX sender bar reads temperature and includes a field-replaceable battery for better serviceability.
- New dual and multiple tank monitoring options.
- Calibration and setup with a user-friendly app.
- Advanced incline compensation for loading or unloading on slopes. (coming soon)

IT'S ABOUT TIME **JACK!**

Jack knows time is money

PAYS FOR ITSELF - 4 WEEKS

The increase in oil/gas production is immediately measureable not only in time, but real dollars.

INSTALLATION - 1 DAY

It only takes a few hours to have your compressor up and running, practically eliminating production downtime.

YOUR TIME - ZERO

Our safety qualified installers will perform maintenance checks when required, onsite, saving you the trip in.

Precision Tank Monitoring for Safer, Smarter Operations

- Digital microprocessor design for stable, continuous readings.
- High resolution accuracy as low as 1/4".
- Intrinsically safe fiber optic connections for hazardous liquids.
- Built-in alarm outputs for overfill protection.
- No recalibration required.
- New 810-TX sender bar reads temperature and includes a field-replaceable battery for better serviceability.
- New dual and multiple tank monitoring options.
- Calibration and setup with a user-friendly app.
- Advanced incline compensation for loading or unloading on slopes. (coming soon)
