

Sofiona
Designs 

The first 3 years

We are Sherrri and Trish – the creators behind the Sofiona Designs name. We started sewing in earnest a few years after we met and with the wonderful on-line community of sewists as our valued teachers, we've continued to grow in our abilities. Now we find ourselves here as self-taught designers with the right amount of stubborn determination to tackle this dream.

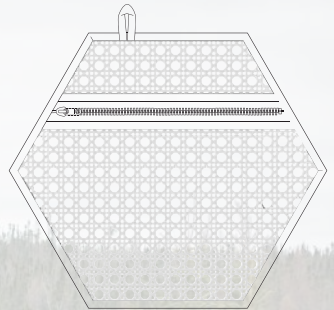

We both grew up in the farmland regions of southern Manitoba, but as adults we find ourselves well into our second decade of life in remote northern Manitoba. Here we are surrounded by trees upon trees and lakes upon lakes and every season astonishes us with its beauty. You'll find all our pattern names as well as the artwork in our tutorial celebrates this beautiful landscape we find ourselves in.

This look book is a catalogue of all our patterns over the first 3 years of our company in colour schemes that compliment the 3 fabric prints created especially for us by Sharon of Prairie Love Knits – a fellow Canadian company.

We hope you fully enjoy this collection of pictures and be sure to check at the back of this book for a list of the sewists that joined us in this endeavor as well as the fabric companies that sponsored many of the looks you're about to see.

-Sherrri

A21

From the start – Before Sofiona Designs officially began, we chose to allocate a portion of all our sales to A21. This was a cause that touched us both deeply and we wanted to take this chance to join the fight against modern day slavery. We've been able to donate thousands of dollars up to this point and we will continue as long as Sofiona Designs exists.

As well, all profits from our Balsam Bag pattern go directly to this organization. A special thanks to Bridget Allred for designing the pattern for this cause.

Find out more about this organization by clicking
www.a21.org

As our girls grow in size and personality, we are inspired and motivated to create patterns that they can enjoy for years to come. Without our girls, this company would not exist and we are so thankful to have these daughters – not always super happy to do another photo shoot – but willing to be a part of this journey. May they also be inspired to work hard, be creative, and dream big.
