The Flagmaster

The flagmaster frame system fits on any light standard or pole up to 18" diameter whether it's round, square or multiple sided. The flagmaster system holds the flag open and rotates the flag 360 degrees with the direction of the wind. Releases wind pressure and is safe on light standards. Allows flags to wave naturally to attract attention.

Holds the Flag Open, Even When There's No Wind! Fits all of our 3 1/2' x 7' and 3 1/2' x 10' Flags.

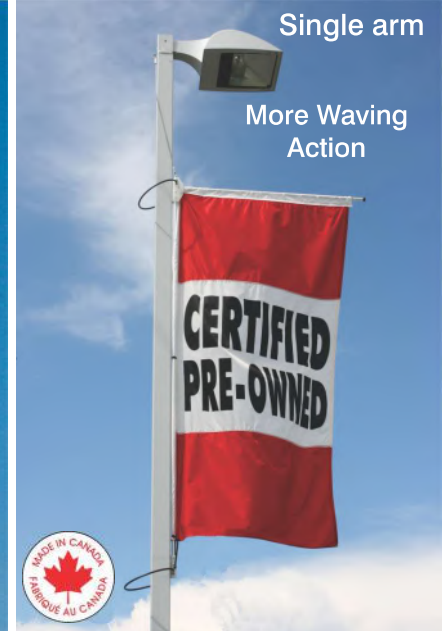

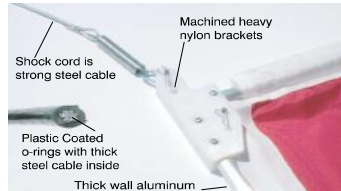

Single arm Flagmaster

Flag Size	Code	Cost
7' long	FR07	\$159.00 ea
10' long	FR10	\$159.00 ea
14' long	FR14	\$179.00 ea

Dual arm Flagmaster

Flag Size	Code	Cost
7' long	DR07	\$189.00 ea
10' long	DR10	\$189.00 ea
14' long	DR14	\$219.00 ea

All of our 3 1/2' x 7' and 3 1/2' x 10' flags are sleeved for these devices.

Checkout the video at www.wheelsauto.com/Flagmasters_Rotomasters.asp

The Roto-Master

Holds the Flag Open, Even When There's No Wind! Fits 3 1/2' x 7' and smaller size flags only.

Pound into ground with optional ground spike.

Attach to tops of light standards.

Attach to top of fences.

The rotomaster is a 10' tall flag pole that holds the flag open and turns whichever way the wind is blowing. Comes with a 1- nylon rotating top, 1- 48" cross bar, 3 - rotating collars and 2- stainless steel band clamps for fastening to poles, fences, security poles or short light standards. Ground spike sold separately.

Item RMK **\$79.95 ea**

The Flagmaster 360

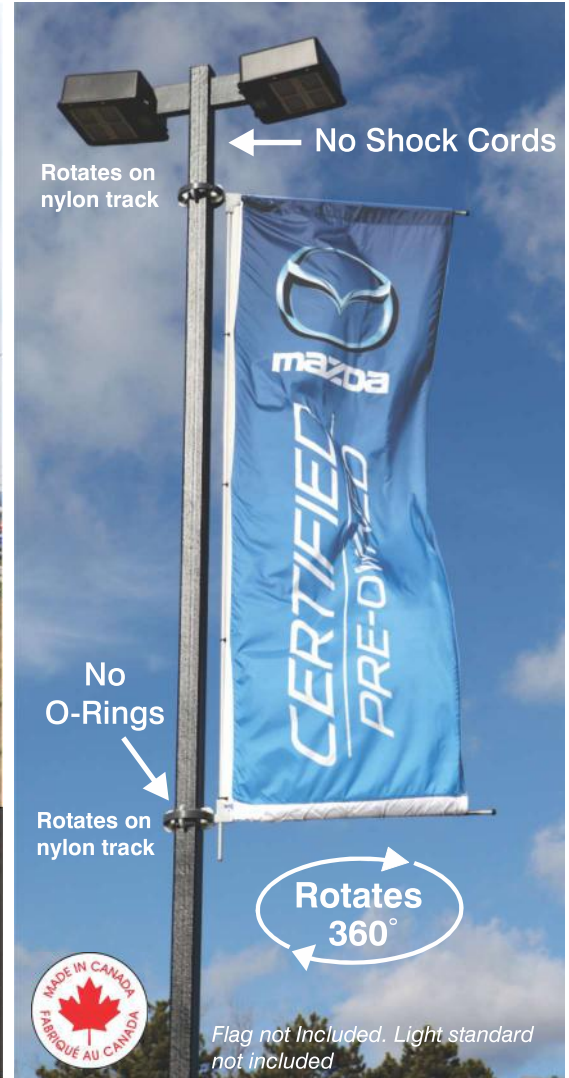

Revolutionary new design holds flag open and rotates 360° with the wind around pole without shock cords. Works on square or round poles. More durable than our flagmaster and will not scratch poles. Available to fit all our 3 1/2' x 7 and 3 1/2' x 10 flags. Recommended for Longer Flag Life.

- Holds flag open, Even when there's no wind
- No more O-rings to replace
- No more Shock cord failure
- No more wear to the light poles

3 Year Warranty Withstands winds over **120 KM/H**

Flag not Included.

Checkout the video at <http://www.wheelsauto.com/Flagmaster 360>

After years of studying flags and hardware Wheels has come up with an all new patent pending design that allows our new flagmaster 360 to hold the flag open and turn 360° in any direction around your round or square light standard on a durable nylon track. No squeaks no rattles, durable device will not transfer load stress to the pole from high winds and will not harm the paint on your poles. Tested in 120 km+ winds with no damage to the device or pole. Easy to install. Three year warranty. All of our 3 1/2' x 7' and 3 1/2' x 10' flags are sleeved for these devices.

Telescoping Flagpoles

Change your flags yourself in minutes.

No ropes, no chains, no pulleys, so you never have to worry about knots and tangles. These flagpoles are virtually noise free.

Cement receiving cup into ground on top of gravel mix

Flag pole can be removed easily or bolted into cup

Raise and lower pole by pressing release buttons.

Beautiful anodized aluminum pole is maintenance free. Simply extend the pole one section at a time and lock into place. Heavy 16 gauge aluminum is sturdy enough to withstand the elements yet light enough so that pole can be easily removed and stored or transported easily. Only 8' tall when retracted. Displays 3' x 6', 3 1/2' x 7' and 3 1/2' x 10' flags and 4 1/2' x 14' flags.

145400 20' telescoping pole\$339.00

Includes 20' aluminum pole, receiving cup, 3 collars and gold ball top

Uses balloons filled with ordinary air. Not expensive helium

The Balloon Buddy

Get the look and sway of helium balloons without the hassle or cost of helium.

Balloon Buddy allows you to fill your balloons with regular air. Simply blow up the balloon with air from a compressor and attach to holder. Then clip to window and your finished! Balloon buddy allows the balloon to sway back and forth simulating helium filled balloons. Completely reusable, no more strings and deflated balloons!

Item 11199.. **\$7.95 each**
(Buy 100 for **\$695.00**)

Hi-Float

Ultra Hi-Float increases the average float time of latex balloons by 25 times. An 11 inch balloon treated with Ultra Hi-Float will float between 1 and 4 weeks. Pump required for both 96 oz and 24 oz sizes..

Extreme weather conditions are no challenge for DuraBalloon which holds a patent as the only plastic helium free balloon on the market that is molded. Molded balloon will not deflate due to manufacturing defects found in seamed balloons because they are seamless. DuraBalloons also use UV enhanced plastics and pigments to prevent fading. Wind, heat and cold will not affect the balloon because it will contract and expand with temperature fluctuations allowing them to become sag resistant unlike other reusable balloons. Strong engineering plastics will endure even in windy conditions.

DuraBalloon® 4 Balloon Light Pole Kit

Enhance the visibility of your property with the Light Pole Brackets, a great choice for drawing attention from afar. These brackets are designed to be mounted on round or square light poles, making them an excellent spot to showcase your balloons.

The brackets are specially engineered, extreme-strength plastic, ensuring durability and stability. Even the slightest breeze will make the balloons move, creating an eye-catching display that attracts attention from a distance.

Installation is straightforward and hassle-free. The brackets use band clamps to secure them firmly to the light pole, so there's no need for drilling. This makes the setup process quick and easy, while also avoiding any damage to the light pole.

Includes 4- brackets, 4- poles & 2 band clamps.

Showroom Posters/Signs

Materials: Many materials available. Popular ones shown.

New for
2026

Customized with your event details.

Paper: Heavy poster paper 120lb. Hang with tape, suction cups etc.

Plastic Paper: A vinyl paper that can be hung on wall and windows. Small holes are cut in each corner for suction cups. Great for use with snap picture frames, poster rails, and sign holders with clear covers.

Lo-Tac: A vinyl plastic film with lower adhesion. Great for long term or short term Showroom and vehicle windows. Easy removal without leaving residue. Installs easily with soapy water and squeegee.

Magic Wall Cling: A remarkable material that clings to wall and glass surfaces. Non adhesive product that can be removed and repositioned easily. Keep the backing around for storage and use later. Installation with felt squeegee recommended.

Magic Window Cling: Non adhesive product that clings to glass counters that can be removed and repositioned easily. Great for posters and smaller decals that need to be used over and over again.

Coroplast: Looks like plastic cardboard. Durable fluted material is great for outdoor applications like pole signs or wall signs. Available in different colours. 4mm thickness. Can be cut any shape up to 48" x 96".

Introducing The Best Solution to Printing Customized Vehicle Information Sheets!

Vehicle Details

Simple To Use Software For Professional Results!

Print detailed window option sheets quickly by just typing in the VIN. Print rich detailed used vehicle brochures in seconds to hand out to customers and educate your sales team. Web based program also prints Buyer's Guides for any warranty program. Print New Car Addendum stickers with one click. Upload inventory information to all your favorite web destinations with the "One-Button Upload."

Easy to Operate

You just enter the VIN, Stock Number, Mileage, Colour and Price. Web based software does the rest including reviews and EPA mileage estimates. Fully editable features and options lists.

Custom Price/Option Window Stickers

Our artists create a professional looking background on which to print your vehicle options. Order refills over the phone or by email.

Print Your Own Vehicle Brochures

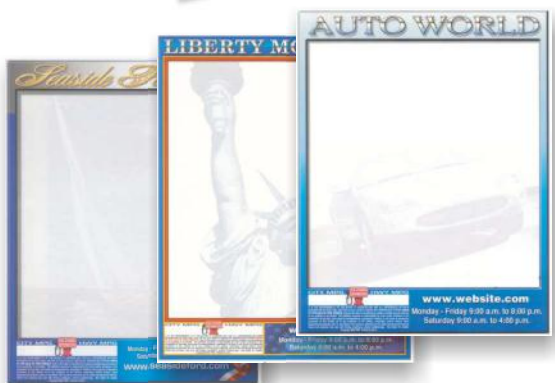

Software automatically creates professional looking brochures at the touch of a button. These brochures can be given to car shopper and as an education tool for sales people. Better than a business card!

Print Your Own Buyer's Warranty Guides

Software prints perfect buyers warranty guides with required information. Set up and save multiple forms for any warranty or as-is information.

Customized Vehicle Option Sheets

Create a lasting impression with a custom designed full colour option sheet from Wheel's. For use with above web based software. Self adhesive label fastens securely to window, fast artwork, fast delivery. One time art charge of \$85.00 not included. Call 1 800 465-8831

BannerSaver Tensioned Banner System

BannerSaver light pole banner brackets adjust to the direction and speed of the wind, from everyday 25 mph breezes to 70 mph storms. Outdoor flags and banners bend, spilling about 40% and avoiding damage. And when the wind dies down, these windproof banners return to their original position, taut and attractive as ever. BannerSaver light pole banner brackets are engineered with a two-piece cast aluminum base (powder-coated upon request), a spring-tensioned assembly that responds to wind, and a sleeved, removable fiberglass arm. Can be installed as a single or double set. Max 30 sq ft. Stainless steel banding required on sizes over 17 square feet.

Available for 24" & 30" wide banners.

Single banner mounting set 24"

Item 23305 \$299.95

Single banner mounting set 30"

Item 23306 \$329.95

The Poletector

- Improve appearance at an affordable price!
- Eliminate car door dings!
- Greater visibility Less maintenance no Painting!
- No more rust or weathering!
- Easy installation No tools required!
- Colourful choices in-stock & custom colours
- Tough Lock System™ Not easily detached

Poletector fits all these types of bases

To help secure a custom fit, Poletector uses a tamper proof Tough-Lock System. The plastic covers are durable, ultraviolet resistant and withstand extreme temperatures. Poletector fits up to a 24" diameter light pole cement base. The patented ring assembly allows it to fit any height, and the top is easily customized to fit round or square light poles. It comes with four 9.5" high ring assemblies. Add a logo or brand name for only \$25.00 per side.

Never Lose Track of Your Keys Again!

The Cobra Key System comes ready to use. Simply snap keys together on a locking strap with an ID tag and place into the keyboard. Keys can only be removed with an access key. Once an access key is used to release the vehicle keys, the access key cannot be removed until the vehicle keys are placed back onto the board. Assign access keys to sales staff and service people. Always know who has a vehicles keys by looking at the personalized access key. A master key provided with each system will remove all keys without remaining in the board so that all vehicles may be removed from the lot for snow plowing, sales etc.

Cobra Key Systems®

Insert access key to retrieve vehicle keys.

Releases vehicle keys

Access key is locked in place while vehicle keys are out.

Returning vehicle keys releases access key

Keys stay locked until removed with access key

Key Management Systems from Secure-a-Key

Introducing an easy to use, easy to track, key system. The Secure-a-key systems locks keys into place preventing unauthorized use. Sales staff are assigned access pegs with their name on it. The vehicle keys are unlocked when they insert their access peg into the slot containing the keys they require. Once they remove a set of keys their access peg is locked in place until the keys are returned. Once the keys are inserted back into the board they may remove their assigned peg.

Steel Security Cabinet for Secure-A-Key is available online at www.wheelsauto.com or call in to place your order.

Dealer Plate Security System

System controls five dealer plates.

Holds 5 dealer plates

Same protection on dealer plates as your keys. Keyper system locks users key in place until plate is returned. Comes with 5 tamper proof seals, 5 Keyper plugs and 3 access plugs.

Item M5T.....\$349.00

Self-Contained Wall Mounted or Post Mounted After Hours Car Key Night Drop Box

Our Deluxe Self-Contained Night Drop Box was designed and engineered with an emphasis on producing the highest quality, most durable, and most secure night drop box on the market. The exterior of the box is finished with an attractive message that reads, "Pull to Open (Envelopes Inside)...After Hours Service Drop Off For Your Convenience." Includes a built-in security plate to protect keys from theft and prevent fishing attempts when the door is open. Night drop envelopes are sold separately. Each unit measures 25-1/4" H x 15" W x 12" D

This completely self-contained unit is manufactured from durable 16 gauge steel and finished with a black automotive-grade powder-coated finish. The unit is assembled using the highest quality 304 stainless steel rivets, hardware, and an ultra durable heavy duty 304 stainless steel hinge which opens and closes the bottom door where the customers' keys are retrieved.

This unit includes a durable and secure tamper-resistant 2.75" diameter stainless steel discus lock and two keys. The lock features non-corrosive inner components. The hardened steel chrome-plated shackle measures 3/8" diameter and offers strong cutting resistance. This lock is key-retaining, meaning that the lock retains the key until locked.

Includes a built-in envelope holder, which conveniently protects the envelopes from the elements. Your customer will simply pull down the door, complete the envelope with their personal information and service details and then submit the envelope with their keys enclosed. When your business opens, the envelopes and keys can be retrieved by authorized personnel by unlocking the bottom door. We recommend including a pen in the night drop box so the customer can fill out the envelopes.

Steel Post Mounting

Item 700131 **\$895.00**

The 24" surface mount post is used for installations onto existing concrete surfaces, such as sidewalks or paved concrete roads. The 36" In-Ground post is used for installations directly into the earth, such as dirt, sand, rock, or grass with a concrete/cement fill. Constructed from durable steel tubing with welded steel plates on both ends and a weather-resistant black powder-coated finish. The top plate, which connects to the night drop box is constructed from 1/4" steel, while the bottom plate that connects to the ground is constructed from ultra-durable 1/2" steel.

24" Steel Post for Mounting onto Concrete Surfaces Item 700132 **\$229.00**

36" Steel In-Ground Post for Mounting into Ground Item 700133 **\$229.00**

MVDA Compliant contracts for New and Used Vehicles sold in Ontario

The MVDA regulations came into effect on January 1st 2010 and greatly affect the way that vehicles are sold in Ontario. This includes both retail and wholesale trades. There are major changes in the rules for vehicle advertising, consumer and dealer to dealer disclosure requirements, record keeping and more. UCDA has compiled a comprehensive set of frequently asked questions and informative videos to help take the confusion out of the rules. They include how to fill out and use the new retail, wholesale contracts and leasing contracts.

Contact the UCDA at www.UCDA.org **UCDA** Used Car Dealers Association Of Ontario

Used Vehicles Sales Contracts

UCDA Used Vehicle Contracts are MVDA compliant. These forms take the confusion out of selling a vehicle. Offers dealers protection while providing the consumer with an easy to understand contract.
