FAQ

A couple of the most common questions are answered below, however if you have any other question don't hesitate to contact us. Our info is on the back of this brochure.

■ **I am a builder, not a graphic designer, do you help with artwork?**

Yes, artwork layout and proofs are included in our pricing so don't worry about it.

■ **What can I print onto my PrintMesh?**

Anything you like. Our pricing includes full surface printing so you can put anything you like on the PrintMesh - text, images, photos, logos, etc. All are fine.

■ **Will PrintMesh fade?**

We use high quality inks that come with a 2 year no significant fade guarantee when used outdoors.

■ **How much wind can PrintMesh take?**

If you intend to use our PrintMesh in a high wind environment, we suggest the Breezemax specification of mesh as it has larger holes to allow more air to pass through it. We can also add extra eyelets to the edging to give you more points to attach it to the fence.

■ **Does any printing start before I approve artwork?**

Never. We don't start printing anything until your 100% satisfied with the design you're signing off on.

■ **Do you care about what I print on my PrintMesh?**

Nothing makes us more proud than going to an event or construction site and seeing our wrap out and about.

This means, we don't just want you sell you PrintMesh but we genuinely care about what you print because we want to you be blown away every time you set up by how amazing your wrap looks.

■ **How can I customise my PrintMesh?**

There are no limits in what you can put on your mesh.

TURN FENCING INTO BRANDING

Turn your temporary fencing into a walking billboard with the PrintMesh range of premium mesh banners. Designed for Australian conditions, these high-quality wraps combine durability, style, and performance – giving your site a professional edge while promoting your brand to everyone passing by.

From high-wind sites to high-profile projects, there's a PrintMesh option for every need. Choose from **BreezeMax** for maximum airflow, PrintMesh **Classic** for balanced performance, or **PrintMax** for the ultimate in vibrant, full-colour impact. No matter which you pick, you'll get banners built to last, with reinforced edges, UV-resistant inks, and crisp printing that stands up to the elements.

- **Custom sizes and finishes available** – Tailor your PrintMesh to perfectly fit your fencing and showcase your branding exactly how you want it.
- **Easy to install and reuse.**

MAKE YOUR FENCING WORK FOR YOU

PrintMesh transforms temporary fencing into a bold, high-visibility platform that puts your brand front and centre. Tough for Australian conditions and designed to impress, these banners make every site look professional while getting your message seen by everyone passing by. Perfect for construction sites, events, or retail projects, PrintMesh ensures your branding is noticed and remembered.

EYELETS EVERY 500MM

Securely attach your PrintMesh to your fence with eyelets every 500mm.

CUTTABLE INTO LENGTHS

When full rolls are bought, you can cut them to make smaller panels.

FULL COLOUR PRINTING

No limits to your design – digitally printed for complete freedom.

OUTDOOR RATED INKS

Durable outdoor rated inks ensure an excellent appearance for years.

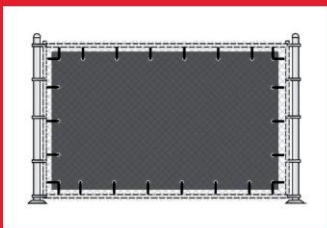

QUALITY YOU CAN SEE – AND FEEL

PrintMesh banners are made to last through the seasons without fading, tearing, or giving up when the wind picks up. Each wrap combines practical design with print precision, so you get a finish that's as durable as it is striking. Easy to install, easy to maintain, and ready to perform day in and day out – it's the kind of signage that looks sharp from day one and keeps earning its place long after.

SECURE & SIMPLE INSTALLATION

Compatible with zip ties,
hog clips, or screws,
making setup fast and
stress-free.
