Preface

At a very young age of 43, he has become one of the world's most wanted. Most wanted by true seekers who cannot miss the Avatar, who cannot miss the divine grace, see the almighty, see Shiva in the Guru. As well as most wanted by those who want to bring down the Sanatana Dharma of Hinduism, and with that curb the spiritual progress of mankind.

This book is a small collection of experiences of true seekers of enlightenment, who have been blessed to have been able to come face to face with the Avatar, the Supreme Pontiff of Hinduism, JagatGuru Mahasaniddanam Nithyananda Parmashivam. Those who have been able to recognise the Avatar, and have been showered by his divine grace with the vision to see the truth, and continue to pursue their quest for enlightenment through his teachings, initiations, darshans and experiences that are beyond human logic. Experiences that open the vision of the true seeker. They range from an awakening of the inner self, transformation of self, healing experience, manifestation of yogic powers, completions, and many more. What you will read here too, is still just the tip of the ice-berg. The teachings of Swamiji run deep, and wide cutting through the core of the seeker and manifesting experiences that vary by the disciple's constitution physically, mentally, as well as the disciples spiritual readiness.

We offer this collection of experiences at the divine lotus feet of our Guru, in complete gratitude for his happening in our lives, and hope to enrich millions of readers through these sharings.

The Reviver of KAILASA

His Divine Holiness Bhagavan Nithyananda Paramashivam (HDH) is the reviver of KAILASA – the ancient enlightened civilization, the great cosmic borderless Hindu nation. HDH is an Avatar from, and is a Supreme Pontiff of Hinduism. HDH has made the science of power manifestation, Yoga and temple based universities for humanity.

The SOVEREIGN ORDER OF KAILASA led by HDH and NITHYANANDA ORDER of monks, nuns and Hindu diaspora are working for global peace and to give a superconscious breakthrough to humanity.

NITHYANANDA HINDU UNIVERSITY (world's largest) with extended campuses in 150 countries is collecting, organising, preserving, time capsuling, decoding, spreading and reviving 20 million source books of Hinduism and the 64 sacred arts and sciences like Ayurveda, music, dance, sculpting, astrology, Vastu.

SPH is the 293rd Guru MahaSannidanam of Shyamalapeeta Sarvajnapeetham (ancient apex body) & 203rd Emperor of Suryavamsa Surangi Samrajyam (Kingdom). HDH has survived the worst persecution of multiple assassination attempts on person and character by anti-hindu elements.

His Mission

His Divine Holiness Bhagwan Sri Nithyananda Paramashivam is giving superconscious breakthrough to humanity, which is physically demonstrable through various power manifestations, scientifically measurable and stands the scrutiny of rational logic in hundreds and thousands of human beings around the globe. His Divine Holiness, as per Hinduism, is the Incarnation (Avatar) of Paramashiva – the all-pervading superconscious energy, the source and the original author of ‘VedaAgamas’, which are the Pure Science and Applied Science of Oneness (Advaita), Yoga, Enlightenment and Enlightened lifestyle. As the Vision documents for humanity, the VedaAgamas scientifically and systematically reveal all knowledge currents, ritual methodologies, lifestyle systems and Yogic sciences.

To revive and re-establish the VedaAgamas as a living Applied Science, giving the superconscious breakthrough that humanity is long waiting for in its evolutionary path.

To pioneer a divine evolution, awakening human beings to their extraordinary powers (shaktis) and powerful cognitions (from higher states of Consciousness), building the next level frequency of human body, mind, internal organs and intra organs (such as Third Eye).

To empower humanity to manifest Superconscious powers at individual, societal and global levels.

To re-create a Conscious world where the global issues at the climatic, economic, social, health and 2 humanitarian levels, cease to exist from their very root; turning the problems of poverty, hunger, violence, discrimination into powerful living through the experience of Oneness.

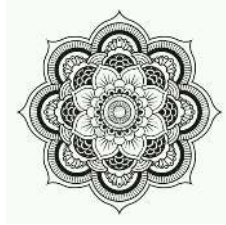

As an Incarnation, He wields Cosmic Intelligence in His global responsibilities as a spiritual leader, inner and outer world scientist, reviver of the superconscious civilization, and above all, a Visionary for humanity. In just 16 years of public life, He has showered His contributions on humanity in the areas of science, technology, meditation, healing, health and wellness, yoga, medicine, education & lifestyle. More than 20 million people in 347 cities in 196 countries over 6 continents revere and follow His Holiness.

Sanatana Hindu Dharma and the advent of the rare living incarnation

Hinduism is the most ancient living religion in the world. Unlike the single book modern religions, it is organic, ever adapting and keeping itself relevant to the needs of human beings. As such it comprises thousands, if not tens of thousands, of sub religions – known as sampradayas – each of which have evolved over the centuries and continue to evolve their own unique path to realize the truth. Many subgroups of Hinduism have more differences between each other than between other religions developed on the other side of the globe. However all of them are based on the fundamental ground of nonviolence and peaceful co-existence. Masters, known as incarnations or

Avatars, happen every millenia who bring many of the varied sects together under a broader umbrella and rationalize the differences between them. The advent of the incarnation is always met with resistance as the vested interests in each group try to retain their power and political mileage. However equally powerfully if not more, the sincere followers of the sub traditions joyfully realize the missing piece to their struggles and move to the next jump in their understanding. Hinduism has for most part never stood on dogma. The direct experience of the individual clarified by the documented experiences of the previous masters is the only truth.

HDH Nithyananda Paramashivam is the master in the modern times who is bringing together all the various sampradayas of Hinduism and has been recognized and appreciated by the sincere seekers and the authentic masters of Hinduism as the backbone of Hinduism as well as its future hope.

Spiritual Experiences

A Glimpse of Lord Sri Krishna (July 2013)

It was the time I was attending Inner Awakening program. In that Inner Awakening Swamiji used to give Energy Darshan every day. So we were all very happy. Sometimes it used to happen that Swamiji would just be casually walking among the participants and participants would also be casually having lunch or snacks with Him going around. On one such occasion, I suddenly and strongly felt that 'Oh God' we all wait for the Energy Darshan at end of day but HERE HE IS, walking among us right now!! I was just thinking that this is how it would have been when great incarnations like Krishna walked and lived in Gokula among the Gopas and Gopikas. And to my surprise, as soon as I thought this, Swamiji just looked at me from the corner of His eyes and gave a wide Smile!!

I just felt I got a Glimpse of Sri Krishna Himself at that moment!!

Avatar Baba To Swamiji, 2008

The first program I did was NSB in Ashram. I read in the paper about Nithyananda Paramhansa. I attended it thinking it was Yogananda Paramahansa disciple. I entered and saw the photo of Swamiji. I was shocked. I didn't know about Swamiji. Acharya spoke about Swamiji and started the seven Chakra Meditation. She started with the Muladhara Chakra. I have lots of issues in relationships. She made us do the meditation. Then we had lunch break. I decided not to attend and told Acharya that I will not come the next day. She did not say anything about it. I was sitting alone not even communicating to anyone. Suddenly some one placed a fat book. I just looked down and saw Avatar Babaji's photo. I was shocked as I was meditating for six months requesting him to send a living Guruji. Then I looked down and read the caption it said Swamiji was blessed by Babaji to be the Living Incarnation and enrich lakhs of people on this Mother Earth. I thought I imagined, I looked back again and so believed that Babaji heard my Prayer and has sent a living incarnation in my life. Then there was no looking back, I attended, volunteered for all the programmes conducted by the Sangha. One day Acharya said why don't you go to Bangalore and attend the NSP there.

I went to Bangalore. It was a huge place but not so much infrastructure. I had carried my receipt and showed them. Nobody, knew where and what we are supposed to do. We were all put in a room and said there only we will be sleeping and learning to relax everything. I was shocked. Where to sit, relax learn in a small room. I prayed to Swamiji. What is this? Where and into what have I got myself into? Suddenly bells and drum sounded. I ran out and for the first time saw

Swamiji. I was overwhelmed and felt blissful . All the physical discomfort was forgotten and was now ready to face any physical discomfort..We were not given darshan everyday, but could see Swamiji passing by and everytime .We would be called for Darshan ,all of us were excited however were told to return saying Some other time. So we got the Darshan from a distance only. We all were disappointed and some of them left because of physical discomfort. I kept on praying saying that I should see him nearby. That night after my bath while coming back (rather early morning 3-4 am) I was thinking about Swamiji's darshan. I needed to cross the pathway to reach the room, suddenly I saw a man standing nearby and greeting "Nithyanandam" loudly.

I also wished him loudly, looking at his face, 'Nithyanandam'. I suddenly saw Swamiji was there standing next to me along with one of his disciples .I almost lost my balance on suddenly realising Swamiji was standing and blessing me. He mentioned to balance myself and keep going. I could not understand what he mentioned but realised much later to balance and learn to live a blissful life. Last day, we were given darshan and standing in the corner gazing at him intensely and suddenly had a thought in my mind that If he was Shiva he would dance. I was in my own thoughts. Suddenly somebody mentioned that move away Swamiji is dancing here. He was dancing and looking at me to say that he was Shiva come down on earth to give Jeevan Mukti.

After that I visited the ashram, did many programmes and even toured the Char Dham Yatra with him. Slowly I started getting experience about him being omnipresent anywhere and everywhere.

Once when in Gurukul, after finishing the class, the baal sanths shared their experience with me. They enquired about the reason for my worry which was for my daughter back home in Mumbai, who was preparing for the final graduation exam. One of the students said that you are here to enrich others, HE the omnipresent will do the needful and take care. I heard Swamiji always mention, " You do my work and I take care of your work". I understood this statement after the miracle happening in life as my daughter did extremely well and got 95% marks in the final. So I do not worry about my work while doing his work. I almost volunteered to go everywhere and do whatever work was allotted to me. I went to Gurukul many times after that without any worry about my family. I understood things are getting better and better than my efforts alone and everything was flowing very smoothly.

I really wish I will live physically with Him forever. I am sure Paramshiva knows what is best for me hence I surrender to him completely and accept whatever HE gives me thinking that is the best and is Divine and auspicious in my life.

When we were reading Bhagavad Gita decoded by Swamiji I realised many things that I was doing caused me pain and suffering. However, as Swamiji mentioned that there is NO PAIN AND SUFFERING , I have realised that we are beyond body and mind , WE are the HIGHER Consciousness that is PARAMASHIVA and PARASHAKTI. The pain in our life is like experiencing different seasons in our life, enjoy it with Higher Consciousness.

MY LOVE AND GRATITUDE FOR SWAMI NITHYANANDA WHO MADE MY LIFE SO BLISSFUL AND ENJOYABLE ON THIS PLANET EARTH BEFORE I GO BACK HOME TO PARAMSHIVA.

OM NITHYANANDAM PARASHIVOHAM!

No hurt in spite of accident ; revealed his presence

Swamiji saved me in one major accident where my cars chambers was completely damaged but nothing happened to me! (Somewhere in 2017 August September)

Later I said to Swamiji , holding my atmalinga given by Swamiji, show me your presence. Then very late at night(close to 12:00 midnight) some drunkard passers by helped me to get a tow truck right where I was ...AND one of them asked me “Do you know why we helped you!?” ... I said “NO” and said because you have “Teeka on your forehead(the distinct way in which I copy Swamiji’s way of putting kumkum on Adnya Chakra)” I was stunned that was response from Swamiji telling me you called me and I’m here!!!

Swamiji gave me darshan of my late father

Swamiji gave me darshan of my father in the 2016 kumbh mela when i asked to speak to him communicate with him in some way cause of losing my father suddenly and unexpectedly of medical negligence and a heart attack , Swamiji manifested a person just lying in front of me looking exactly like my father straight in front of the place i was sitting in the rajya sabha, looking exactly as peaceful as he did in the exact position my father used to look while he slept. I was shocked seeing my fathers face in that man even though i knew that is some other person but of all the chaotic things happening around in the kumbh mela, finding a person who looked so uncannily like my father sleeping right in front of my feet almost sleeping in my lap in the exact way where a stranger with a kind face looked exactly like my father and giving me darshan of my father in such an incredible way that i was left in absolutely no doubt not only the fact that i was getting to see and have a way to communicate with my father in that moment in the chaos of Swamiji’s Rajya Sabha inside the Ujjain Kumbh having my own bubble of peace with just me and my father present there peacefully sleeping in front of me and i letting him complete his nap that he wanted, but also the very obvious fact that Swamiji was talking and responding and in full communication with me, knowing

the state of my mind and the vyaakultaa I was feeling during that time regarding the whole situation giving me both the overwhelming gift of letting me have some sort of a communication with my dad and also completing some of my incompletions i had with him all the while being by my side with me and my father in that moment, acknowledging my gratitude and tears i was giving him to grant my wish i was asking him, it was a profound experience made even more incredible and profound as to the absolute miraculous and a very much ' Swamiji's intervening by hand in a very obvious manner ' experience for me was, knowing the fact that i got given this experience on the very same lines as my father when he was alive and well, himself had experienced when he being a cop was deployed on duty in the nasik kumbh mela had got the experience of meeting both his passed away father and grandfather both at the same time during his duty from another person he had to help there and Swamiji making all these things very obvious to me in that incredible moment there about it being nothing else than the most profound specific miracle that Swamiji granted me in a very hard hitting and strong way for which i shall always be indebted to Swamiji for giving me! Nithyanandam.

Showed me how I was connected to Guru

In Feb 2017, when I asked Swamiji in Energy darshan what is my connection with him since last janma, suddenly his face become big and different type of glow in eyes and then still was capturing and registering, he hug me and said I am with you... shaken afterwards I realised he gave me darshan of dattvatar who was possibly my Guru or was intimated into some Sadhna Point to note I landed in front of Swamiji only after I did some parayana of Datta sampradaya book! And that was done by me very casually,I just know he is Guru in body in this birth and I will be safe now

Purpose of Guru. 2010

It was in one of the NSP programs. I am an info-hungry spiritual seeker, (later called by Swamiji as dry vedanti !!) met with that deeper experience, which will happen by decades of tapas and devotion to Guru. Yes, that is the experience of " I am not body but consciousness " . Now I am unable to express this in words,.. but that there was a breakthrough click I had got, which is still expanding me. There have been subtle, thought-current changes in me over a period of time. It has helped me withstand all so called ups and downs I go through, or our sangha goes through in a hypocritical society that is enveloped in the maya-matrix.

Why I consider these as very important experiences is, the purpose of Guru is to give you a glimpse of the purpose of life. And guiding us further. But glimpse like these shake out the core of our being and align to us THE great purpose beyond health, wealth and relationship.

*Guru introduce ourself to ourselves !!
Guru pathodham saranam !!*

Kumbh Mela 2016, Glimpse of Shiva, and much more...

In 2016 Swamiji wanted volunteers for the Kumbh Mela. I volunteered for the same. During Kumbh Mela there was a huge storm where many tents collapsed & a lot of damage to the camps. Things were flying e.g. I saw tin sheets flying above our heads. The hall where meditation was being held was flooded. Swamiji told us to be in one place. He went out & waved his hands in the air. Immediately the gust of wind which was to strike our camp was diverted & we all were safe. We removed water from the bucket etc. & the class started as if nothing had happened.

After Kumbh Mela, Swamiji required volunteers to help clean up the mess which everyone had left behind & as a reward he would take us to Omkarini temple. I stayed back to help although I had my ticket. I cancelled it.

Finally the day arrived for us to go to Omkarini temple. We stayed on the banks of river Narmada in a dormitory, males & females separate. The weather was perfect. We used to go to river Narmada for a dip when it became too hot. The water of Narmada river was crystal clear even when people were washing clothes. On one such occasion Swamiji went with his disciples for a dip. I came to know about it a bit late & hence was late. Nevertheless I enjoyed the beauty where Swamiji was surrounded by his devotees & the balasants were singing away merrily. It was a very beautiful and picturised sight. I could not resist & took the photo. Swamiji saw & told the senior devotees to take away my camera. Same was done & all my Kumbh Mela photos were also deleted although I had taken only one photo. My friends & senior devotees who were also there told me to get out of there. I was hurt beyond words. I wasn't aware that I couldn't take photos even when it was in the open. My camera was taken away. I was in tears due to the behaviour of the devotees. I went & sat far away & was observing the beautiful sight. In the meantime some 3-4 men came to me & asked where we were from. Although I was met with such horrible reception by the devotees, I still couldn't speak anything against the company. I introduced Swamiji to them & who is he etc. One of the guys came up to me & said I am a very wicked person. I only think of sex all the time. But after coming here & seeing Swamiji & the devotees & balasants singing, has changed me completely. He wanted to know more about Swamiji etc. I guided him & told him to take his darshan before leaving. They all agreed.

I saw Swamiji & the rest coming out from the water. I hurriedly left from there & was walking slowly on the road. I saw those same guys in the car & calling out to me saying mataji we took his darshan & happily waving.

I walked fast now & came & stood near the path where Swamiji would be passing. Swamiji spotted me & told me "" how would you feel when somebody is taking your photo when you are bathing". I truly was very apologetic & told him I never meant to oppose his instructions. I was late & was not aware of the situation. He understood but my heart was crying from within. My inner self was tormenting me saying you fool you already had the ticket & you cancelled it to see this day. Even now you can go back. But I was fighting with my inner self & refused to leave.

On the last day we were told to have dinner in the coach as we were running late to leave. Swamij said nothing doing. We will all eat together. After dinner was meditation. I couldn't keep my eyes closed for a long time. So I opened my eyes. Wow, what did I see? I saw Lord Shiva on Swamiji in blue. I couldn't believe it. I actually had to pinch myself to know the truth. Yes, there he was Lord Shiva. I closed my eyes & when reopened he was gone. After meditation I asked the Mauritian couple who were sitting next to me. Did they witness the same thing what I witnessed? They just stared at me as though I was bluffing. I let it be. I didn't want the beautiful experience that I had to be marred by their expression. After meditation was darshan. I was too scared to go to him because of the previous experience. So hesitantly I went last. As usual Swamiji had a beautiful smile on his face. He was giving darshan with both hands one by one. I was last. I was still afraid & hesitant till he called out next? I had to go last. What a fool I was. What was there to be afraid of. I had a beautiful experience.

Now it was time for us to leave & board the coach. Ma Jyanatma told me to be a guest at the ashram. But because of the previous incident I declined. My ego was hurt a lot. They were going to change coaches in Poona. Perfect for me but I chose to go alone. It was very late at night. 2 aaiyaas were going to the main station & they asked me whether I wanted to go with them. I declined instead took another auto & went alone. No clue whatsoever where I was heading. I told the driver the address which was given to me by the guy who had cancelled the ticket. When I reached the destination not a single bus was there & the place was very quiet & deserted. The driver told me that this station has been closed down for a long time. I couldn't believe it. I thought OK let me spend the night here now. I was sitting all alone with my white clothes & having adhinavasi maala around my neck. Since the place was too bright I was looking for a place & preparing to sleep in a dark place. I saw a motorbike with 2-3 males who passed by me. I did not take much notice but was busy preparing myself to sleep under the shade near closed shops. Another motorcycle came with 3 males. So 2 bikes with 5-6 males passed by me. This was followed by a police van. Police got out & started questioning me. What was I doing there so late at night. I explained to them about Swamiji & my destination. They said this bus depot closed down a long time ago. They asked are you not afraid to be alone so late at night. I said when Swamiji is there to protect me I am not scared. Then one of the police said that is why we are here to protect you. I told them about 2 bikes with males.

They hired an auto for me took all his details down & said to take me to the main station. He was a young fellow but seemed to be an honest person. He took me to quite a few bus stops but no buses were leaving at that time. Finally he took me to the main station & told me you'll be safe here & I'll see you in the morning. I offered him Rs. 100 but he flatly refused & went away. Early in the morning I heard the bus conductor saying the bus is going to Mumbai. I quickly took the opportunity & boarded the bus. My regret was I didn't meet the auto driver again to offer my thanks.

Wow what an experience. All because of my pride I went through this experience. What if the cops hadn't come. But I know Swamiji is always there to help out.

Pratyaksha Pada Puja Experience 2017

At one time I had the very blessed opportunity to do the Pratyaksha Pada puja to Swamiji in person as I had become a Sarvajnapreetha Yajaman. Swamiji had declared that whenever a Yajaman visits the ashram they can do the Pratyaksha Pada Puja. On this occasion in the early hours, around 6 am, there were just 3-4 of us for this divine opportunity. So we were sitting very close to him in what looked like a sanctum sanctorum of a temple that was on the stage, to be honest I had not seen that arranged anytime before this occasion or after that. I remember that Swamiji's face during this experience was different, more elongated, unearthly, mystical, and I remember that I felt I was floating during the pada puja. When the puja ended, Swamiji was calling each of us in person, I did not know that he was

going to ask me to ask for a boon, I was totally unprepared and speechless when he said `What do you want' I did not know what I wanted I could not even believe this whole experience was real, it was like I was in some temple made in heaven. And I mumbled something, so Swamiji asked me thrice and all three times I just mumbled something or the other. That experience itself was a boon, his words still ring in my ear `what do you want', filled with love and compassion, he is asking me what I want, and he is just showering me with what I want without my spelling it out to him.

I have transformed leaps and bounds, and those who knew me pre-Swamiji have mentioned these, speed of operation, quick resolutions, heightened intuition, smarter thinking. Any challenge I have my trust and faith in Swamiji is immense that he will help me complete and the path will be cleared and so it has been in every thing I do , in every walk of my life. It is not possible to express in words how grateful I am to have Swamiji take me into his fold.

Silently revealed Himself

My journey with Swamiji began in the year 2018 when I was going through the worst times of my life. For months, I had been struggling to find a job and my illnesses made me seriously think whether I would even be able to survive in this fast moving world. While scrolling on internet, I came across a video of Swamiji shared by a devotee. I just stopped and returned to see who this Sadhu was. He was dressed in a complete hindu attire and was radiating complete grace. After watching a power packed video of Swamiji, I had a thought. Either this Swami would be a true Sadhu or he is a new Swami, brought up to purposely mislead the Hindus. I immediately began looking for a few more videos to search for what the reality was.

Swamiji is a insider in me & each one of the existence

Every Guru Purnima I never miss to be in Adi Kailasa, Bangalore. Somehow I reach on that day from wherever I am. That day is only for my Guru. It was one Guru Purnima , maybe 2015. Myself and my friend Shri Anburaj aiya both landed in Bidadi Bangalore. I wanted to donate Rice bag on that day to Adheenam Annalaya. Also we wanted to offer a garland to Swamiji. Offering garland to Swamiji is one of my favourites. I would like to do it every time. I want to see Swami Ji in beautiful garland. Some of the time the garland which we offer may be taken by Swamiji. Sometimes the garlands are more, in that case Swamiji will take from us, it will be kept by his side. Myself and my friend both decided to buy a Jasmine garland since Swamiji is nothing but Devi madurai Meenakshi herself whose favourite is Jasmine flower. We bought it and stood in the queue for a personal Darshan of Swamiji. As we neared Swamiji, we found Swamiji was wearing a chambak flower garland. My friend Maruthi Anburaj standing before me, I whispered to him, Chambak is Swamiji's favourite one. We were chatting about the Swamiji beauty of Chambak and other garlands. When our turn came, we offered the garland, Swamiji accepted with his own smile.

Thereafter we suddenly saw Swamiji took his Chambak garland and put it on my neck, blessing me. Also he put a garland on my friend Anburaj aiya. We couldn't even imagine this could happen. So blessed on the auspicious day of Guru Poornima So it is true, whenever we want to offer something to Swamiji from the heart, he fulfils that , gives back the same blessings. So he is omnipresent, sitting inside our heart, enjoying our offerings to him, being insider of us.It was our memorable day for me and my friend. We are blessed to have God as Guru directly. Thank you Swamiji, Pranaam at your divine lotus feet. Nithyanandam

Where are you looking, when I am next to you

I was a volunteer in Mahasadashivoham. I was to serve food near courtyard. I was preparing myself & getting ready to serve. There are 2 entrances. One on my right & the other on my left. Swamiji was going to come. I was covering my head & putting on my gloves etc.& looking all the time in the direction on my right for Swamiji to come. I don't know what made me turn to the left & behold my Swamiji was there next to me with a very big smile as though telling me I am next to you & where are you looking for me. I was in a state of shock & as though Swamiji is telling me where are you looking for me when I am next to you. It was a very beautiful experience being next to Swamiji out of the blue.

Swamiji's darshan

My name is Manorama, i was aware of Swamiji from my friend she took me for initiation and i got an athamalingam. I took both the dikshash's. Started my course of meditation of seven chakara's from Veena Ma and benefited a lot. I also learnt Nithyadhan. I was wanting to see Swamiji physically as i heard wonderful experience my friend had when she had attended the inner awakening programs i wanted to see him physically one day in my dream i saw Swamiji, i hugged him from behind he turned and hugged me tightly thats how i was initiated by Swamiji. i was feeling that my whole has changed since then. i was seeing linga on my agya chakra and felt blissful and untouched when i was in meditation. am very grateful to Swamiji such a profound experience in such a short time and thank him for keeping me safe and blissful during this pandemic crisis.

Visualisation of Sri Chakra and more – 2015 June

I had met Swamiji for the first time over a 2 day program in Jan 2015, and moved by the experience attended the Inner Awakening with my Family in May 2015. In that program, I got a book from the Nithyananda Galleria titled 'Why Meditate' authored by Swamiji, which had a guided meditation over 7 steps, and 35 minutes long. Feeling inspired by the entire content of the book, I decided to do the meditation as guided. The experience just blew me over. By the seventh step I

experienced a clear vision of a purple/magenta cloud burst effect, something difficult to describe in words but you can imagine firecrackers in slow motion, this then slowly moved into multiple triangular shapes multiplying rapidly over an infinite space you can say to where my vision could stretch. It was glimmering in space like lanterns across earth if we were viewing down from an airplane. I was trying to understand what this vision was, it was divine. Soon after the meditation timer had ended. I opened my eyes and felt a big shift within. I felt a presence in the room. My father had passed away a few weeks back. Without speaking I asked him if he was here in the room and to give me a sign. The light went off. I was a bit terrified, but I went on and said to give me a sign again to confirm, and the light came back on. The next day as usual at work before beginning as I was saying my prayers in the office and held the photo of Muruggan swami and pressed my forehead against it, a strong vibhuti smell emanated and lingered in the cabin for some time. This was the beginning. Something had definitely opened up within me, through the Inner Awakening program, and now to stay as a space within me. I searched online to understand what it was that I saw and then discovered it was the Sri Chakra, Devi's Divine darshan that I was blessed with, and that with this I had opened my Sahasrahara or Crown Chakra.

There has been no turning back every since and over the last 6 and a half years since I have met Swamiji, there are many occasions where some vibhuti, akshata has materialised, fragrance has emanated during a darshan.

Master My Heart Beats

Firstly I cannot describe the greatness of my Guru. It's beyond words, beyond language, it's the very thing that creates all these.

His grace is the supreme, brighter than the sun, cooler than the moon.

As ferocious as Kali and loving as Parvati.

He's the supreme creation of the cosmos, there is nothing beyond him and nothing below him. He's it all. My pranama to this great happening and deep gratitude for being able to witness it. Love you Swamiji.

They say when a master enters only when the student is ready.

Honestly speaking i was not at all ready for what was to happen.

It was all a beautiful Surprise, all I knew was Swamiji a being I wanted to meet and learn from, I had heard about Swamiji for the first time on a YouTube video , when I was researching on Kalpataru (wish fulfilling) and I heard a few of his devotees and disciples talk about the effect of darshan of Swamiji, that instantly pulled me towards Swamiji, initially when I saw Swamiji's videos I wasn't that electrified.

Cause I was like there are so many things I dint understand the internals.

So I immediately decided to be part of this and filled the form and got a call from the sanga.

As I was talking to them I already had grown fond of Swamiji, then came the main Sadashivoham program, the most awaited for me, as this gave me a chance to go and be with Swamiji in person and experience him.

That decision, that 'YES' for the program changed it all for me.

That experience immediately exposed myself to me, I immediately realised I knew nothing, absolutely nothing.

Then it all started, to know and release the old and be ready ready for the new, the beautiful ride holding my Gurus hands, through this beautiful journey.

Not just spiritually we have changed, but emotionally and physically too, with Nithyananda Puja, kriyas like Nithyananda Yoga, Nirahara Samyama, Trinetra Kumbhaka. It's like we learnt the spirit behind the action not just the word. He has held our hands and taught us through all our tantrums and what not. Love you Swamiji' When I look back, and see it feels like a beautiful, beautiful happening, cause it all was and is falling into place so effortlessly, or rather I may say this is Swamiji's effect, no matter what, we know it's all going to be blissful, it's in the bones-bonemarrow- DNA now.

Now after being with Swamiji, I can say ive experienced it all, he's given us all, such deep fulfilment that I just want to explode with bliss. I would like to thank and have deep gratitude for the Sanga for constantly supporting and assisting at all levels with all might, thank you. LOVE YOU Swamiji!!!

Before July 2015 Inner Awakening in Varanasi, UP, India was the first program I met Swamiji. This program transformed and enriched my life. Sanatana, asked Swamiji hundreds of questions and Swamiji, worked on Sanatana patiently and compassionately 24 hours and 21 days. Sanatana had read and was facinated by Hindu saints and gods and goddesses and incarnations. Autobiographies and thier darshans and stories. Little did he know his life and purpose was much bigger and better.

Divine Raas Leela with Guru

I wish to share an experience that I had with Swamiji which I feel is worth sharing. It was in the year 2019 when Swamiji had experienced the great pause and after a long period he had just begun to come online for daily darshan and satsangs. After the great pause I had begun to feel a difference in Swamiji's words. I had been listening to his satsangs previously but now when he was talking, his words were literally penetrating my inner being. When I experienced this, I felt the revelations were worth sharing and so I started sharing them in some connected whatsapp groups. Even few others had similar experiences about the satsangs that they were now carrying much higher frequency and we were really feeling awakened after reading or listening to them. Slowly I started noticing that I had become addicted to them. The addiction had become such higher that while travelling I would not be able to wait to reach my workplace and read the satsang. I would keep all the work aside and first read the satsang then continue with the rest of the work. Even after a deadly tiring day I would not miss the satsang. This was not a practice. It was happening all by itself. This reminded me of the time when the gopika's would be dying to have a glimpse of Shri Krishna on hearing the sound of the murli. All gopika's would loose their senses and leave all their work and on hearing the sound of the murli would rush to see Shri Krishna. This divine Raas leela with the Guru was the best experience I have ever had till now. While contemplating on death during this pandemic period if at all there would be something I would really miss from this life it would surely be My Swamiji.

That magnetic pull to meet Swamiji- my first meeting with Swamiji in person. January 10, 2018

How I got introduced to Swamiji

Sometime in August 2017 I had started watching Swamiji's videos and was instantly drawn to him and his teachings. I was almost addicted to watching his satsangs. I wouldn't sleep without watching at least for some time. The pull was very strong. Every word made sense. His presence moved me like no one else had before.

Finally I booked myself for Nithya Dhyana Yoga and Nithya Dhyana Kriya course. I had never done something like this before- Enrolled for a spiritual course! My excuse was that strong desire to meet Swamiji and get my wishes fulfilled.

Enrollment done, however I had no clue or plans of where I would stay , where exactly is the Ashram. And most of all I had to hide this information at home. I had

made a very flimsy excuse. There were butterflies, because beloved Swamiji was mired with controversies even then, Going to a so-called ``Godman” as he would be referred to by the media, was more than weird. But that butterfly was irrelevant compared to the huge magnetic pull I felt to land in Bidadi and meet Swamiji in person.

My first meeting in person and the magic

I landed at Bengaluru Airport and then booked myself an Uber. It was evening by the time I landed. I put the location and we drove off to the Adheenam. It started getting dark and with that a wee bit of nervousness. To add to the nervousness we landed in a strange place with no sight of the Adheenam! Gosh! The place looked like in the middle of nowhere, no one to even ask around.

Small fears crept, yet the faith was bigger. I kept telling myself Swamiji has called me, he will take care.

Now even the Uber driver seemed unsure, wow just the kind of thing I needed to feel assured . For a moment the thought crossed my mind- Was I doing the right thing? Stupid me..look where I have landed myself with an impulsive decision. But again that same thought came back- Swamiji has called he will take care . I called the Adheenam and was told I was at the wrong location. Phew!! at least the number was not fake and actually someone responded .so that was a huge relief.

However the Uber driver almost gave me a heart attack when he said in the middle of no man's land- ..” Amma, that location is on the outskirts of Bangalore and we are not allowed to travel there. Another hurdle, wow! If he just has to drop me in the middle of nowhere How do I get to the Adheenam ? Where do I go? It was nearly past 9 pm and getting darker . I was a little anxious as we were still far from the city. Yet that feeling wouldn't go – of – Swamiji has called me, he will take care. And just when I was contemplating on what to do..the Uber driver Lo behold had a sudden change of heart and in his words “ Amma I'll take a chance and drop you, how will you go alone”. What a kind man. We proceeded to the Adheenam smoothly and reached. God bless the driver.

Once Inside at the reception the Aiyya asked me, so where are you going to be staying?" and I looked up and said.."I have no clue” . He gave me a puzzled look with a smile.He mentioned that it was not possible to stay in the Adheenam as nothing was available. And he started making calls to check if there was any accommodation available as everything seemed to be booked. While he was making the calls my head was just reeling with the excitement of having landed in Bidadi and the prospect of meeting Swamiji.

The Sudden call for Darshan

Then Aiyya suddenly asked, hey are you carrying a saree? Wait what? Where did that come from? Weren't you looking for a place for me...I said - no I'm not carrying a saree. His patience with me was exemplary, he just shrugged his

shoulders and let out a deep breath and said ok just rush....there is a counter in the hall buy your saree..Swamiji is giving Shiva deeksha and Vishesha deeksha..

At that point I had no clue of what that was. I ran to the hall, where I would be spending the next few days.

Now when I look back I feel I was so damn lucky !!!! and indeed a chosen one to be initiated by Swamiji, to have received the Atma Linga by Swamiji Himself. Didn't not know the importance of all that until much later, At that point It was just a roller coaster ride. Being pulled into a whirlwind of energy.

Sessions were conducted by Maa Jnanatma, wonderful participants, so much learning and peeling off layers followed, All the sanyasis were glowing and we would feel like we were in Indraloka.

Oh and how can I not mention Kala Bhairava right at the entrance! So alive! First time I saw people walk up and hug him and whisper things into his ears. I did it too, it was so reassuring. Had never hugged a statue like that.

The beautiful deities and oh gosh the 1008 Lingam pond, Vaidyasarovar,..we would walk around it in the night. Such luxury I would say.

I did have the good fortune to go there a couple of times and have the live Darshan of Swamiji. Glad I followed my instincts or rather heeded Swamiji's call , since soon after Swamiji had to leave the Adheenam and rest is history as we all know.

Oh I must add – A participant took a picture of me next to the homa that had just gotten over, And miraculously the smoke formation was exactly that of Swamiji's. It's unfortunate I've misplaced it. Hoping will find it soon and show it to the world.

I have been on and off following Swamiji to be honest, but since I connected there has not been a single day I don't think about Swamiji.

My Swamiji , My Paramashiva- As I write this..that same feeling is coming back – He has called – He will take care. I offer my SDHD (self-denial, self-hatred), powerlessness and all the stupid things at my beloved Guru's feet, I seek forgiveness for my loss of integrity in the past and in the future, Hold me Swamiji and don't let go, Love you.

How Swamiji Reveals Himself

In my initial months when I had just started listening and connecting with Swamiji, I had made a trip to my hometown Mangalore. I was at Someshwara Beach, which also has an ancient Shiva temple and the energy of Shiva is quite strong. And here I was thinking of Swamiji and suddenly I looked down and found this shell that looked like the half moon , that adorns Swamiji's Jata.. It was a beautiful A -Ha moment. I quickly picked it up and got it back home.

I've experienced an unclutched state, when I was at the centre of all darkness, and this darkness had depth, and at the edge of this darkness I saw Abhimanyu, my identity, the way I had structured it into over the years, his borrowed desires, imposed desires, his binding wants, his real need, the image he presented, his lies, his true fears, his greed, his self assumed limitedness..

Kaju Katli, my Spooky Swamiji, August 2020

My secret nickname for Swamiji is Spooky Swami..because somehow he reads my mind. And he either answers it through satsangs or people from the Sangha

Last year during the lockdown I had this huge craving for Kaju Katli (Cashew sweet) my favorite sweet. The craving was so strong that I had to ,had to eat it. So I went to the shop and bought some. Once home couldn't wait to unbox and satisfy this mad craving.

Now it had been a few days that I wasn't able to watch Swamiji's satsang and I told myself, lets watch the satsang also while I unbox my treat!

So here I am opening the box and waiting to gobble down the Kaju katli I'm dying to eat and just then I hear Swamiji say " So In India there is this sweet called Kaju Katli" I almost choke on the sweet. And Swamiji goes on to tell how to avoid eating the silver foil on it, since it is harmful.

And there Swamiji just sabotages my craving. And therein was a powerful message for mel

Father liberated in the holy city of Varanasi

In May 2015, our first Inner Awakening 21 day program, I went with my father wheel-chair bound, my sister, son, and 2 help in hand. Swamiji has blessed my father and liberated him of 17-years of a bed-ridden paralytic life in the holy city of Varanasi, after my father visited the Kaashi Vishwanath temple, Kalabhairava temple, took the dip in the sacred Triveni sangam -- all part of the 21-day program -- and also received his atmalinga from Swamiji's hands before he passed away peacefully in Varanasi. It was only later I realised that Hindus wait, aspire, covet to pass away in Varanasi where Sadashiva himself receives the soul. My family's temple priests, relatives were calling and congratulating me on my father's passing away in Varanasi, calling him blessed, a saint, blessing me for taking my father to Varanasi. It could not have happened without Swamiji. I am so grateful to Swamiji for this blessing he has given to my father who has been the most important, most loved and cherished person in my life.

Chapter 2

Yogic Powers Manifestation

Healing Powers Manifestation (March 2020)

During Paramashivoham 2 in March 2020 on one of the days during which I had to call up acquaintances and ask them if they had any wish which I had to manifest for them as devi. Of which one had a severe headache and wanted it to be treated, I did give her the energies of the devi, she later called me and told me that she felt something happening to her and felt very energetic and her headache also got cured.

Also during this power manifestation I had called one of my students and had asked him if he had any wish. He told me that he wanted to do CA. I just gave him the energies of the Devi. After about 9 months of this incident he called me and told me that he registered for CA and in fact he reminded me of the call and his wish how it got fulfilled. I was so happy to know how through Swamiji I could manifest for him.

I have manifested the power of healing a lot of times, and that's generally healing my family. Mainly my sister Renu, she tells me that whenever I give her healing she gets better and I generally do it remotely . I remember once I was there with her when I touched her head with atmalinga and I could heal the restlessness in her the moment I did that to her. She felt better after that. But I have never seen that restlessness in anybody so far. Swamiji through me has healed my sister, and my son invariably.

Remote Vision Power Manifestation (March 2020)

This yogic power manifestation happened during my attending Paramashivoham II in March 2020. And it was a sudden realization that I had this power. Another participant of the program had messaged in a Whatsapp group that she had lost her home key and had put a close-up image of the key. Please note I did not know this participant at all by name, face, or had any information about her directly or indirectly. But as I saw her message, I could see her key in a higher floor bedroom under the bed (none of these was visible in the image she shared). She confirmed that this was right but that this was the duplicate key she had. (All this conversation was happening on WhatsApp). I could immediately see her walking a dog or child, a garden between her home and a temple, and footpath over which she had either dropped it or got off from a rickshaw at the footpath and dropped it. I could see

that the keys were now in the temple hundi. I messaged her to check if all of this had happened and to check at the temple. As she could corroborate the rest of my visualization, she trusted this information and went to the temple. And possibly she was asking around on her way, and lo behold. She found the keys safely kept in the moneybox of a tea-stall outside the temple. After this amazing experience I have been very easily able to locate lost items unless they are now possibly with someone or someplace you cannot recover it from. I can manifest remote vision consistently.

Materialisation and Remote Vision

I attended Paramashivoham 1. We had to do power manifestation. I had to materialize in any other part of the world. OK. So I engaged with a devotee in another city. I materialised vibhuti on her computer screen. Next was Aushadha on the screen of her computer. I told her ma this couldn't be true. You are lying. She said I have no reason to lie. I will send you the picture. She did. I couldn't believe it. What an unexpected experience. I was thrilled.

On another occasion we had to do remote reading. Now it was already past midnight. Most of the people must be sleeping. So I asked another devotee to help me out. He said in the US it is morning time & gave me a number to call. I did. She was very busy & told me to message her. I did. I couldn't believe what I was writing. She read it and told me everything was correct. What a beautiful experience for me.

Power to Heal

One of the most intense experiences have been in the NITHYANANDA Spiritual healing sessions. After Initiation from BHAGWAN, in 2017 and PARAMASHIVOHAM 2018, I started the healing sessions. It was during the critical covid times that the sessions were very useful for all. Started in March 2019. There was no vaccine developed and medical experts were trying to develop the treatment for covid. The presence of PARAMASHIVA was evident and divinely felt in the sessions. Not only healing but powers of body scanning, Akashic Readings and Sarvaghyatva were also manifested. PARAMASHIVA is real and HIS powers in all HIS glory were continuously manifesting in every session. The accuracy was spot on and people were getting healed exactly in the number of days as told by PARAMASHIVA Also the state of the patient in ICCU was clearly revealed accurately in whatever remote city he was. Many patients were healed from critical conditions. Healing was happening in all levels of mind, body and soul. All diseases

from diabetes to covid and many incurable diseases were getting healed. It was like Bholenatha, the devine was available for all to get rid of any ailments. After healing almost 500 patients in 276 days non stop, took a break in 2020. Immense Gratitude to PARAMASHIVA for this great and unique super power manifestations.

Sashtang pranams to Swamiji. This happened at our Bidadi campus, one brahmamuhurta morning, while on the way to do yoga, suddenly I felt a blast happen in my head, and everything just calmed down, and I almost felt like I had no head, and felt my existence not in the head but somewhere entirely different place within me, then as I started doing yoga, I was hitting all the asanas to the T, my body just moved without interference from me, like my body already had the intelligence of all the asanas, this was confirmed when towards the end of the session, three watchful sanyasis came to me one after the other to tell and congratulate me for an authentic practice the had seen in long,.. But I had done nothing it just happened for me... Gratitude Swamiji.

Seeing Without Spectacles

I had a wonderful and powerful experience to see my Swamiji with my own eyes instead of the thick heavy spectacles that I was wearing for so many years. Further, on checking with the ophthalmologist however I was told that the number for my spectacles remain the same and you do need to wear spectacles. Yet here I am without my spectacles and seeing everything perfect, this is the blessings of Paramshiva to me. I am so grateful to Swamiji that any wish whether small or otherwise is listened and blessed with fulfilling it. Once you have Paramshiva one does not need anything else in life. Heal Spur, Eyesight and more (2016 Sadashivoham)

After a few weeks of intense and unbearable shooting pain in my heels, I was diagnosed of a heel spur in both my feet through an X-Ray that showed a small growth in the heel bone. Doctor had said that this now meant I needed to walk with cushioned footwear at home or outside, as well as take lifelong medication for the pain, and also some ointment to support. I had even purchased a lot of gel pads to fit or stick on to my footwear in my US trip that May-June as it was not so easily available here in India at that time. During Sadashivoham 21-day program during the one-to-one darshan, I did slip a note to Swamiji asking him to please heal the same. I do not when and how, but I just remember that soon after I was back I realized that I had not taken the medications or worn the cushions from during the program itself. In August 2018, during Ganesh Visarjan I walked barefoot along the 1.3 km stretch of Bandstand in Bandra, the promenade by the sea, for the Ganesh Immersion, through rough roads / pebbles etc. I was remembering and wondering if the heel spur will come up now. But no. Its been now 4 years and even my doctor is stunned that the healing could have happened. He had said no operations are possible and this was dead-end. But not for my Swamiji. Let me add that I was willing to have spent lakhs of Rupees to heal my heel spur. But all I needed was my Swamiji's blessings .

Likewise, there are other miracles, during Sadashivoham 2017, i never realised when, but i had stopped using my reading glasses ever since.

Another case, I used to have a nagging pain in my left calf for years, even got an MRI done etc., but no cause could be found except I was told that it could be because of some calcification. The pain would really affect my ability to fall asleep.. During one of my very first darshans, I had asked Swamiji to heal this, in the 2015 Inner Awakening in Varanasi. Once again, I do not know when, but this pain has left me within a few days without me even recalling it existed. In the same program, I also learnt how many of these pains are incompletions that we store in our muscle memory. Well Swamiji definitely did a major completion for me in that program.

Our Pug was Healed By Nithyananda Gurukul Maharaj

The Gurukul Balasanthas initiated by Swamiji, are no ordinary human beings. Our 5 year pug, Jaswinder, had suddenly taken ill, was shivering constantly and lost weight, and nothing seemed to be working. The vet had us take an X-ray, and while we could not make out much, he pointed out that possibly, as our pug had only one externally visible testicle, the other testicle is growing inside and causing the pain. But the vet also said that we cannot operate Jaswinder till his fever and pain settles down as pugs are very sensitive and have a high risk respiratory tract. We were really troubled what to do, and I was only praying to Swamiji.

Luckily there was a 2-way video session with the Nithyananda Gurukul balasanthas (students). The male balasanthas are addressed as Maharaj. One of the initiated disciples, Sundaresh Maharaj, scanned Jaswinder over the Zoom video call. He only asked what the breed was, but I also gave him all the information shared by the vet. Maharaj scanned the pug for a couple of seconds and said, pls check you will find a small insect bite in his inner thigh, put turmeric powder on it, and in three days your pug will be fine. We could not believe it, here the doctor was saying we have to operate and the major testicle in-growth was causing all this. We quickly checked Jaswinder's inner thigh, and lo behold there it was that tiny red spot of an insect bite ! As advised we put the turmeric powder. We actually did not have to even wait for 3 days, Jaswinder was fine within a few hours or a day. We do not even remember if he suffered much after the scanning. In fact with the scanning the healing had happened I beleive.

.In 2016 I attended NDY program at Bandra Centre at Chhaya Ma's Place from that day i had strong feeling of attending Swamiji's 21 days Inner awakening program. My son's Pediatrician Dr. Pranjal introduced Swamiji into our Life. Dr. Pranjal and the center coordinator enriched , moved and inspired me about our beloved Swamiji. I wanted to do Inner awakening program (Sadashivoham 2016) but wealth, leave from office was the constraint for me even my son was 3.5 years old at that time. One day the center coordinator was helping me with wealth completion on the phone, she told me how to be complete with wealth and surrendering every doubt at Swamiji's lotus feet, we completed the call, but while on call with her I had a call on waiting from a man from Mantralaya. once i finished call with Ma, I called back to man from Mantralaya and surprisingly he told me the probation arrears which were pending from 6 years were soon to get me...this was very surprising moment for me because as I completed wealth completion with the center coordinator, my wealth was on the way to me. Then in the same year in December I Participated in Sadashivoham 2016, and experienced divine Darshan of Swamiji which was a celebration of life for me.

Made sure I'm not out of job - July 2020

Last year I was out of a project (working in IT) and was worried about what would happen considering the trend of the industry ! I asked Swamij after Pooja literally weeping - saying Swamiji saved me from being without income sa I don't have strength and money to hold on ... next I know something happened and I got the project and now I'm working on a role which is little higher than what I was initially offered !

GST Paid By Swamiji's Grace! (November 2018)

This was another incredible experience. We had to pay around Rs 15 lakh GST by the due date and whatever payments we were expecting from our clients had not come through on time. My finance head had been voicing her concern and I was just praying to Swamiji to help as needed. Trusting whatever be the outcome it is that way he means it to be. And on the day the payment had to be made my CFO just opened our account wondering what to do, and she was stunned to see that our Bank had transferred a payment of Rs 25 lakh to the GST account without any balance in our account! We were saved from unnecessary stress and penalties. In about 3-4 months after this the bank had realized their mistake, but by then our troubles had been taken care of.

From 10 lakh to multicrores - Completed with Wealth Incompletions

With Swamiji, i have overcome my wealth incompletions in a way wherein, in the last 7 years, for me at one time 10 lakh was a big amount, and today the thought of creating and offering multi crores to Swamiji all are an absolute possibility and reality for me. In a 2 day program that Swamiji had hosted on Wealth Manifestation, I overcame some serious misgivings I had about big sums of wealth, and these were rooted from Bollywood films I had seen as a little child, where the rich man was either killed or hounded by villains, the child of a rich man could be kidnapped, or the rich man was smuggler etc. There is a lot of negativity surrounding wealth, and equally a celebration of poverty and misery in movies like Awaara and Mother India. The rich were scoundrels and the poor and suffering were painted as the good guys. In the completion session, I experienced how terrible I felt as a child watching all that negativity and my body was shaking, I was almost in tears, afraid and uncomfortable, and I overcame all of these on that program. Soon I was seeing myself able to attract the wealth I wanted. And the more I was also contributing in the form of sevas, offerings to Swamiji's mission, or as offerings of gratitude etc, I saw my wealth also increased. At one time I would have been daunted about flying Business Class, but I went to Switzerland and the USA and back to India in Business class in my last two international trips. From a 2 bedroom, significantly small space, I have now moved to a 4-BHK sea-facing apartment. These are just gifts from Swamiji, and words cannot express my gratitude.

Swamiji makes it happen when you need it.

I had a deep desire for doing Inner Awakening from 2013, with Swamiji's grace I manifested it in 2016. Same way I manifested December 2016 Sadashivoham program, my friend in Hyderabad arranged the whole money for me to do the program. There are so so so many incidents where I felt swamiji's presence in me, i am unable to put it into words. Gratitude Prabhu

Attending MSS 2017-2018

I started listening to Swamiji on You Tube Sep 2017, and then I decided to attend the Inner Awakening program to be blessed by Swamiji. I was in a hurry & wanted to attend the Inner Awakening season in October 2017. I also made the payment, then after a few days, I got a call from Adheenam that Inner Awakening is cancelled & I can attend Mahasadashivoham (MSS), which is more rewarding than IA session, It was a miracle, as I was without a job for the whole of 2017, but Bhagwan Paramshiva made it possible for me to attend MSS 2017-2018 without any money issues.

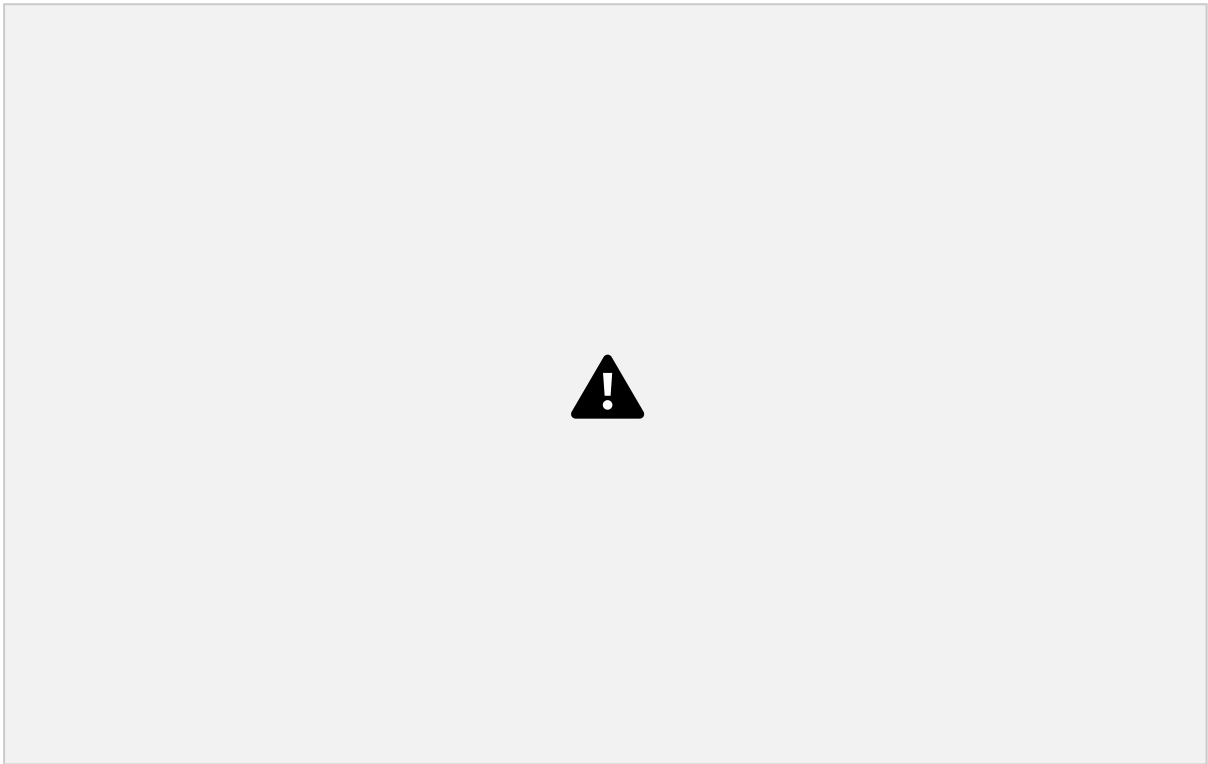

During the MSS, I was blessed by Swamiji in many ways. I could offer Maheshwara Puja for my parents & brother. Bhagwan Paramshiva took care of me in the most loving, sweetest way. My Gratitude to Bhagwan Paramshiva for choosing me to be His discipline

In Mar 2020, I was very lucky to go to Adheenam, perform the Linga Abhishekham as Bhagwan Paramshiva had performed the KumbhAbhishekam in Jan 2020 and permitted disciplines to visit Adheenam within next 90 days.

Bhagwan Paramshiva made it possible for me to reach Adheenam, & He gave me the hard copy of The Living Enlightenment book which I was requesting from Bhagwan Paramshiva. It was indeed a miracle as lockdown started immediately in last week of Mar 2020 My Gratitude to Bhagwan Paramshiva for all His blessings & love

Removal of Obstacles Experiences

Griha Pravesh Obstacles Removed

Miracles just happen if we connect to Swamiji I had long wanted to move to our own house. But somehow it was evading me. Even after we bought a beautiful 3 bedroom terrace apartment in Mumbai in 2010, we couldn't move into it owing to some legal issues the developer had with the authorities. From then on we were again on a house hunting spree for the next 5 years but to no avail. And then Swamiji happened on my life! After I attended the 21 day Ujjain Kumbh program that Swamiji conducted, I made so many completions and realised that I was manifesting my own reality. So I dropped many of my wrong beliefs and started to align my beliefs with my desires. Within months, with Swamiji's assurance and blessings we prepared to move into the terrace flat we owned with no doubt that he would take care. And honestly as promised, Swamiji ensured that all legal problems just resolved like magic by the time the interiors got done and we planned the house warming happily. I am ever so grateful to our dear Swamiji for this miracle and many other miracles that happened in my life since I connected to Him.

Traffic, Fog, Clear Anything To Reach On Time, December 2016

This started happening right from our journey to Sadashivoham. My mom and I were getting late for the flight, because as we were packing for the 21 day program and getting the bags in somewhere we lost count of time. And when we got into the car in Bandra West it was 1.20 pm, and our flight was to take off at 2.30 pm! And we had just too many bags to check in. Anycase, we just prayed to Swamiji and on the way we did not look at the watch at all. We reached the airport and of course ran to get two trolleys and load it with our bags and that of another devotee who was at the ashram already. We ran to the check in counter, and there they told us that we were over the permissible weight limit and said we have to pay Rs 4500 or so, and we were very late already. All we could do was look with pleading eyes and my mom was removing my credit card to make the payment, in the hurry she had not taken enough cash in her wallet. Don't know why the guy at the counter just changed his mind and said please just run to the check in counter. And we did, it was the A2 gate, so on the other end of the check in counter. We went through security. We finally were near the gate and I looked at the time finally. 2.10 pm.

Time is elastic, Swamiji's teaching on Time as matter, you can expand and collapse time, we had just experienced it first hand. Seems impossible. But yes this is what happens when you just think of Swamiji. Such miracles have continued to happen. My mom has chanted Om Nithyananda Paramashivoham and requested the Fog to clear so she could reach a city on time, and it has happened. Ask the traffic to clear, it somehow would clear only for the lanes we are in. The list is endless. No rickshaw available, chant Swamii's name and there in front of you a rickshaw stops to take you wherever you want. Any device no working, gadget trouble, cannot find something, just remember Swamiji and the problem is resolved.

Job rejections overcome, 2020

In 2019-20 I was in my final year of my Postgraduate studies. Getting a good job was my ultimate goal which I was trying my best by putting in my hard work. Each time when I sat for a process for a company I used to pray to Swamiji and go.

I used to go on until the interview stage but I will be rejected. So almost like 10 companies, I sat and I had very few chances left. The second-year half was completed. I used to feel bad, dejected that all my friends are getting a place. Why not me? I am putting in this much hard work on all those. The 11th company for which I sat for the process my mom called in the morning she told me to keep the Atmalingam which Swamiji gave in my pocket throughout the process. To my surprise, I passed on the writing so well and I was confident that I would go till the final round of the interview which I did. The interview also went smoothly and when they were announcing the result of candidates selected I was just holding the Atmalingam. Finally, the miracle happened and I got a placement offer in my college. Even now recently Swamiji gave his blessings and I switched my job into a bigger organisation.

Well Played in Rifle Shooting Competition

It was in march 2021, I had a pistol shooting competition in Mumbai. I wasn't performing that well in my practice sessions. But, I played very well at the competition...I could feel Swamiji's presence even in my trigger finger! He was guiding me throughout the match!

Finding the misplaced Atmalinga

I had misplaced my Atma Linga and the Mumbai Sangha was holding an event where they were doing an Atma Linga collective Pooja and they were also giving Atma Lingas. But for me, the one Swamiji gave was super precious. I wanted that itself.

I reached out to the nearby center head and she assured me that Swamiji will help with such conviction that I will find it. I was looking for it before that for quite a few days and was so irritated at myself. And then Lo Behold! I found the Atma Linga tucked inside my vibhooti bag the very next day!

Why Guru

Srī Guru Gītā is the divine book which is expressed from the supreme being, Bhagavan Paramaśiva Himself, where the glories of the Guru are extolled in the verses. With the most perfect disciple, His own Divine Consort, Devi Parāśakti seated on His lap, Paramaśiva sings the praises of the being to whom He Himself fully prostrates. It was in this intimate setting, underneath the kalpavṛkṣa tree, that the most upheld tradition in Sanatana Hindu Dharma, the Guru śiṣya paramparā, was born from the primordial Guru, Paramaśiva and His first disciple Parāśakti.

Verse 25 from Sri Guru Gita :

Guru IS BUDDHĀTMAN- MAKE EFFORT TO ATTAIN Guru

गुबानो नात् सं सं न संशयः। ताभाथ यु कतो िह मनीषिभः॥२५॥

*Guru buddhyātmano nānyat satyam satyam na sanshayah | tallābhārtham
prayatnastu kartavyo hi manīṣibhiḥ || 25 ||*

25. The Guru is the Ātman (Self) and not different from It. I declare onto you, this is the Truth, this is the Truth. Therefore, for the attainment of Guru, efforts should be made by seekers and men of wisdom.

Verse 26 from Sri Guru Gita :

WHO IS Guru DEFINED- who gives direct knowledge of Self

गूढिवा जगाया देहे चानसवा। उदयः काशेन गुशेन कते॥२६॥

*gūḍavidyā jaganmāyā dehe ca-ajñāna-sambhavā |
udayah svaprakāshen Guruśabden kathyate || 26 ||*

26. The hidden ignorance, the worldly illusion and the body—are all caused by the ignorance, the absence of the sacred knowledge. By whose grace one attains the direct experiential knowledge and sacred cognition of the Self (vijñāna), He is known by the name, Guru.

Verse 33 from Sri Guru Gita :

दिशकैव च नामकीतनं भवेदन िशव कीतनम् । दिशकैव च नामिचनंभवेदन िशव िचनम् ॥ ३३॥

*svadeśikasyaiva ca nāmakīrtanam bhaved-anantasya śivasya kīrtanam |
svadeśikasyaiva ca nāmacintanam bhaved-anantasya śivasya cintanam || 33 ||*

33. The chanting of one's Guru's name (nāmakīrtanam) becomes the chanting of the name of Śiva, who is ananta (the Infinite), and the meditation on the Guru's name (nāmacintanam)—becomes the meditation on the Infinite Śiva.

Verse 34 from Sri Guru Gita :

यादरेणुव िनं कोऽपि संसारवारधौ । सेतुबायते नाथं दिशकंतमुपाहे ॥ ३४॥

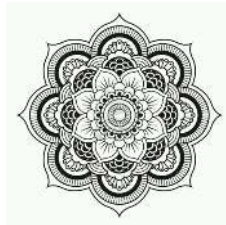

*yatpādareṇuvai nityam kopi saṁsāravāridhau | setubandhāyate nātham deśikam
tamupāsmāhe || 34 ||*

34. The dust of whose Feet enriches to definitely bridge up the ocean of worldly existence (saṁsāra), to such a savior, SatGuru Deśika, I daily worship. (Deśika means the Demonstrator or Spiritual Teacher who explains and reveals the Truth to our intelligence, so we may absolutely and precisely internalize the Truth into our experience.)

Excerpt from Sri Guru Gita, by His Divine Holiness Nithyananda Paramashivam :

``When it comes to the benefits, whether it is the prevention of disease, or maintaining the health, or curing or having the best mental setup - peace, joy , bliss, or ecstasy, and being far away from depression, handling life, everything - including manifesting the extraordinary powers, everything is available in our original source text, what we call Vedaagama, Vedas and Agamas of this Hindu tradition. Whatever I am doing is bringing life back, reviving the original science as expressed in Sanatana Hindu Dharma, whatever experience, anubhuti I had by my Guru's grace, Atma Pramana, I compare with Apta Pramana, Shastra Pramana, the ancient Master's experiences and I do acid wash all my Atma Pramana with the Apta Pramana. Whatever My personal experience, Atma Pramana, I do acid wash with Shastra Pramana, Apta Pramana. Whatever finally stands after the acid wash, I share it with the world as Sakshi Pramana, which becomes Sakshi Pramana. I also wanted to tell the whole world, through this opportunity everything you need is available in our Shastras - always learn from the Gurus who have personal Enlightenment and abide by the Shastra Pramana. Anybody who does not have personal enlightenment will not even understand the scriptures completely, they will be just pundits. They will not be able to give you experience. Some of the people who had a few satori, one or two experiences, but does not adhere to Shastra Pramana, there is a danger that their experience may be good for them, not for the whole world. Even if somebody is enlightened, what they should share with the world and what they should not share with the world should be, will be decided only by Shastra Pramana. Every person whether he had enlightenment experience or not, what he shares with the world should be decided by Shastra Pramana. Shastras gives a complete view of what can be shared and what is good for the whole world. Some of the Gurus by the way they are brought up, they will be vegetarian, they may not be drinking alcohol so they will do some Shirshasana, the stomach cleansing techniques, all this, it'll work for them, they will have experience, but because they do not refer the original scriptures they don't understand the vegetarianism and no-alcohol are basic requirement for these kriyas to work. Yama, Niyama are requirements for these other components of Yoga to work. They start thinking these actions alone are enough, and they start teaching, and when somebody who drinks alcohol regularly if he does Shirshasana, I guarantee he will have mental problems. I have done enough research on this. It cannot be taken out in the name of cultural frills. Everything Patanjali mentions, that is why the word is Ashtanga Yoga, not even 8 steps, 8 parts, anga. The word Ashtanga Yoga is not 8 steps that to get to the second step you leave the first step, to get to the third step you leave the second step, you go to the sixth step you leave all of the other steps, no. It is not steps, it is anga. Unfortunately, some Gurus when they do not read the scriptures or respect the scriptures or revere the scriptures, the source manuals, they cause more danger to society than help. So even if somebody is enlightened, what they teach to the world needs to be acid washed to the scriptural strength. So the key is having the experience, referring to and validating with the text before they transmit. See, because many things which we have practiced without even knowing we practiced, even that needed to be taught to others. For example, Ishvara Pranidhana, Patanjali says: surrendering to the ultimate, we would have

practiced it as a simple flow because any child born and brought up in an Indian village tradition learns surrendering to Sadashiva like how he learns to breathe, but we forget when we teach to the world, they may not have had this background and experience, they need to be taught this very systematically, scientifically. So even if somebody is enlightened, he has to refer and adhere to the original scriptures when he wants to teach something, when the knowledge needs to be transmitted, that is the only safest way, method the spiritual knowledge, the spiritual experiences, the spiritual enlightenment can be transmitted. I do request the people, please always understand: learn only from the people who have experienced and are referring to the scriptures. Please understand, whenever you go to any yoga, meditation, spirituality, any Gurus, teachers, ask this question first: from which shastra is this system taken out? I am not disrespecting Gurus, Gurujis, their experiences. Most of the time, their experiences may be good for only them. What is good for the whole world, the sketch, the framework is already done by the rishis. So whatever is My experience, I map it back on the Shastras, and only the teachings, truths, where it passes through both the test, Atma Pramana, My experience, and Apta Pramana, the rishis' words, rishis' experience, only when these two match, only those truths are worthy of being shared with the whole world. I can give you a guarantee: whatever I am sharing with you, there won't be any negative side effects, because everything is time tested, foolproof, ancient. Yes, I have experienced it. I am responsible for what I am saying, and I have also mapped it back clearly with the tradition, with the Shastras , authentic scriptures, because I feel responsible for your life. "
