An application for credit transfer can be made either with an application for admission to the College or no later than the third week of each semester.

An application for credit transfer cannot be made before an application for admission.

The following documents are required for each application of Recognition of Prior Learning (RPL):

- 1. RPL application form (filled and signed);**
- 2. Clear, attested copy of certificate(s);**
- 3. Clear, attested copy of transcript(s);**
- 4. Relevant module outlines / syllabi.**

Incomplete applications will not be accepted.

Assignment Submission

All students are required to submit all assignments on or before the due date.

Generally, students are required to make online submissions to Moodle, except for modules requiring hard copy submissions.

Failed submission attempts, or partial completion of the electronic process by the submission deadline will not be considered as 'submitted'.

Late Submission

Students have a 24-hour window for late submissions.

Assessment submitted up to 24 hours after the published deadline will be penalized

After this 24-hour 'window' has elapsed, the work will not be accepted and will be recorded as a non-submission.

Student unable to submit within the specific timeline due to personal circumstances must submit a *Personal Circumstances* form in accordance with the Procedure on Personal Circumstances. And such applications will be processed in accordance with the Procedure on Personal Circumstances, which shall be communicated to the student.

UWE Programmes

Please note that the submission deadlines are absolute and based on UWE server time; therefore, you are strongly advised to submit work well ahead of the deadline dates to avoid situations where penalties may be incurred.

If penalties are imposed, this will result in late work submissions being capped or not accepted for marking.

Assignments submitted more than 24 hours after the deadlines will not be accepted for marking.

Each weekend counts as one day in determining the penalty.

Academic Integrity

Academic integrity relates to all academic activity that students are involved in, but is specifically related to any action that potentially enables a student to gain an unfair advantage especially in an assessment. It also relates to the ethical policy or values that Villa College students are expected to abide by in their pursuit of higher education.

Behaviour that constitutes an assessment offence in the context of this policy statement includes but is not limited to:

- **Plagiarism;**
- **Collusion;**
- **Contract cheating;**
- **Falsification;**
- **Fabrication; and**
- **Cheating in controlled assessments.**

Penalties are in place depending on the nature and the severity of the offense committed. Details are provided in the Villa College Procedure on Academic Integrity.

Plagiarism in coursework and examinations is a serious offence for which offenders will be penalised. Without limiting the generality of this definition, plagiarism may include

| Copying or paraphrasing material from any source without due acknowledgement;

| Using another's text, illustrations or ideas without due acknowledgement;

and

| Working with others without permission and presenting the resulting work as though it was completed independently.

Villa College expects students' work to be genuine and original. Any student who plagiarises does not maintain the academic honesty expected by the College and such activity therefore is deemed an academic offence.

Rules on Pursuing Qualifications Concurrently

The following rules apply on pursuing award programmes concurrently:

- a) Pursuing qualifications concurrently (whether at the same level or different levels) from the same institution or different institutions requires written approval of the registrar.
- b) A student must maintain a minimum of 2.00 GPA to continue pursuing qualifications concurrently.

Rules on Overloading

The following rules apply with regard to overloading:

- a) With the approval of the Faculty, a student may add up to 30 credits to the standard load of a semester, provided this is necessary.
- b) A student must have a minimum of 2.00 GPA to overload.
- c) Overloading above 30 credits or where the GPA of a student is below 2.00 requires approval from the Admission and Awards Committee.

Exam Registrations

The examination periods are indicated in the Academic Calendar. This includes main examinations and re-sits examinations.

The exam time table will be published and made available on Moodle before the exam period.

All students enrolled in various modules should register for the exams. Exam registration can be done only if the student:

a) Has met the attendance criteria (achieved 75% attendance)

b) Has cleared all the outstanding payments

Upon successful registration, you will be issued with a final assessment authorisation slip.

Failure to register for the examination by the given date may result in a financial penalty or being barred from the exam.

Requests for special consideration on an examination or assessment item must be lodged no later than 7 working days before the date of submission or examination.

If you are unable to attend an examination due to a serious illness of yourself or an immediate member of the family for whom you are the primary caregiver, a doctor's report (not just a medical certificate) needs to be submitted within 7 days in order to qualify for an uncapped resit.

Initial and Repeat Assessment Cycle

All students will be given four opportunities to attempt the modules as follows:

If all these four attempts are exhausted, you will be required to exit from the programme.

In such cases, you may have the option to exit with an **Exit Qualification** specific to the qualification you were enrolled on, or change to another programme of study.

Appeal of Results

Students cannot appeal against properly exercised academic judgment. The student may appeal against the results of the compulsory or major assessment items including the results of the final examination, using a specific application form. Any appeal must be made within 10 working days of the publication of results. In addition to the assessments, students have the right to appeal against any decision of the College which directly affects them.

Personal Circumstances

If you consider that your performance in any element of impending assessed work will be seriously and adversely affected by circumstances beyond your control (e.g. illness, a serious domestic problem, bereavement, etc.), you are entitled to apply for personal circumstances to be taken into account in accordance with the College's regulations. You are required to fill the personal circumstance form and submit it along with the necessary supporting documents.

Navigating my Studies

(Learning Support)

Students often experience difficulty with various coursework components. This is mainly because most of the students are new to the academic writing style and citation/referencing demanded in higher education.

During your studies at the College, we provide different kinds of learning support to help you. This focuses mainly on your academic skills in English and in referencing. Our learning support system supplements how your specific module lecturers guide you.

The Study Skills page accessed through the Villa College Library web page provides useful information and resources for students on academic writing and referencing. The page can be accessed at: <http://villacollege.edu.mv/qi/public/sidebar/study-skills/27/52>.

Academic skills in English are very important to make sure that you can learn most effectively and that you can express your ideas as best as possible.

Referencing correctly is very important because you need to show where you get the information that you use in your reports, assignments and presentations. It also enables you to show that you've developed and enhanced your knowledge through further reading in your field.

Through proper referencing you'll also be able to avoid one of the biggest mistakes students can make, which is **plagiarism**. As you may know, plagiarism is basically the use of other people's research or ideas without acknowledging where you got them, in your writing or presentation.

In order to help our students to achieve their highest potential, the Institute for Academic Development (IAD) and the Centre for Postgraduate Studies (CPS) conducts the following workshops.

Academic writing workshops
E-Tutes (for individual help)
Referencing workshops
UWE library orientation for students
Study skills portal in the UWE library website

Group research support workshop
Individual research support
Statistics analysis session
PAL Sessions

VCSA

Getting involved with the Student Association

The Villa College Student Association (VCSA) is the student body representative of Villa College (VC) and was founded with the aim of promoting the welfare of and furthering the interests of the students of Villa College. The VCSA provides a structure which enables students to be involved in the governing and decision-making process of Villa College. It seeks to ensure that the student experience is exceptional, through the provision of a welcoming environment for the campus community, implementation of diverse student activities, programmes and events, and representation of our students in external interests of Villa College. The mission of the Villa College Student Association is to build a community within Villa College, where students can partake in diverse activities, programmes and events, and also represent the students in ensuring that they are valued and supported in pursuing their interests and opportunities for growth. Furthermore, the VCSA encourages the keen involvement of students in activities and services that enhance the interaction among students, enrich their college experiences, and foster an awareness of the student community and the larger college community.

The primary objectives of the VCSA are:

- *To promote student engagement and welfare while furthering the interests of Villa College students.*
- *To work for quality and equity in higher education across the Maldives.*
- *To afford recognizable means of representation for VC students within the College and the wider community.*
- *To foster community, equity and diversity within the College.*

The VCSA has been active in both hosting and partaking in both internal and external college activities, regardless of academic or recreational nature. Among these are the Exposure Trip taken annually to an international destination as to present students with a unique learning experience, and the VCSA Futsal Tournament, which is extremely popular among the VC student body.

Aside from the aforementioned events, the VCSA is active in several other activities within Villa College. Members of the Student Representative Council (SRC) are present at notable national and academic functions as part of officially representing the College in external activities. In addition to this, the VCSA played an active role in the launching of the campaign to eliminate single-use plastic within QI Campus, by distributing reusable water bottles to students and staff members in person.
