# Financing

Whether It's Christmas Lights, A Kitchen Or Bathroom Remodel, a New Roof or Siding, or New Interior or Exterior Paint, our Financing Programs (via Enhancify) Offer You Flexible And Affordable Financing solutions to help you pay for any project.

## Enhance + Improve Your Home or Business

According to statistics, Americans spend enormous amounts of money to remodel or make updates to their home every year. In 2019, renovation spending in the U.S. broke all records, reaching more than \$330 billion.

\$330 billion sounds like a lot of money for home and business owners to spend, but it really isn't when you think about all of existing properties are getting older, design trends that are changing universally and going green to save money becomes more and more prevalent.

Plus, with the median home value around \$181,000 and the average annual income around \$59,000 to \$60,000 in the United States, many Americans are unable to afford a home - let alone buy a home that has everything they've ever wanted and is tailored to their tastes and needs.

So how are smart proeperty owners purchasing more and more of their improvements & upgrades? The internet, of course. Within a 12 month period, the home improvement e-commerce business is estimated to make up \$11 Billion dollars in sales according to the NPD - that's 41% higher than it was the previous year. In fact, property owners are not only purchasing items for their upgrades online, they are also using the internet to design, hire the contractors, and apply for loans to pay for it all.

The more money we put into our home & business, the higher our return on investment value will be, and the more equity we'll have.

[Which is why we've set out to simplify getting money for home + business improvements.](#)

By using the power and ease of the internet, along with our proprietary technology, we're not only making the property improvement & enhancement process easier, but we're bridging the gap between the you (the investor), the investment (us, the contractor), and the financial security (the lender).

So, whether you need the money fast, have no equity, don't want to use any the equity, or even if you just want an easy, hassle free process, we can help: regardless of your credit situation!

## Get Financing in 2 Easy Steps

Our network is comprised of the top-rated lenders offering unsecured financing for all projects. Big or small. Our goal is for your focus to be on designing your vision, not how you're going to pay for it.

Our financial gateway can help you close more sales and build your bottom line. The benefits are endless and we can have you up and running in 48 hours!
