

For High School Students!

UPH designweek**26**
true design-true impact

DESIGN SKILL BOOSTERS CAMP

1 WORKSHOP = 3 HOURS

JUN 25 – 26, 2026
UPH LIPPO VILLAGE BUILDING B

School gives you subjects. Here, you experience how they come to life. Step into a hands-on design lab inspired by real college experience. Try different fields, explore real tools, and connect ideas across disciplines. One workshop lets you try. Multiple workshops let you see the bigger picture. Explore early and design your own journey.

BUNDLE

~~Rp1.200.000~~

01 THE ART OF THE MARK

with *Hady Soenarjo*

Print Making Lab

Carve it, ink it, stamp it. In this 3-hour workshop, learn the basics of linocut printing, then design and carve your own stamp. Print your creation onto a tote bag and turn it into a wearable artwork. Add bold patterns and personal touches. No experience needed, just come ready to create and have fun.

JUNY 25, 09:00 - 12:00
Linocut workshop

02 PINCHING ART

with *Geoffrey Tjakra*

Ceramic Lab

Get your hands dirty and dive into clay. In this 3-hour workshop, learn a brief intro to clay, then create your own pinch pot, perfect as a matcha bowl or unique vessel. Finish with playful decorating using underglaze painting and stamped textures. No experience needed, just come ready to make and have fun.

JUNY 25, 13:00 - 16:00
Clay and pottery workshop

03 SHAPING WOOD

with Sarjito

Woodworking Lab

Feel it, shape it, bring it to form. In this 3-hour workshop, get a quick intro to working with wood, then explore how simple tools can transform raw material into form. Create your own wooden piece while experiencing the process of making by hand. No experience needed, just come ready to explore and create.

JUNY 26, 09:00 - 12:00
Woodworking Workshop

04 SCANNING REALITY

with Gidon Bilowo

AIDA Lab

Snap it, scan it, bring it to life! In this fun 3-hour workshop, you'll get a quick intro to photogrammetry, then capture a real object using your camera and turn it into a 3D model. See your scan come alive as a digital asset you can explore, share, or even use for creative projects. No experience needed, just bring your curiosity and get ready to create!

JUNY 26, 13:00 - 16:00
3D Model Workshop
