VISIT US ON STAND 25 | 17TH - 19TH JULY 2026 | NORFOLK SHOWGROUND

WELCOME

TO THE NORFOLK MOTORHOME & CAMPERVAN SHOW

WHETHER YOU'RE JOINING us for the day or enjoying a weekend away with us, I'm delighted to welcome you to the Norfolk Motorhome & Campervan Show.

There's plenty to discover across the showground this weekend. Our exhibition area is packed with dealers and retailers showcasing the latest motorhomes, campervans, accessories and outdoor leisure products. Whether you're planning your next upgrade, searching for a useful gadget or simply looking for inspiration, our exhibitors are on hand to help and advise.

Of course, there's much more to the show than shopping. We've put together a fantastic programme of entertainment and activities, including expert talks in the Advice Centre, live cooking demonstrations, family-friendly attractions, axe throwing, live music and our

popular evening entertainment for campers. Whatever your interests, there's something here for everyone to enjoy. **New for 2026**, we've included some new wellness activities for you to try including yoga, fitness classes and breathwork workshops.

Take some time to browse this showguide and familiarise yourself with everything on offer. You'll find schedules, site information and details of all the attractions taking place throughout the weekend, helping you make the most of your visit.

If you have any questions during your stay, please pop into the Information Office where my team and I will be happy to help.

Enjoy the show!

Sally Dodds

Head of Events, Warners Shows
Part of the Out and About Live family

The Out & About Live Summer Party has arrived! Of course we're still bringing you a fantastic motorhome and campervan show this weekend as Sally has explained above ... but we're also bringing you an extra reason to party! You only need to browse the show guide to see how many more attractions are on offer, so rather than focus on that, let me explain what Out & About Live is.

Out & About Live is the home of all the Warners Shows you enjoy so much, but it is also the home of your favourite magazines like MMM, Campervan and Caravan. And, dig a little deeper and you'll discover a website – outandaboutlive.co.uk – on which you can browse thousands of vehicles for sale, book your next stay away, get all the latest motorhome advice and news and interact with thousands of people just like you on its forum.

Finally, as you walk around the show, you may notice that there are exclusive areas and events just for OAL Club members. If you want to be part of this exclusive club, then all you need to do is head to the website or the information stand at the show and subscribe to one of our magazines – just look for the special offer on page 22.

HOW TO SELF BUILD A CAMPERVAN IN A WEEKEND - LIVE DEMO (NEXT TO THE ADVICE CENTRE)

Can Solar Really Power A Campervan?

Can you really charge an electric campervan using power from the sun? Max McMurdo is putting it to the test live at the show.

Across the weekend, the self-build specialist and TV presenter will be taking on a brand-new challenge with his team: turning an electric VW ID. Buzz into a solar-powered, off-grid campervan.

The plan is to fit a 450-watt solar panel to the roof rack, hinge it with gas struts, and run power down into a custom-built campervan "power cube". With help from Mark at BlueFix Energy Solutions, the cube will be fitted with a specially designed Victron setup to see how much charge can be generated, stored and used during the show.

The challenge will unfold across all three days, from building the power cube, to fitting the system, to testing how much charge the Norfolk sunshine can add to the ID. Buzz.

Will it be the future of off-grid touring, a clever boost for electric campervans, or just a great way to start a debate? Head over to Max's live build area next to the Advice Centre, watch the progress and ask the team your questions.

Think you know how many extra miles Max's solar-powered ID. Buzz will gain from a full day in the sun? Enter your prediction at the show and the closest guess will win a free pitch at one of our 2027 traditional motorhome and campervan shows. Get your guessing in with Max.

YOUR GUIDE TO BUYING A MOTORHOME OR CAMPERVAN AT A SHOW

Expert advice and essential tips for choosing your first (or next!) leisure vehicle — and why a motorhome exhibition is the best place to buy.

DISCOVER THE Right 'Van for You Whether you're new to motorhomes or ready to upgrade, buying the right vehicle is key to unlocking years of travel and freedom. With so many makes, models and layouts, where do you start? Simple — right where you are, at a motorhome show. Organised by the experienced Out & About Live team, with over 55 years of industry knowledge behind them, these shows bring together a huge range of options, all in one place, making it easier than ever to compare, learn, and make the right decision.

WHY BUY AT A SHOW?

See it, touch it, compare it. You're already in the best place to start your motorhome journey. Nothing compares to stepping inside a vehicle to see if it feels right. While you're here at the show:

- ✓ Walk through hundreds of vehicles
- ✓ Compare layouts side-by-side
- ✓ Test bed access, check storage, and get a real feel for the space

Talk to the experts, take advantage of having manufacturers, dealers and magazine editors all in one place. From base vehicles to bed layouts, these experts are here to answer your questions in person.

Take advantage of show deals, many exhibitors are offering exclusive show-only discounts, finance incentives or bonus extras this weekend. If you're ready to buy, you could make a serious saving.

Learn before you buy as part of your visit, don't miss the free sessions in the Out & About Live Advice Centre — it's all included with your ticket! Experts like Peter Vaughan (MMM magazine) and Motorhome Matt are giving honest guidance on everything from layout choices to insurance and payloads.

Attend the Out & About Live Advice Centre talks with 18 free sessions scheduled across the weekend, the advice centre is your one-stop shop for learning.

Sit in on as many talks as you like — each one is free to attend and packed with practical insight.

Highlights include:

- ✓ Motorhome & campervan buying advice
- ✓ Touring Europe in a motorhome
- ✓ Inspirational stories from fellow travel enthusiasts
- ✓ Top tips for first-time buyers

WHAT TO LOOK FOR

How will you use it? Consider where you'll go, who you'll travel with, and how long you'll stay. Will you:

- ✓ Wild camp off-grid?
 - ✓ Take extended tours across Europe?
 - ✓ Need space for children or pets?
- Your answers shape what type of motorhome you need — a compact campervan, a family-sized coachbuilt, or a luxury A-class.

Key Considerations:

- ✓ Berths & seatbelts: enough sleeping space and safe travel seats?
- ✓ Layout: fixed bed or lounge conversion? Rear washroom or garage?
- ✓ Base vehicle: try different options for driving comfort and reliability
- ✓ Storage: will it fit everything you want to bring?
- ✓ Kitchen & washroom: are they practical for your style of travel?

NEW OR USED?

New

- ✓ Latest tech and comforts
- ✓ Custom specs
- ✓ Full warranty

Used

- ✓ Better value upfront
 - ✓ Proven reliability (with a good service history)
 - ✓ Wider choice of older layouts
- At a show, you'll find both options under one roof, giving you a clearer picture of what your budget can really get.

TALK, TEST AND TAKE NOTES

A motorhome is a big investment — possibly second only to your home. So, take your time:

- ✓ Take photos and use them to confirm your shortlist while you're here at the show
- ✓ Sit in the driver's seat — how does it feel?
- ✓ Lie on the bed, test the shower, check the storage
- ✓ Attend a talk, ask questions, chat to owners on the campsite

FINAL THOUGHTS

Buying a motorhome is exciting, but it can also be overwhelming. The best way to make a confident decision is to experience everything a show has to offer — in one weekend, at one venue. Take your time, do your research, and use our checklist to help guide your journey.

WHERE HAS ALL MY ENERGY GONE?

Tom & Amy from bFRANK look at how you can stay healthy and improve your energy levels while on the move.

WHERE INDEED? But by this point that question is so common it's almost rhetorical.

Waking up feeling like you could do a whole night's sleep again. Coffee number 2 or 3 at 11am, something sweet at 3pm, then collapsing onto the sofa in the evening with very little left in the tank. We joke about it, but when you think about it, it's quite strange. Humans are designed to be active, capable and productive throughout the day. Whether you're exploring a new coastline, hiking a trail, driving across the country or working remotely from your motorhome, steady energy is what allows you to get the most from life.

SO WHERE DOES ALL OUR ENERGY GO?

A big part of the answer lies when we turn that question around. Instead of asking "where has all my energy gone?", we must ask: "how can I give myself more energy?"

First it's in how we fuel ourselves. Many modern diets are built around convenience foods that digest incredibly quickly. Breakfast cereals, pastries, toast, biscuits, cereal bars, flavoured yoghurts and many supermarket snacks provide a rapid supply of glucose. Blood sugar rises quickly, insulin rises to manage it, and before long blood sugar drops again. The result is often brain fog, irritability, cravings and that familiar search for another quick pick-me-up. If you think about the most common breakfast foods in this country, it's all of the above. Most of us are setting ourselves up for a day

of poor energy from the first thing we consume in the morning.

This rollercoaster creates the illusion that we need constant snacks to function. In reality, humans evolved with something called metabolic flexibility: the ability to switch between burning glucose and burning stored body fat for energy. Historically, food availability changed with the seasons, and our bodies adapted accordingly. Today, with ultra-processed foods available around the clock, many people spend years relying almost entirely on a constant stream of sugar for "energy". Stable energy becomes much harder to achieve.

The good news is that it doesn't take long to begin feeling the benefits of eating for fuel. One of the easiest ways to support steady energy is to build meals around protein, healthy fats and whole-food carbohydrates. Eggs, meat, fish, full-fat dairy, vegetables and fruit provide nutrition alongside energy. They also keep you fuller for longer and reduce the urge to constantly snack.

Hydration deserves more attention too. Even mild dehydration can affect concentration, mood and physical performance. If you regularly experience headaches, fatigue or brain fog, water and a pinch of good quality salt is a sensible place to start.

Light also plays a surprisingly important role in energy production. Your circadian rhythm regulates everything from hormone production to metabolism and sleep quality. Getting outside within the first hour or two of waking exposes your

eyes to natural daylight, helping set your internal body clock for the day ahead. It improves alertness during the day and supports better sleep at night, which is where tomorrow's energy is created.

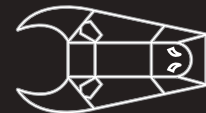

Movement matters as well. When energy feels low, the temptation is often to sit still and conserve it. A brisk walk, a few bodyweight exercises or a short mobility session can increase circulation, improve focus and often create more energy than it uses.

The brain is one of the most energy-hungry organs in the body, so everything that supports energy also supports cognitive performance. Stable blood sugar, quality sleep, movement, hydration and nutrient-dense food all help protect focus, memory and long-term brain health.

When your energy is steady, everything becomes easier. Adventures become more enjoyable, work becomes more productive and daily life feels fuller; you aren't distracted by fatigue or the constant need to snack for some quick energy.

So if you find yourself asking "where has all my energy gone?" pause for a moment and assess. What did you last eat, when did you last move, when was your last drink and did you get outside within an hour of waking? Sometimes it's annoying to know that your actions can be what's causing you dis-ease, but the only way to make meaningful change within your health is to take radical responsibility!
