AI CHANGES EVERYTHING

The AI economy requires more than data and intelligence. It requires identity, trust, and the ability to transact **autonomously**.

AI AGENTS NEED:

IDENTITY

A verifiable identity to represent the agent or organization.

AUTHORIZATION

Permissioned access to act on behalf of its owner.

PAYMENTS

The ability to initiate and receive payments.

SETTLEMENT

Instant, secure settlement across any currency or network.

VERIFICATION

Proof of legitimacy, compliance, and transaction integrity.

TRUST

A foundation of transparency, security, and immutability.

TO EVERY REGISTRY OPERATOR

For decades, registry operators have built one of the most trusted pieces of Internet infrastructure.

The Internet has changed.

AI is changing commerce.

Payments are changing.

Identity is changing.

Our belief is simple:

“The next chapter isn’t about replacing what you’ve built.

“It’s about unlocking more value from it.

We would be honored to explore that future together.
