

HOW WOULD YOU LIKE TO GAIN VALUABLE INSIGHTS INTO ANIMAL CARE, CONSERVATION AND PARK OPERATIONS?

We are offering immersive work experience days to students aged between 14–16 years old throughout this summer, where young people can gain practical skills and explore potential career paths in wildlife and environmental fields.

WHAT'S INVOLVED?

Spend a day working alongside our experienced team, developing key skills and exploring careers in the wildlife and environmental sectors.

YOU'LL GET TO:

-  Clean small animal habitats and their surrounding areas, ensuring a safe and healthy environment for the animals.
-  Keep the environment tidy, which is crucial for both the animals and guest visitors.
-  Help out with gardening tasks, which can be both therapeutic and educational.
-  Develop customer service skills, interacting with guests and enhancing their experience.
-  Improve communication skills, working as part of a team and engaging with the public.

This is a hands-on, outdoor experience — perfect for building resilience, responsibility, and real-world skills!
