HIGH DESIGN FOR HIGHER EDUCATION

We are thrilled to be featured in the prestigious Kahn School of Law Library at High Point University. This stunning space demonstrates how thoughtfully curated seating can elevate academic environments into destinations for connection, concentration, and community. Richly upholstered lounge chairs, tailored swivel seating, comfortable desk chairs and refined benches create a layered hospitality experience throughout the library's reading rooms, collaborative commons, classrooms, and mock courtrooms. Warm walnut millwork, brass-accented lighting, and residential-inspired furniture groupings establish an atmosphere of quiet sophistication while encouraging students and faculty to engage deeply, collaborate naturally, and experience learning through comfort and connection.

Designed to balance elegance with the demands of high-traffic institutional use, the furnishings pair durable performance materials with timeless craftsmanship and ergonomic comfort. Plush lounge seating softens formal architectural spaces, while flexible benches and communal seating arrangements support both focused study and spontaneous interaction. Throughout the environment, each gathering space contributes to a mood that feels refined yet welcoming; an elevated academic sanctuary where thoughtful design fosters human connection, intellectual engagement, and the enduring experience of higher education.
