### The groundbreaking adventure of the first woman to complete hiking's Triple Crown in a single year

- Follows famed hiker Heather Anderson's journey on the Appalachian, Pacific Crest, and Continental Divide Trails
- Anderson covered nearly 8,000 miles in just eight months
- Explores the drive to achieve a lasting legacy in the world of endurance hiking

From the bestselling author of *Thirst* and *Mud, Rocks, Blazes*, this compelling memoir chronicles Heather Anderson's ambitious journey to thru-hike America's Triple Crown—the Appalachian, Pacific Crest, and Continental Divide Trails—in a single calendar year.

Between 2003 and 2017, Anderson hiked more than 20,000 miles, twice completing each of the nation's three longest trails and setting speed records along the way. But records can be broken—so Anderson set out to accomplish something even more audacious: becoming the first woman to hike what's known as a Calendar Year Triple Crown.

*Farther* covers Anderson's gritty and challenging effort across nearly 8,000 miles of backcountry, navigating physical hardship and mental resilience. Juggling logistics and weather, as well as emotional upheaval in her personal relationships, Anderson examines themes of grief, identity, and perseverance with clarity and vulnerability. As months of feral solitude and struggle unfold, Anderson seeks meaning through motion—how walking forward can help us find our way back to ourselves.

## Brown Bear

*Ursus arctos*

Perhaps no being is more iconic for Alaska than the Brown Bear, who is second only to the Alaska moose in size, and who can measure up to 10 feet high when upright. This imposing mammal stands tall in the Indigenous cultures of Alaska, as well as on Alaska's license plates, Alaska's commemorative quarters, and in innumerable photographs, works of art, and pieces of visitor memorabilia.

Brown and Grizzly Bears are classified as the same species, although some scientists break *Ursus arctos* into three subspecies—Coastal Brown Bear, Grizzly Bear, and Kodiak Brown Bear. In Alaska, the name “Brown” is applied to those who live along the coasts, whom they find on seasonally abundant salmon plus rich vegetation; they grow larger and live in higher densities than the Grizzlies who live in the interior and northern parts of the state. Both bears feature a lot of color variations, from pale blond (most common among Grizzlies) to dark brown, so color alone cannot distinguish them from black bears.

Although only about fifteen hundred Brown Bears survive today in the lower forty-eight states, the approximately thirty thousand in Alaska frequent most regions except fire islands in the south and far west. The population on Admiralty Island, in Southeast Alaska, at an estimated sixteen hundred, outnumbers the island's human population by more than two to one.

In Alaska, Indigenous stories, beliefs, and practices show a close relationship and respect for this physically and spiritually powerful being. The Tlingit story “The Woman Who Married a Bear” indicates the familial relationship between Brown Bears and humans. The Koyukon Athabascans traditionally showed respect by referring to these bears only by circumlocution as “the big one” or “Gonul’fahne.”

Most Brown Bears spend winters in dens, where they do not eat or drink, urinate or defecate. Instead, they recycle metabolic waste and rely on stored fat for energy. This is not true hibernation, only a way to save energy by reducing their body temperature and heart rate.

Between one and three cubs are born in a den during January or February and emerge in June with their mothers, at which time they weigh only a few pounds. The cubs require two or three years with their mothers before they have the size and ability to survive on their own.

When the bears emerge in late spring, they will have lost up to a third of their body weight. So it's not surprising that they're ready to eat just about anything,

including new plant shoots, sedges, roots, clams, salmon, berries, small mammals, and sometimes the young of large animals like moose, caribou, deer, and moak ox. By fall, Brown Bears can double their weight if food availability allows. At peak condition in the fall, a Coastal Brown Bear can weigh 1,500 or more pounds.

In fact, prior to winter denning Brown Bears enter a period of insatiable eating and drinking—called hyperphagia—to put on fat for winter. Hyperphagia is triggered by the suppression of leptin, the hormone that signals satiation, allowing them to continue gorging themselves until hibernation. During this period, Coastal Brown Bears can consume up to thirty salmon and eat on 4 pounds each day. In late fall, leptin suppression ends, signaling that it's time to stop eating and sleep. This remarkable adaptation allows Brown Bears to take full advantage of Alaska's summer abundance and then mosey through the long, dark winter.

**I GREW UP IN RURAL ALASKA. WE LIVED IN A SMALL LOG CABIN,**

near a bluff overlooking mountains and a glacial river below. We had fourteen sled dogs in our yard, part of our family and significant to our Han Gwich'in culture. Often, when it was minus 50 degrees, our vehicle wouldn't start, so my mom would say, "Okay kids—let's hook up the dogs to get you to school."

When we first got the Alaskan huskies, my brothers and I thought they were pets, so we put them on leashes to take them for a walk. The dogs pulled and dragged us across the yard and into the woods as my mom yelled for us to "Let go!" We quickly learned that these were working dogs, and they knew their job was to run and pull. We never tried to walk a sled dog on a leash again.

Evens in our small community, not many people had sled dogs, but it was always our way of life. My mom grew up traveling by dog team, and she taught us how to hook up the dogs to the line and ready the sled. When Mom would take us to school, our classmates would ask a lot of questions. I like to think they were fascinated, but this was normal to me.

Even now, when I go back to my village and visit my family, I'm proud that I can take out my own dogged team and run a successful trail without falling, without crashing.

One time, I remember my mom came home pretty late from work. I pretended to be sleeping when she checked on me, but when she stepped outside to take the dogs out on a run, I jumped out of bed and started throwing on my snow gear over my pajamas. As she hooked up her dogs and took off, I ran outside, putting on my hat and calling "Wait, wait for me!" She slowed down, and I hopped in the sled, which was lined with caribou skins with warm, insulating hair, and a sleeping bag for these moments when one of us kids went mushing with our mom.

I got all comfortable in the sleeping bag that night, and she put that caribou skin right on top of me, with just my head showing. We chatted away about our days, and I told her about school and what I learned. I got quieter and quieter, warm and safe, and soon enough I fell sound asleep to the assurance of the

# APPALACHIAN TRAIL CONSERVANCY

If you're planning to hike the AT, whether a section or the entire route, then these are the guides you need. Updated every five to ten years, each guide is packaged in a resealable plastic bag and includes up to seven sheets of maps.

The books feature detailed trail descriptions, water sources, shelter and camping sites, road access directions, points of interest, and background information.

All guides have unidirectional trail descriptions with additional natural and cultural history information for each section.

The maps are water- and tear-resistant topographic maps with elevation profiles and major side trails.

## REGIONAL INDEX

Following is an index of titles sorted by region. We've indexed guidebooks here to make it easy to find the ones that are near you. Also included are some narrative adventures, because it's always fun to read stories that took place near where you live or in a faraway place you're interested in. A little more than half our catalog can be organized regionally. But don't forget about all those sports instructionals, general lifestyle topics, and wild, sweet, and romantic tales that aren't in this index. You need to browse through the pages here to find those treasures or, if you know the title, you can find them in the Title Index.
