

ADVANTAGE
SERVICES

**CUSTOMIZED SOLUTIONS
AT EVERY LEVEL**

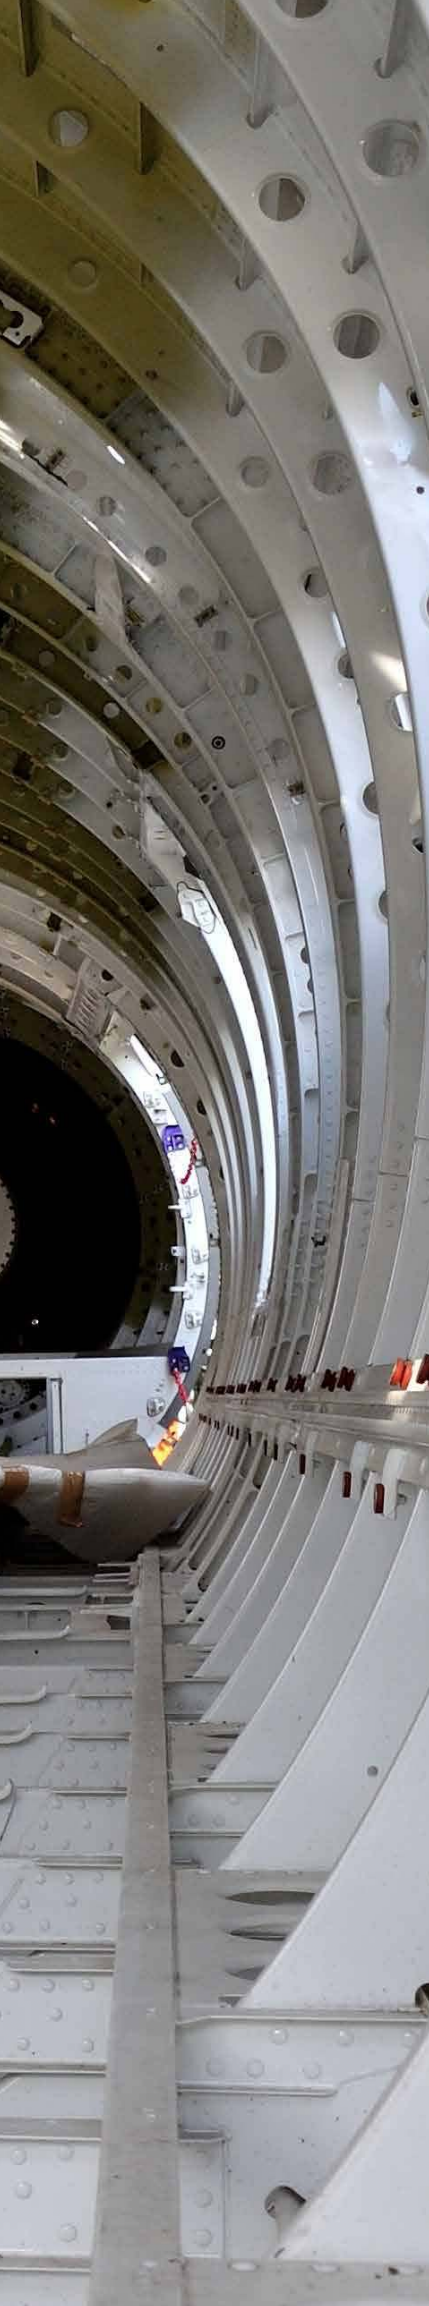

A PROFESSIONAL ONE-STOP SHOP

Advantage Aviation Services Holding AB is the parent company, which consists of two subsidiaries. Advantage Aviation Services specializes in purchase and sales of spare parts, engines and aircrafts. Advantage Turbine Services specializes in the repair, inspection and evaluation of aircraft engines.

Together, the Advantage Service organization offers a one-stop shop, with a range of synergies designed to benefit the customer. Our broad technical know-how means we can find complete solutions customized to you and your needs.

ADVANTAGE AVIATION SERVICES

Advantage Aviation Services offers a wide range of services with the focus on always going the extra yard for the customer. For example, our experience and in-depth technical know-how mean we can find the best and most affordable spare part solutions for our customers. We supply from our own warehouse and our wide network of major suppliers. Holding our own stock also means fast deliveries.

We also work within the field of consultancy. You can always count on our support and expertise for all your aviation needs through the whole process. We can find solutions quickly and effectively, thanks to considerable in-house knowledge.

We are ASA-100 & FAA AC 00-56 Accredited.

ADVANTAGE TURBINE SERVICES

From our strategic location in Knivsta, just 20 minutes from Arlanda International Airport, we offer fast response for aircraft engine repairs. The ability to provide field services for our customers is our strength. The repairs and inspections are performed on wing. We are flexible, and able to adapt to customer needs. Tell us what it is, and a customized response will quickly be in place.

We also carry out inspections and evaluations of aircraft engines. All maintenance services are carried out under our own approvals, EASA SE.145.0147 and FAA 4T8Y227D.
