WELCOME FROM THE FOUNDER

Hello!!

Hola!!

Salve!!

Howdy!!

I am so excited to have you be a part of such a great cause.

I am the Founder and CEO of Mosaic Inc. we are a female empowerment company. A 3x Amazon Bestselling author, and a Cultural Disruptor. I help guide women into celebrating their diversity instead of putting their diversity in a box or trying to assimilate. We are created uniquely the same and we have so much to offer the world from our unique perspective.

International Day of the Girl is a special day to me because the focus is on women's equality and advancement. This year the focus is on My Voice, Our Equal Future. which is in the heartbeat of Mosaic Inc.

I am grateful that you have chosen to be a part of this event and I can't wait for you to experience these 12 amazing authors and our guests. I want people to leave this event with some tangible resources that they can use to overcome any roadblocks they may be experiencing and create a better life moving forward.

We understand that virtual events are still relatively new and can be scary to those who don't do them often. However, we've made sure that the process will be as seamless as possible. If you have any questions, please feel free to reach out to me.

I can't wait to work with you all; I know that this event will be a success.
