30 YEARS OF TELECOM  
EXPERTISE

# LETTER FROM OUR CEO TO CUSTOMERS AND PARTNERS:

As the 2021 is coming to its close and the opportunities of 2022 await in front of us, we at Omnitele would like to wish you all the best of success. It has been a privilege to be part of the team supporting you.

For us at Omnitele, 2021 has been a strong year. We have continued to support Operators, Regulators, and Network providers alike across four continents. For many of our customers, 5G has become integral part of the daily business, whether investment optimisation, operational efficiencies, or benchmarking.

For 2022, we strive to further strengthen our support to you by:

1. Providing AI and ML based automated services to maximise the value of your long term strategic RAN investments as well as extract the best possible value out of your existing RAN assets
2. Showcasing you our complete portfolio, from managed services to SaaS solutions
3. Continuing to deliver you the highest possible quality, as witnessed by our 90%+ NPS score

We will stay in touch next year, but until then, I wish you a joyful holiday season with those closest to you and a prosperous year 2022!

Best wishes,

Harri Rauhala  
CEO, Omnitele

# OMNITELE- 30 YEARS OF TELECOMS EXPERTISE

Omnitele has been at the heart of telecommunications development for over three decades.

Since the early nineties, Omnitele has been on the forefront of mobile technological development and has helped many customers with the design, planning and optimisation of their mobile networks.

Omnitele has provided consultancy services for technology transformations and network services for the implementation of advanced network strategies and methodologies.
