# FREEDOM BEGINS AT HOME

At VOX we believe that freedom starts at home and the way we make a home for ourselves has a great impact on our lives. That is why we strive to continuously develop and deliver comprehensive interior design solutions, i.e. stylistically matching collections of furniture, doors, floors and wall systems. Beautiful and functional interiors are the foundation of a happy home where everyone can feel free to be themselves.

## THERE'S ALWAYS A RIGHT TIME AND PLACE FOR NATURE

NATURE Collection was created out of love for natural materials and a belief that every space can be wisely used and beautifully designed. You will easily find the right spot for NATURE collection in various types of space: large and open, or traditional space divided into smaller rooms, as well as tiny spaces which require special care when arranging them. Robust furniture forms will accommodate many belongings, whereas wooden, slanted legs add lightness to the whole design.

Rounded table edges will be eagerly appreciated by everyone since being comfortable at the table is equally as important as the taste of food, or an engaging conversation experienced there.

The combination of wood and metal is not only durable, but it is also a match of modern materials which contribute to an industrial style of interior.

**ATTENTION  
TO DETAIL**

## THERE'S NO TEAM LIKE THIS TEAM

Three make a band and in this case Tabanda studio, which designed Nature collection. Megi, Filip, and Tomek create furniture based on subtle contrasts and unusual juxtapositions. Nature-inspired motifs are cleverly used on modern, geometric forms; whereas austere, industrial elements come to life thanks to bright, cheerful colours. They love working with materials, so you'll find them at the woodworker's bench, just as much as in the designers' office.

NATURE table

## AT THE TABLE

Family life revolves around the table and if this table is oak and solid, then family history will gradually show in this beautifully ageing table top. Good quality wood is not adverse to the passing of time, the company of keen do-it-yourselfers, creative kids or fervent cooks.

To make the table more convenient for users we designed a metal groove at the centre, where you can put pots with spices, snacks or bottles with beverages. If the whole surface of the table is needed, the groove can be easily covered to keep the surface smooth.

# ONE FOR ALL

Everyone will find their spot at NATURE table, and we mean more than just a space to eat. This 180 cm long, 100 cm wide and 75 cm high oak table has 6 drawers which can easily accommodate kitchen accessories and unusual treasures of each household member: board games, paints, favourite magazines, or an engagement ring which awaits THE moment.

NATURE table

# ANYTHING YOU WISH

Anything can happen at this table: sophisticated dinner for two, a family meal, birthday party, fun time with kids, or quiet and focused work.

# LIGHT, EASY AND SPACIOUS

Furniture from NATURE Collection boasts spacious, simple forms, as well as drawers and niches where everyone can keep something they are passionate about. Slanted legs and access to some pieces of furniture, e.g. chest of drawers - from either side - can make the room feel more spacious and light.

## DIVIDE AND DECIDE

It's no easy feat to divide a large space so that it does not become limited, but, on the contrary - open to many new possibilities. A two-sided chest of drawers can divide a larger space and define new functions for each new space.

# FACING LARGE SPACE

Matching even seemingly very different pieces from Nature Collection will result in a look which is agreeable and harmonious. An ideal solution for a large space would be combining two colours of furniture fronts which go well together to add interest to an interior.

# MODERN TRADITIONALIST

Nature Collection is proof that you no longer need to choose between tradition and modernity. The pieces of furniture are inspired by designs from the 1960s, but the combination of wood and metal, as well as modern fronts, are a symbol of modern design.

## FOR EVERY SPACE

There's a lot that small space needs to do: accommodate everything you need, provide comfort, and be beautifully designed. NATURE stands up to the challenge.

Low table lamp Cesto

## MULTIPLE SOLUTIONS

Mix and match: put together wider chests of drawers with narrower ones, completely closed ones with partially open or two-sided. Pick your fronts: white fronts will introduce a Scandinavian, minimalist feel, whereas oak fronts will add warmth to the room.

## YOU CAN BE A DESIGNER TOO

Check out our original platform VOXBOX to arrange furniture that match your ideas. It's an easy and intuitive online application to arrange interiors. Try different configurations of furniture and see how you can arrange it in your own space. You can share your project with family and friends.

How to start using VOXBOX?

Start by defining room dimensions and indicating where doors and windows should be. Then, pick wall colours. Now select one of the VOX collections and specific pieces of furniture. Arrange it as you please. No need to worry - VOXBOX will tell you if a specific arrangement isn't possible. Save the project on your account so you can return to it later and implement changes. You can also generate a good quality picture to print. Share your project with VOXBOX users or on social media.
