EGGO
EXHIBIT

Think BIG – Think Modular

EGO is a modular system and can be easily reconfigured if needed.

EGO is ideal for larger public areas, receptions, museums, trade shows etc. That is, in places where SIZE is vital in order to be seen and to make a real impression.

Think BIG – Think EGO

The main difference between EGO and a traditional pop-up system is the SIZE and EGO's ability to carry heavy add-ons, such as LCDs, shelves, showcases, product samples etc.

Compare the EGO units with the Pop-Up below

Height 340 cm

Height 220 cm

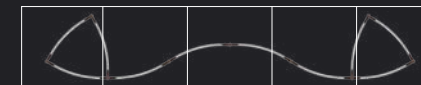

Height 340 cm

EGO offers a large amount of graphic print area in relation to the exhibition floor space. D195 is 37 sqm (double sided) graphic print on 5 sqm floor area.

EGO is incredibly compact. The complete D195 wall is packed and transported in these two cases.

OUR QUALITY - YOUR GUARANTEE

All Mark Bric products are manufactured with the highest standard of workmanship and the best quality of materials available.

All products are constantly subjected to demanding quality control, well tested on the market and designed to provide years of trouble-free use.
