SPECTRUM AUCTIONS**

UPDATE ON 5G SPECTRUM AUCTIONS

For our January newsletter, we have prepared a global update with the outcomes from auctions in 2021 and a list with the upcoming 5G spectrum auctions around the world in 2022.

Upcoming 5G auctions in 2022

2021 was a crucial year for the acceleration and development of the 5G ecosystem around the world.

In Europe, there were several 5G spectrum auctions: Portugal (700 and 3.5 GHz, together with legacy spectrum bands 900 MHz, 1.8, 2.1 and 2.6 GHz) raised a total of €566 million Euros; Croatia (700 MHz, 3.5 GHz, and 26 GHz) raised a total of €47.9 million Euros; Malta completed its award of the 3.5 GHz band; and Spain (700 MHz) raised over €1 billion Euros.

Upcoming 5G auctions in 2022

The 5G auction in India will be finally held in the second quarter of this year...

OMNITELE SUPPORTS

Omnitele can model and simulate different scenarios with varying input parameters. Do not hesitate to contact us.

Our customers have been able to compile a complete spectrum auction strategy and bid for the most optimal spectrum band and bandwidth knowing its value, thanks to the outcome of the scenario analysis and the associated cost scenarios.
