BEINCLUB Our Lifestyle

Much more than meets the eye. A spiritual family where we cultivate the medicine of TRUST between human beings. A growing community based on the possibility of seeing ourselves and the other with a PURE GAZE.

We are discovering that it is possible to live life differently from what has been imposed on us, be sincere and authentic, and share from the dignity and deserving of love.

It is the first club in the world of the inner and inner evolution, it represents a lifestyle of like-minded people living all over the world, of all ages, religions, faiths, beliefs, cultures, who are united in the creative possibility to continue their life's journey differently, transgressively, and profoundly.

For people who love authenticity, who want to enjoy, take care of their health, improve their quality of life, learn new things, who want to meet other like-minded people, establish deeper connections and share their inner evolution processes with others. They are people who decide to make the best investment of their lives by investing a certain amount of money that is transformed automatically into **InnerCoins**. This is our internal currency that we manage from a wallet to use and enjoy all the services and products we offer.

In the ORIGIN is the SECRET

Behind every company, organization or movement there is always a personal story...

Many people do not understand the greatness of this organisation or comprehend how the expansion of this international movement occurred. We suspect it is because we still do not know the true story of how it all began.

After 30 years, Alverto Varela has begun to tell the origins. It is the story of a successful man who changed his whole life from the root, inspired by the total failure that life gave him. Strength filled him in the face of defeat, and he looked up towards a new destiny.

He walked the path of transcendence with his first son Elián. Father and son learned to cook together, mixing everything, flavors, textures, colors, even themselves. With that base they built an immense cathedral without walls of INNER EVOLUTION, bringing together all kinds of therapies and self-discovery methods. Integrating spirituality with poetry, psychology with philosophy, uniting mysticism with entheogens, shamanism with meditation, merging the human with the divine, and allowing all parts to come together in an undivided whole.

Now it has become an alchemical workshop for human beings, a creative and transformative field

for everyone who comes to discover something really new and authentic, both outside and inside themselves.

Attending one of our Inner Mastery retreats, spending time in one of our 14 Communities of Happiness, or participating as a student in our Conscious School, Entheos Institute, or Inner Evolution Study Center is an EXPERIENCE OF OPENING AND UNCONDITIONALITY, CREATIVITY AND ACCEPTANCE, ORIGINALITY, AND TOTAL SURRENDER. This is why thousands of people from all over the world were drawn to come and return, to enter and belong. Unintentionally we have found a way to enjoy.

This is the BEINCLUB, the internal organisation of the BEYOND INNER GLOBAL MOVEMENT. It offers itself to the world to invite them to enter themselves and share the joy of living with people from all over.

We look at the exact point where our soul can arrive...

Founder's letter TO YOUR HEART

How far can I go? Asks every character dissatisfied with where he is, what he has, and who he thinks he is. But the soul only looks at the infinite point from where she is, from there she can see everything.

The transcendent can see nothing but that, and that point is where there is nothing, but the whole resides there.

This comprehension has nothing to do with the psychological idea that what we see is a projection of what we repress, deny or reject, and shows us what we are. A finite mind can only show the limitations, but an infinite consciousness shows the limitless. This comprehension arises from a pure gaze, whereby all that we see outside and in others

is an illusion that has the power to bring us back to what inhabits us.

This is the gaze with which every mystic has been able to reach the summit of consciousness doing absolutely nothing.

Even if it confuses you, let these words laced with love enter into the depths of your being, which can put an end to every absurd idea you have created about yourself. There is nothing inside you or me. That inner

nothingness cannot go beyond itself or go anywhere because it is already everywhere. Not "having" to do anything is death, and leaving everything in the hands of life and allowing everything to happen is resurrection. In that inner non-existence where the ego no longer has the power to decide arises majestic modesty, centredness, and an infinite peace that does not admit any concern.

The truth is tremendously challenging because it can only be seen through the eyes of the one who dares to die to what he believes himself to be. It is then that the future becomes empty and blank so we can realise the most wonderful work of art: OUR DESTINY.

The human being who opens his heart to the infinite finds the astonishing surprise that the whole is already in him, here and now, EVERYTHING. The mind steps aside

in the face of what it cannot define or decipher to leave us free before the inevitable arrival of whatever has to be.

I invite you to look at 2022 in an extraordinarily original way: FROM YOUR SOUL.

Welcome to the kingdom of these divine madmen, who love life to such an extent that they can only say YES; to everything that has to come. That's when destiny stops being a plan and becomes who you are.

The INNER EVOLUTION method is based on 14 premises.

1. NOTHING EXTERNAL WORKS. IF THE INTERNAL IS NOT OPEN TO THE NEW, NOTHING CAN ENTER.

Everything that comes to us from the outside cannot transform us, liberate us, or heal us if an opening from within has not occurred. By transcending the fear of the unknown, we predispose ourselves to the arrival of what amazes us. Each premise is explained in depth in the Conscious School within the Mystical and Spiritual Retreat.

TOUR IN TURKEY

Encountering the Roots of Sufism 2022

It is the cradle of civilisations and great spiritual movements that have travelled the globe. Sufism is a mystical source of inspiration for our Inner Evolution Method.

A SUFI CAN ONLY FOLLOW HIS HEART: The spiritual seeker who bets everything on love.

This tour to different Turkish cities hides the secret of encountering the spiritual essence of a people that have always sought to connect the divine in the depths of them.

This is where Sufism was born, a spiritual movement that arises from loving the essence of oneself and the whole of existence. It was founded by RUMI, a great source for masters of all time. Join us with Alberto Varela, founder of the first international club of inner evolution present in more than 40 countries, Elian Varela, facilitator and mentor with more than 15 years of experience, and our team of guides and experts.

Get ready to hear the best of news of your life: We are the great treasure of creation, we are the celebration of divinity, we deserve the best of the best! When we recover the dignity that emerges from remembering what we are, we realise with our own consciousness that love is our essence and that the path of its flourishing is trust.

A Sufi is a disciple seeking to regain trust through love for a teacher.

Just as divinity is the energy of God, mastery is the energy of the teacher, creation is the energy of the creator, and trust is the energy of the disciple. Through trust, the Sufi accesses love of the teacher, the power of creation, and to the bliss of divinity.

A JOURNEY INWARDS

o know any place in the world you have to journey through a certain path. To know your own soul, you need only to open the door of the heart. It appears to be a long and arduous journey to enter inside of ourselves because we have built a protective labyrinth that defends us from anything external entering. The problem is that after building that impenetrable wall, we have stayed outside, in the hands of the others and their projections, captives of their conclusions about us, unable to escape the belief in their beliefs conveyed by words and looks. Because of this, when we start the journey towards reconquering our soul, it costs us so much to enter the heart. It seems that we have to traverse a hypnotic labyrinth towards our being, when in truth, we are already there but had forgotten it.

The path of the heart is the path of Sufi, a path back to our essence, kind, divine, and loving...

THE RELATIONSHIP WITH THE MASTER

To voyage the path of reunion with our essence, we usually look for one or more masters to guide us. Formerly there was only one master as guide, now it's custom that people who seek spirituality have many masters but in general, almost no disciple is madly in love with any of them. Perhaps that answers why the journey is slow, doubtful, or uncertain for most people seeking their healing or transformation; because the way to the heart moves from the love of the teacher. We are in a time that we are followers on social networks, fans of pages and characters, which we read and listen to as admirers, but we are not open to love. A distance is maintained, a certain remoteness, preventive measures taken so that nothing or no one enters the heart.

A true master is one who comprehends this situation and thus guides towards the maturation of our love through a bond. The master is the beloved, the disciple is the lover, and the bond that they build is love. That is the bridge and the way to the heart: LOVE. When a master and disciple are in contact, it awakens dormant trust to create a bond of union that will transform into a communion (common union), that is the MYSTICAL UNION, what Sufism defines as the journey of love.

***“At the moment
that we
SURRENDERED,
no obstacle
remained.”***

THE ROAD TO HIM

The 14 premises of the method I have created are largely based on Sufism. In fact the first premise says: THIS METHOD DOES NOT WORK! Because for the arrival of love, mystery and the internal transformation nothing works. One of the most important referent Sufi masters, the poet Hakim Sanai wrote: "We try to reason our walk towards him, but IT DIDN'T WORK. The reason led us to the door, but it was his PRESENCE that made us ENTER.

The love, the heart, the mystery, is not a goal or objective, it is a reality intrinsic, therefore if we want to get there we will travel along a road that has a turning point, when you get to the door you can no longer continue, because I don't know comes to HIM; It is time to leave the reason, to leave the past behind, to let go of the control and throw overboard all cargo of conclusions we have reached throughout life, because in the heart nothing that is not inherent with being being pure, clean, immaculate can enter.

Nothing rational has the possibility of working the moment we meet with the mystery, because everything that belongs to mystery of life is irrational, and everything that gives meaning to life comes from surrendering to the irrational. That is why

Hakim Sanai wrote on that first page of the book The walled garden of truth: "The moment we SURRENDER no obstacle will remain."

It is the text on which the first of the nine training modules of the Conscious School is based on: SURRENDER.

Surrender, dedication, put ourselves to disposition, open the heart, stop searching, stop all action to receive, silence our minds to listen or simply... TRUST! Just one word of tremendous power, a divine verb that is used in our Conscious School as an entheogenous WORD, that has the power to transform from the inside, which leads to the comprehension of who we are and all that we live for to restore harmony and reconcile with the world, with others, with existence. This is the mystical experience: if someone trusts in you, love arises; towards yourself and to whom is trusting you. This is the spiritual path: if someone loves you, trust arises; towards you and towards the one who loves you. This is the path of Sufi. The one I am teaching around the world through the Conscious School: LOVE THROUGH TRUST AND TRUST THROUGH OF LOVE.

Monthly Mystical Encounter in Madrid

EMMMA *EMMMA · Born in lockdown*

The Mystical Encounters are encounters that bring people from all over the world together, where we delve into themes of life and the human being with an approach that generates a spiritual connection.

Mystical Encounters are encounters with a master of the modern era, in a conscious community also of the modern era... an encounter of beings and like-minded people, united by the same passion: the encounter with the truth within a spiritual field that contains, supports and inspires. But it is a truth that is not told by a master nor is it his property, but it is innate because it is within each of us.

In this encounter of seekers we are clearing the way of the lies that until now invaded us so that what our soul longs for can come to us.

MYSTICAL SPIRITUAL RETREAT

with Alverto
and Elian Varela

In this retreat, we propose an one of a kind approach related to the human condition and the divine factor. A developed theory by Alverto from practice in himself, since he was in prison for 14 months, which allowed him to deepen on the internal walls, and in addition to the observation in thousands of people who have passed through his retreats, who are enslaved in psycho emotional situations without being able to see the jail where they live in, or without being able to leave it.

In our Virtual Classroom Alverto summarizes in just 47 minutes the approach of Transcendent Psychology, affirming that the conditioning implanted in the human being allows to create a personality that in principle represents a mask or lie with which each person presents himself in society, but in reality this is the tip of the iceberg of the profoundness of your authentic self. This does not mean that the inner and pure being is an extension of the personality but exactly the contrary, Alverto affirms what so far no one had discovered, "that the conditioning we project onto others reflects that inside there is an essence diametrically

opposite to what pretends to be the self" this revolutionary affirmation can lead us to comprehend the absurd need to attack the self or wanting to kill the ego to be spiritual or transcended, but that external mask is giving clues as to how we are inside if we could see it as a negative that should be revealed to show what it truly is and brings with it. As if it were an undiscovered treasure.

The rejection of the self, the ego, the personality has been playing tricks on us, because by wanting change, modifications or improving what we are believing to be, we are rejecting it, attacking it, judging it... an attitude that prevents us from seeing it as a gateway to the interior.

Transcendence starts from the base of the perfection of what we have been given, how we were born and how we seem to be, and from that unconditional acceptance we can start revealing that negative and begin to see the authentic image of our Being.

PROGRAM of topics as controversial as confronting

- Transcendent Psychology, beyond the limited possibilities of the self
- The original cause of the internal search in the human being.
- The psychotherapeutic context of the spiritual leap.
- Self-help – Self-knowledge, Self-realization and Self discovery.
- Social movements towards freedom: New Age, environmentalism, activism and shamanism.
- Psychological, philosophical and esoteric schools that prepare the path of spirituality.
- The mystical gaze, beyond the mind, emotions and ideologies.
- The proposals of therapists, healers and masters for humanity.
- The relationship disciple-teacher, client-consultant, student – teacher, seeker – mystic.
- Use of entheogens and psychedelic approach. Substances that guide towards the light.
- Altered, modified and expanded states of consciousness and illumination.
- The undifferentiated nature of the human essence; we are not good or bad, we are a possibility of being and flourishing.
- The phenomenon of numbness comes from the purity of the consciousness that chooses to fall asleep before assuming the human reality.
- The therapeutic and spiritual paths are designed by the mind to take us back to the same old jail.
- The awakening of consciousness happens in the first place by realising the master who bought us and who dominates us.
- The guide of the conscience to get out in freedom, in the process of awakening, is trust and love.
- External prisons collapse when the internal master dies. It is the possibility of freeing ourselves from ourselves.
- Consciousness is an algorithm that radiates light, and that is looking for those who want to free themselves.
- The impossibility of doing anything to free ourselves. The path of surrendering.

Introduction about the nature of human potential. About the mind, essence, conditioning and the possibility of freeing ourselves from what we think we are.

Do you feel like taking this quantum leap?

The end of the years arrived, the end of many stages and very possibly one more cycle of life. Today we bring a message for you, given that you have started a process of inner evolution and we have seen it in you, we want to tell you that it is possible to continue life from consciousness and in trust after taking such an important decision.

To support this precious process of inner evolution, we open the doors of the international headquarters of the BelnCLUB Lifestyle & Community in Marbella. This step means opening yourself to receive the best of us as a school, organisation and movement, it challenges us to welcome you, to attend you, to support you and to be with you step by step to move towards a personal development and awareness that will accompany you all your life, beyond us. We have all the human technology, experience and spiritual capacity to support you.

Beyond Inner School is a study center that makes it possible for you to enter a universe of personal and professional possibilities. In the upcoming training encounters and deepening cycles, we offer a unique opportunity to meet the latent need of our students: to explore the conscious use of themselves, and the tools that we use for this purpose.

Beyond Inner Global Movement is a movement towards potentiality, therefore in every movement you make towards your inner Being, you will go from being a seeker to opening yourself to the possibility of being found by the memory of your essence.

Our house has a large activity room where we welcome groups of up to 80 people with mattresses, yoga mats, cushions, blankets, video projector, screen and a spectacular sound system. Also there is a second room ideal for meetings of up to 25 people, suitable for deep and therapeutic dialogues or work meetings. We have 2 kitchens with everything necessary to prepare and consciously nourish those coming in large groups. The house has a huge garden from which you can hear the waves of the waves of the sea, and the wind. Special for meditation and simply being.

THE AWAKENING OF CONSCIOUSNESS

Utopia, reality or accident?

I would have liked to never do this Conscious School module. But the moment arrived. It's been almost two years since I gave the last module 4, COMPREHENSION, and I decided to stop with that training and to focus on THE BIG LEAP, which is the preparation to continue the process without self-deception, and to deepen in ourselves, because from module 5 THE AWAKENING OF CONSCIOUSNESS, I knew that it would complicate the process for all who would participate, because it is the most the most challenging point, to activate the consciousness and to leave behind so many years or lifetimes of dreaming, to look to the future, the real possibility of flourishing.

For me it is a great challenge to offer this retreat, as exciting as it is confronting, as enriching as it is clarifying.

I am proposing a utopia, something that can not easily be done, but there is a real possibility of achieving it. The difficult is not impossible. The impossible is something that takes a little longer. The individual and collective awakening, together with the transformation of humanity, is one of the many possibilities we have; some of us are achieving it in different ways and rhythms, many others are not. There are two great leaps in the evolutionary process of the consciousness within a human, one is between being asleep and awakening; the other is between awakening and the step to reach an inner transformation. In both leaps there is something in common: A PROCESS abounding in a communicative and cohesive activity. Communication transmits signals, related and Communication transmits

signals, relates and CONNECTS; cohesion creates ties between people who have the same attraction or affinity and UNITE. They are two phases of the same phenomenon; connecting is the beginning and uniting is the end. We are in a world that has never before been so communicated, but so little cohesive. News flies at the speed of light, what happens anywhere reaches the farthest corner of the planet in seconds. We have never had the opportunity to connect as we do now, but communication does not guarantee cohesion. When there is a bond of cohesion, there is a deep connection, and it is precisely the SENTIMENTAL CONNECTION. This is one of the premises of the new spirituality that is coming, based on the awakening, on communication, on interaction and on individual transformation, based on respect and affection.

Light in the Darkness

*Illusion or real possibility?
The light of consciousness entering the

THE MYSTERY SEARCHES FOR LIFE, TO MANIFEST ITSELF THROUGH CONSCIOUSNESS.

“Being conscious” supposes acquiring an objectivity and a disidentification with things, with people, and circumstances, which enables us to realise that beyond what seems unpleasant, there hides the opportunity to contemplate all that exists and to comprehend it. The grace of seeing the preciousness of creation from duality, if only for an instant, is a gift enough to justify any risk of falling into the hell of unconsciousness. To be conscious of life, freedom, love, of the natural flow of existence and to come to comprehend even, that there are incomprehensible and mysterious things; surprise and marvel at the indescribable path of human beings whose life has become inexplicable.

“Only love has the power to transform everything.”

□ Alverto Varela

Somos un grupo de personas que hemos decidido compartir la vida y nuestras experiencias juntos en e are a group of people who have decided to share life and our experiences together, in an environment perfectly designed by us, in order to be able to observe ourselves, and observe aspects of everyday life. We have come here with endless questions about life, about relationships, about ourselves. Who am I? What am I doing here? Why do I have the relationships I have? Among others. We support and accompany each other

during our processes of inner evolution, and probably you will ask yourself: what is inner evolution?

How I am experiencing it is to take a leap and a vote of trust towards what my heart feels, it is to discover life for myself and all that it contains, and realising that nothing is what it seems to be and that if I go into the depths of my Being I will be able to find a priceless treasure, my potential. Making the conscious decision to let go of beliefs, ideas that came from my family, society and the culture in which I grew up, is like unlearning everything I think I know in order to finally discover what really IS in my reality.

That is what we dedicate

ourselves to, to sharing, to enjoying together, recognising that

each one in their individuality is divinely perfect, at their own pace and with their openness clearing the way to naturally conquer an inner place that allows us to face the different situations that arise in our daily life with a pure, clean and compassionate gaze.

Our spaces are designed so that encounters arise with spontaneity, an embrace, a look. Everything that happens on a daily basis has a touch of authenticity, creativity, and why not recognise it, a touch of madness...

madness that
cures all.*

Entering, and being part of an energetic field in which, between the fusion of the human and the divine, the miracle of healing becomes possible. Through the other I can see myself, and I can also see you. The experience for more than a year has allowed me to experience things that at other times in my life I never had the opportunity to experience... honest dialogues, to see things in multiple ways from love and authentic authority. Experiencing the surrender from a genuine place that I feel in this moment comes from my Being, and step by step I am comprehending where I am and the wonderful gift that life has given me, the gift of belonging to a movement, an organism, I prefer to call it a family, that is at the service of a greater purpose, something that is impossible for the mind to know or to understand. An attracting force, magnetic to what I dare affirm is Love, transforming everything in its path, supporting me in the recognition of my essence, and in letting go of what I am not.

We have decided to share the experience of life together. We have decided to get up every morning in magical houses, in which no day is the same, in which mystery constantly visits us and suddenly we see things that we did not see before, of ourselves, of what surrounds us. We have decided to shorten the distance to hug each other, to see each other and step by step what is not ceases to be, welcoming what is, what is authentic, original and naturally, that which arrives, brings with it creativity, enjoyment, richness, transparency. We have decided to go beyond

what we were told to discover for ourselves our truth and live through it. Being happy is a decision, an attitude, enjoying a sunrise, a delicious meal, a look, the warmth of a bonfire, a kiss, living is a decision that is made with the heart HERE AND NOW. Dare to know how people from different parts of the world live, with a common feeling, who have found themselves at the same point of the road to recognize each other, accompany each other and share.

MUSIC. IMAGES. WORDS.

LET IT ARRIVE

**Listen, feel and meditate.
The power of love
to liberate.**

These audiovisual productions, from 15 to 60 minutes in length, integrate three components: melodies, reflective texts with Alverto's voice, and images, which, when harmoniously united, produce an effect of deep connection with the human aspects that characterize us. It is a new reflective and confrontational audiovisual genre that takes us deep to show us our inner reality, in a clear and direct way. The impact of the transgressor harshly confronts programmed minds and successfully surprises the consciousness of those who dare to listen.

The Dance and Entheogenic Expression workshops are taught by Dai Fontán, Biodanza teacher, and co-created by the research and development team of the Inner Evolution® method led by Alberto José Varela. The Triangular Space immersive experience is a proposal for introspection, which in a workshop format, consists of meeting people who give themselves to a process of compression and expression through intertwined dances and messages of consciousness. The field that is produced creates the optimal conditions to free the body from the domination of the mind, unblock emotions, and reconnect with what is most authentic, overcoming taboos, shyness and shame. Allowing the essence to shine and manifest.

This workshop lasts approximately 2 hours, it is meticulously designed so that an internal process takes place that starts from the movement of the body but that affects the deepest levels. It can be done before an entheogenic session with Ayahuasca, as a preparation, or it can be participated as a workshop that in itself has the power to expand one's understanding.

INTELLIGENCE LANGUAGE CONSCIOUSNESS

www.academiaalverto.com
expansion@academiaalverto.com

The evolution of human intelligence is due to the appearance of a complex language. The human capacity to realize that we exist within a universe and to be able to locate ourselves in space and time has been the beginning of the evolution of consciousness in an organic context.

The conscious use of the power of language allows us to access the unconscious to deactivate addictive behaviors, destructive impulses, mental conditioning that limits us.

At the ALVERTO ACADEMY we develop a type of approach based on language, for this we delve into the statements of the EVOLUTIONARY THEORY OF LANGUAGE, created by Alverto Varela.

“ When
intelligence,
which was already
in me, was united
with language, then
the consciousness
was born of myself.

PHRASES FOR REFLECTING

Who is she?

SHE IS THE KEY TO EVERYTHING IN MY LIFE. But I Had To Get To Know Her In Depth, Open Up And Surrender Myself To Her Possession. HAVING KNOWN HER AWAKENED MY CONSCIENCE, BROUGHT ME SUCCESS, AND MADE ME DISCOVER THE SECRETS TO CREATE EVERYTHING THAT ALLOWS ME TO TRAVEL, SHARE, ENJOY AND LIVE THE WAY I WANTED TO LIVE.

I want to introduce her to you,
she accompanies me everywhere,
SHE is the most loyal I have ever
met. She is...

Harmonic and serene in the face
of confusion.

A rebel and a vagabond: She
moves elegantly, does not con-
form but is she is not neurotic.
Sensible, practical, and sane.
She adapts to everything but can
get out of anything.

She accepts the limits even
though she could cross over
them.

Generous, sharing, not greedy.
Centred in herself: never com-
pares herself, never envies.
Willing to let go of her ideas and
beliefs.

Capable to give a creative re-
sponse to the now.

Disidentified: detached from
acquired knowledge.

Open to the unknown, the un-
comfortable, the insecure.

Curious to passionately emerge
herself in a theme or issue.

Daring, brave, lover of courage,
risk-taking.

Willing to share everything. Her
magic is in the language.

Flexible and with great plasticity
in their movements.

Accepting of her genetics, her
body, her family inheritance, all of
her past.

Influential and permeable: adim-
its, not afraid to let in the new.

Has direction and clarity in her
search.

Persistent, insistent, continues in
her evolution.

Honest, pure, impeccable.

Respects Freedom, her freedom
and that of everyone.

Humble, ready to give up and to
surrender herself.

Always ready to listen.

If you allow, she inevitably leads
you to love and trust.

It's the INTELLIGENCE.. which
is not the mind, rather all of the
contrary, because it is not the ac-
cumulation of information, but a
pure and spontaneous openness
to everything.
