

Colori

Colors / Couleurs

IT

Nel mondo dell'outdoor design, **il colore non è un semplice dettaglio estetico**: è uno strumento espressivo, un ponte tra funzionalità e identità. Avere a disposizione una vasta gamma di colori per la personalizzazione delle strutture da esterno, che si tratti di pergole, pergole bioclimatiche, coperture o gazebo, significa offrire molto più di una scelta cromatica: significa garantire libertà creativa, armonia con l'ambiente circostante e coerenza con lo stile architettonico.

In un contesto sempre più attento al design e alla valorizzazione degli spazi, **il colore diventa protagonista** nella definizione del carattere

EN

In the world of outdoor design, **color is not just an aesthetic detail**: it is an expressive tool, a bridge between functionality and identity. Having a wide range of colours available for customizing outdoor structures, whether pergolas, bioclimatic pergolas, roofs or gazebos, means offering much more than a choice of colours: it means guaranteeing creative freedom, harmony with the surrounding environment and consistency with the architectural style.

In a context increasingly attentive to the design and enhancement of spaces, **color becomes the protagonist** in defining the character of a structure. Whether you want to create a sober and elegant,

FR

Dans le monde du design outdoor, **la couleur n'est pas un simple détail esthétique**: c'est un outil expressif, un pont entre fonctionnalité et identité. Disposer d'une large gamme de couleurs pour la personnalisation des structures extérieures, qu'il s'agisse de pergolas, de pergolas bioclimatiques, de chapiteaux ou de tonnelles, signifie offrir beaucoup plus qu'un choix chromatique: cela signifie garantir une liberté créative, harmonie avec l'environnement et la cohérence avec le style architectural.

Dans un contexte toujours plus attentif au design et à la valorisation des espaces, **la couleur devient protagoniste**

di una struttura. Che si desideri creare un ambiente sobrio ed elegante, vivace e contemporaneo, oppure perfettamente integrato nella natura, la disponibilità di una ricca palette cromatica, come quella che Sprech mette a disposizione dei suoi clienti, permette di interpretare e realizzare progetti unici. La scelta del colore influisce sulla percezione degli spazi, sulla luminosità e persino sull'umore di chi li vive.

Sprech offre un'ampia varietà di finiture e tonalità che si compone di oltre 40 varianti colore per strutture e membrane tessili e particolari palette di colori in Special Editions per rispondere con precisione alle specifiche esigenze tecniche di progetto. La nostra ricerca sui colori è inoltre orientata a seguire le tendenze dell'architettura, motivo per cui alcune delle nostre Colours Special Edition, come Mocha Mousse, sono ispirate dal Pantone

lively and contemporary environment, or perfectly integrated into nature, the availability of a rich color palette, such as that Sprech offers its customers, allows you to interpret and realize unique projects. The choice of color affects the perception of spaces, brightness and even mood of those who live in them.

Sprech offers a wide variety of finishes and shades that consists of over 40 color variations for textile structures and membranes and particular color palettes in Special Editions to precisely meet the specific technical requirements of the project. Our colour research is also oriented towards following architectural trends, which is why some of our Colours Special Edition, such as Mocha Mousse, are inspired by the Pantone

dans la définition du caractère d'une structure. Que vous souhaitiez créer un environnement sobre et élégant, vive et contemporain, ou parfaitement intégré dans la nature, la disponibilité d'une riche palette chromatique, comme celle que Sprech met à disposition de ses clients, permet d'interpréter et de réaliser des projets uniques. Le choix de la couleur affecte la perception des espaces, la luminosité et même l'humeur de ceux qui les vivent.

Sprech offre une grande variété de finitions et de nuances qui se compose de plus de 40 variantes de couleurs pour les structures et membranes textiles et des palettes de couleurs particulières dans les éditions spéciales pour répondre avec précision aux exigences techniques spécifiques du projet. Notre recherche de couleurs s'oriente également vers le suivi des tendances architecturales, c'est pourquoi certaines de nos Couleurs Édition Spéciale, comme Mocha Mousse, s'inspirent du Pantone de l'année.

Starscreen

IT

Starscreen è un innovativo tessuto, unico nel suo genere che mostra una gradevole mano tessile, non essendo spalmato con PVC, che, unita alla sua stabilità dimensionale, lo rende sempre perfetto nel suo aspetto. Permette il passaggio della luce e, grazie al suo particolare filo, ne dona una piacevole diffusione, oltre ad assorbire e a respingere fino al 97% del calore procurato dall'irraggiamento solare. Si tratta di un tessuto ignifugo, idrorepellente e riciclabile che assicura trasparenza dall'interno mentre oscura la vista dall'esterno verso l'interno. Questo tessuto permette di ridurre l'utilizzo dell'aria condizionata e della luce artificiale.

EN

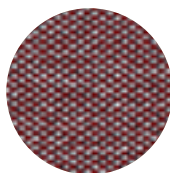

Starscreen is an innovative fabric, unique in its kind, that shows a pleasant textile hand, not being coated with PVC, which, combined with its dimensional stability, makes it always perfect in its appearance. It allows the passage of light and, thanks to its particular thread, gives a pleasant diffusion, in addition to absorbing and rejecting up to 97% of the heat caused by solar radiation. It is a fireproof, water-repellent and recyclable fabric that ensures transparency from the inside while obscuring the view from the outside to the inside. This fabric allows to reduce the use of air conditioning and artificial light.

FR

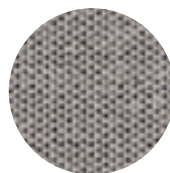

Starscreen est un tissu innovant, unique en son genre, qui a un toucher textile agréable, car il n'est pas enduit de PVC, ce qui, combiné à sa stabilité dimensionnelle, le rend toujours parfait dans son apparence. Il permet le passage de la lumière et, grâce à son fil particulier, donne une diffusion agréable, en plus d'absorber et de rejeter jusqu'à 97% de la chaleur provoquée par le rayonnement solaire. C'est un tissu ignifuge, déperlant et recyclable qui assure la transparence de l'intérieur tout en obscurcissant la vue de l'extérieur vers l'intérieur. Ce tissu permet de réduire l'utilisation de la climatisation et de la lumière artificielle.
