ABOUT OUR **CURRICULUM**

“Compass is such a great resource for solid truth and Biblical foundations that my kids will be well equipped to face any challenges that question their beliefs!”

— HOLLY

ABOUT OUR **APPROACH**

For the past 15 years, Compass Classroom has developed video materials to help students think Biblically about the world around them. As a father of three kids myself, I'm well aware of the ideas spreading like a darkening fog through our culture. But I'm also aware of the power of a Biblical worldview to dispel that darkness.

Our approach to making curriculum is like that of an artisan craftsman: we value quality over quantity. Each of our products has been carefully designed to accomplish its educational goals. We believe education should be interesting, engaging, and fun for students.

Thousands of homeschool families and Christian schools already use our curriculum each year, but we're constantly hearing people say they've just discovered us. If you are new to our products, I would encourage you to go to MyCompassClassroom.com and try out everything for free for two weeks. We have a lot of interesting products; I feel sure we have something that will help you on your homeschool journey.

We are pleased to be able to serve you and your family.

Most sincerely,

Thomas Purifoy, Jr.
Father, Teacher, and Founder

WHAT PEOPLE ARE SAYING

VISUAL LATIN

“Without any knowledge of Latin myself, Visual Latin has made teaching Latin to my children not only possible, but simple and even fun.”

“It is a wonderful feeling to hear your child ask, ‘Can we do Latin yet?’”

“This is my 21st year of homeschooling. I have tried a whopping 5 different Latin programs and have FINALLY found one that I love.”

WORD UP!

“The ease of this program for mommas and the fun and engaging nature of it for the kids makes it a favorite in our house!!!”

“Even my 5-year old enjoys watching the videos and has picked up some new words!”

AMERICAN HISTORY

“I have been homeschooling for 24+ years, and I'd have to say that American History was the BEST curriculum I've ever taught!”

“I love this curriculum, and I love the way Mr. Raymond presents it. It is from a Christian worldview, and is the most interesting history course I've ever sat under.”

“History comes alive in this video curriculum.”

MODERNITY

“My son loves the history, learning from original documents and seeing the role worldview has played in the events of the work, and learning that ideas have consequences.”

“I love it! It makes you think, it helps you understand history, and it debunks revisionist history.”

ANTIQUITY

“Excellent content. Love how customizable it is for each family to tailor the workload!”

“My son (13) comes to me to tell me the things he's learning, and I like what I hear!”

CIVICS & AMERICAN GOVERNMENT (LIVE)

“5 stars! Mr. Raymond is engaging, knowledgeable, and holds the students accountable. The online time added an opportunity to hear from other students and Mr. Raymond himself. Very pleased!”

CREATIVE WRITING

“[My son] really enjoyed the videos and he said it gave him a whole new insight to writing.”

“This material has exceeded my expectations and enhanced our study of literature.”

GRAMMAR FOR WRITERS

“Finally, a biology curriculum that teaches students to look first at the aspects of the Creator of life in order to better understand the organisms He has created.”

“Exactly what I’ve been wanting for my kids.”

ECONOMICS FOR EVERYBODY

“I can do nothing but give the highest recommendation for this study.”

“I have to admit...THIS program is what all schools need to use.”

LOGIC

“Our family enjoyed this series together. Very practical applications for making the parables of Jesus come alive to us today.”

HOW SHOULD WE THEN LIVE?

“Loved it! Great opportunities for discussion.”

“Awesome! Kept three teen boys engaged and definitely sparked some amazing conversation. Glad we got to enjoy it together.”

CREATION SCIENCE

“We loved this. The explanations were thorough, scientific and made sense. I liked that some words popped up on the screen to use as vocabulary words. This was one of my favorites so far.”

“We watched the videos and discussed. It was helpful for all my children to see the flaws in evolutionary theory and build up their faith in God's Word.”

FILMMAKING FROM THE FIRST DIRECTORS

“It is my favorite subject this year. I am learning a ton and having just as much fun filming.”

COMPASS MEMBERSHIP

“The most useful part of the Compass Membership to me is how easy it is to pick up a new subject and understand it.”

- ✓ Requires less direct memorization.
- ✓ Teaches French grammar by usage.
- ✓ Develops French comprehension quickly and naturally.
- ✓ Creates greater familiarity with the sounds and cadence of French.
- ✓ More enjoyable than the traditional way of learning French.

- ✓ **Listen:** A native French speaker reads the same section Dwane just covered.
- ✓ **Repeat:** Students have a chance to repeat what they are hearing from the native speaker.

SPANISH 1

LIVE CLASS

Dwane Thomas once again presents his popular live Spanish classes. Students wanting a high school foreign language will get practice reading and speaking Spanish each week.

In Spanish 1, Dwane will take students through most of *The Magic Key to Spanish* by Margarita Madrigal. Students will learn all of Spanish grammar. This is a rather intense class, though the book makes the course seem somewhat easy. There are 45 chapters in the book.

In the beginning, with the easier chapters, he will move at the pace of several chapters weekly. Students will read the chapters, and then will come to class to discuss what they have read. Everyone will practice speaking Spanish in class. There will be opportunities for questions and discussion. Modernity

If you've traveled across the New World in Dave Raymond's American History course, you'll want to continue the journey in this exciting addition to his history cycle. Under Dave's instruction, students will learn how to apply a Christian worldview to the major ideas, people and movements of our current age. Modernity covers world history from 1600 to the early 21st-century.

"I just asked my daughter taking Modernity to review it. Her reaction, 'I love it! It doesn't describe history as just dates and events. It gives context as to why events took place, and the people behind them. Before this, I thought history was boring. I look forward to working on Modernity. It's my favorite class.'"

A must-have series for those wanting their children to have a Biblical worldview of history.

Dave Raymond's Christendom

Dave Raymond completes his four-year history cycle in a series spanning the resurrection of Christ to the 1600s. He traces the growth of the church through periods of tremendous persecution, flowering, and reformation. Along the way, he relates the compelling stories of the emperors, monks, barbarians and battles of the medieval age.

“My daughter loves how what she is learning in her class directly relates to what we are learning in our Bible studies. She also loves discussing how the class lectures presents the Bible as history and not a story. It has led to many interesting discussions.”

CALCULUS

FOR EVERYONE

***Calculus for Everyone* teaches calculus.** But it also represents one of the first tangible steps in recent years at reunifying STEM (Science, Technology, Engineering, Math) with the liberal arts. Pulling from over a decade of experience teaching calculus, Dr. Mitch Stokes presents the mathematics of change in an extremely effective way for anyone with a first-year course in algebra in this new video curriculum.

“‘Show, don’t tell’ is such a helpful rule of thumb—for writers, for teachers, for boastful teenage boys. This book is my own attempt to show what I’ve been telling people for fifteen years: that there’s a better way to teach mathematics. And though the book is specifically about calculus, its point is general.”

PHILOSOPHY: CONSEQUENCES OF IDEAS

WITH DR. R. C. SPROUL

Ideas have consequences, and worldviews matter. Expose your student to history's most powerful ideas and the men who developed them. We've put this demanding high-school elective course together because of the rise of ideology over truth in the public square, and because we knew the best way for students to get a hold of powerful ideas is to send them to the actual sources with a bit of background.

"The way you combined the video lectures with a text and incorporated a deeper understanding of the video lectures is a wonderful way to teach the material. I can't wait to use this with my kids when they get a bit older, but I am excited about using it for myself before then!" — Lacey

HOW SHOULD WE THEN LIVE?

Francis A. Schaeffer

This is the apologetics and intellectual history series every young Christian should know. Francis Schaeffer—perhaps the most influential Christian thinker in the last 100 years—clearly explains the basics of worldview thinking in this combined book and video series. Filmed at over 100 locations in eight countries, it is a spectacular presentation of the flow of history, ideas, and cultural analysis from a Christian perspective.

The fact that the series is nearly 50 years old makes it even more valuable: many of his predictions have come true with startling accuracy. This lends great credibility to his Biblical and cultural insight.

“Francis Schaeffer is amazing!” — Silkie

FITTING WORDS

Classical Rhetoric for the Christian Student

What is rhetoric and why do we need it? The short answer is that God created us as people of words, and He wants us to use them in a fitting way. “A word fitly spoken is like apples of gold in settings of silver” (Proverbs 25:11). Rhetoric is the art of using words well, and is measured by our ability to teach men the truth, to move men to goodness, and to delight men with verbal beauty. Effective speaking and writing is informative, powerful, and elegant.

Fitting Words instructs students in the art of classical rhetoric, providing them with tools of communication that will equip them for life. Intended for high school students and above, *Fitting Words* is a complete curriculum covering a year of instruction. In this course, students will learn the theory of using words well, study the greatest speeches of all time, and practice the skills of effective oratory.

“The supplementary materials...will enable a parent with no experience in rhetoric to teach this well, but the real key for homeschoolers will be the videos that go along with the text and workbook.” — Wes
