THE NEW LUXURY

WHAT CLIENTS ARE STILL INVESTING IN.

Across the professional beauty industry, we are seeing a clear shift toward more considered consumer behaviour.

Clients continue to invest in beauty and wellbeing, but with greater intention, higher expectations and a stronger focus on value, trust and experience.

CLIENTS ARE BECOMING MORE INTENTIONAL.

Purchases are slower, but loyalty is stronger when trust is established.

EXPERIENCE IS BECOMING THE DIFFERENTIATOR.

Consumers are investing in spaces, rituals and treatments that feel personalised and emotionally valuable.

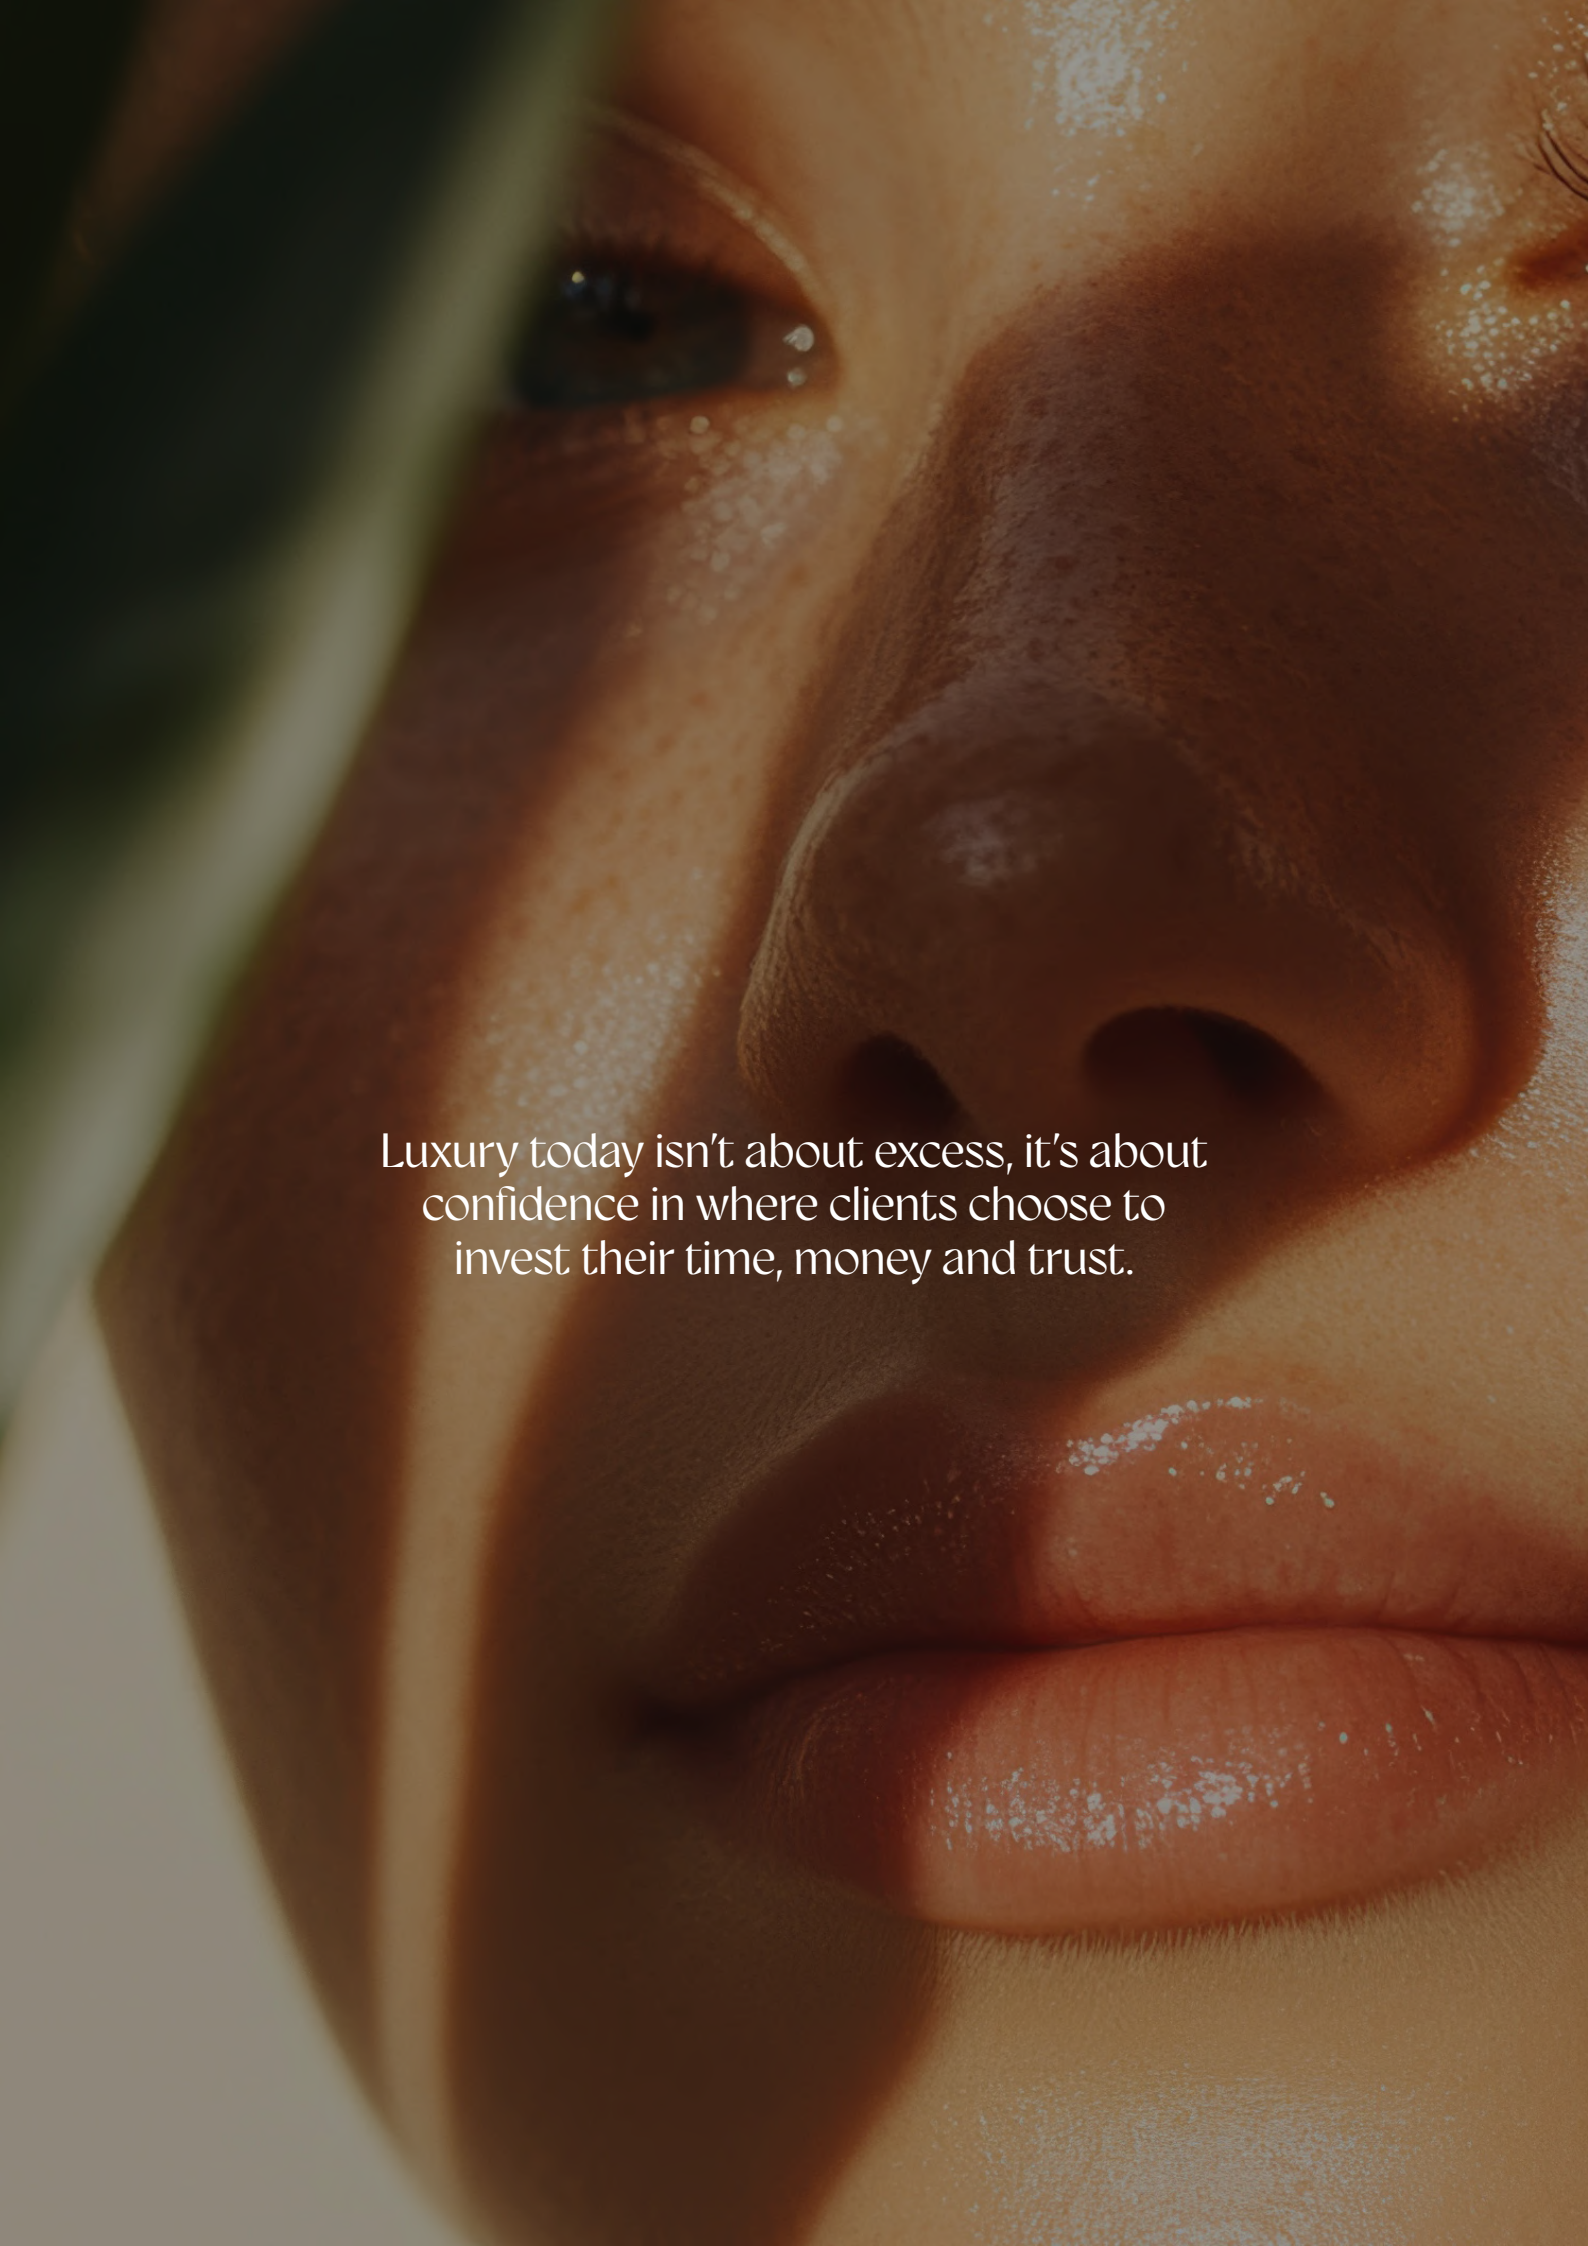

QUIET CONFIDENCE IS OUTPERFORMING LOUD MARKETING.

The businesses building long-term growth are leading with consistency, education and credibility.

CONSUMERS ARE SEEKING FEWER, BETTER PRODUCTS.

Simplified routines, trusted recommendations and visible results are driving purchasing decisions.

Luxury today isn't about excess, it's about
confidence in where clients choose to
invest their time, money and trust.

MINERAL FOUNDATION

NEW

Source Marine

THE HYDRATION BENCHMARK FOR MODERN SKIN

Dehydration is one of the most common yet overlooked skin concerns in clinic. Regardless of skin type, age or condition, most clients present with some level of water loss, leaving skin dull, fatigued and compromised.

Source Marine is Thalgo's answer to this universal concern. A complete hydration range designed to replenish, rebalance and restore the skin's natural water reserves, delivering immediate comfort and long-term skin health.

Powered by concentrated sea water rich in trace elements, a mineral-rich marine spring water, and Thalgo's patented Micronised Marine Algae Complex, the range works to remineralise the skin and strengthen its natural defences.

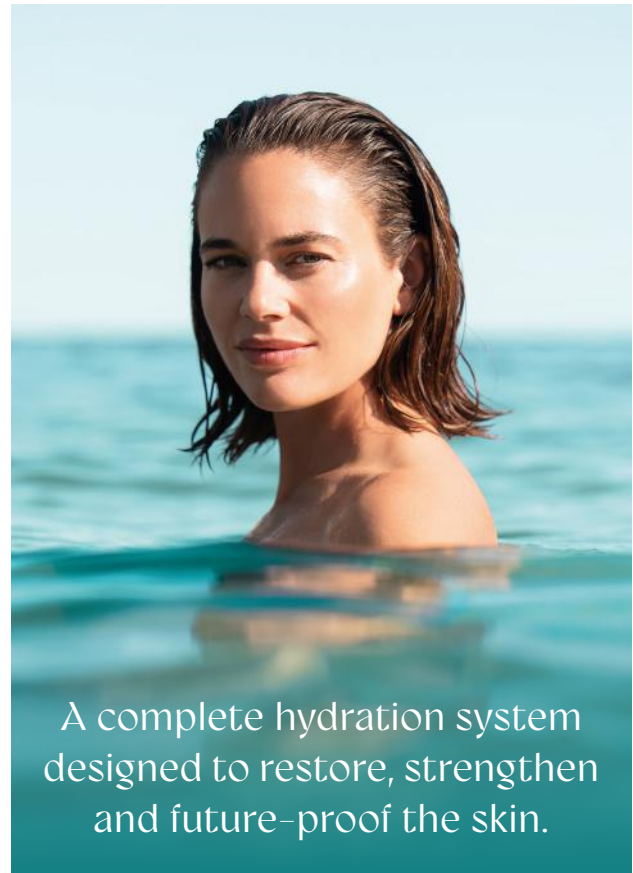

Hydration, redefined

This is more than surface-level moisture. Source Marine works across three key levels of hydration:

- Replenishes water within the skin
- Strengthens the skin barrier to prevent water loss
- Optimises the circulation of moisture through the skin

The result is skin that feels plumper, smoother and visibly more radiant, with improved resilience over time.

Source Marine fits seamlessly into any treatment menu. It is the ideal hydration base for all clients, whether used as a standalone treatment focus or layered alongside more corrective services.

A complete hydration system designed to restore, strengthen and future-proof the skin.

IT WORKS BEST:

AS A PRE-TREATMENT PREP TO OPTIMISE SKIN CONDITION

POST-TREATMENT TO RESTORE COMFORT AND HYDRATION

AS AN ONGOING MAINTENANCE RANGE BETWEEN TREATMENTS

ALPHA-H

HIGH TIDE WATER CREAM
WITH AUSTRALIAN RIVER MINT

50ml / 1.69 fl.oz.

As temperatures drop, dehydration becomes one of the most common concerns seen in clinic. Skin can feel tight, dull and compromised, often needing both water replenishment and barrier repair to return to optimal health.

This Alpha-H pairing brings together two complementary textures to deliver exactly that.

High Tide Water Cream floods the skin with lightweight hydration, helping to replenish moisture levels and leave the skin visibly plumper, smoother and more refreshed.

Firming Collagen Repair Cream works to deeply nourish and strengthen the skin barrier, supporting elasticity while targeting dryness, fine lines and skin stress.

Together, they create a simple yet effective hydration system that addresses both surface dehydration and deeper barrier repair.

THE SKIN PROFILE

An easy recommendation across all skin types during winter, particularly for clients experiencing dehydration, sensitivity or seasonal skin changes. The pairing works seamlessly as a post-treatment routine or daily moisturising duo, helping to maintain results between visits.
