One can never go wrong with a mix of luscious greens that serve as a base for seasonal add-in stems (sold separately!) or stands beautifully on all its own. Using a blend of our luxurious artificial eucalyptus like traditional, silver dollar, and long needle leaf, we've weaved in lambs ear for a blue-green touch and other mixed greens.

Modern Orchids

Our modern & elegant orchid designs have quickly become one of our most popular, go-to designs! It's easy to see why: They're visually intriguing yet not overwhelming and boast a more contemporary feel than traditional florals. They also drop-in beautifully to a variety of different containers, making them an easy fit for any space. And, of course, we all know the best part - unlike their finicky fresh versions, these are super low maintenance and last!
