

# SERVICE & MAINTENANCE

*Single source solution for all maintenance requirements*

---

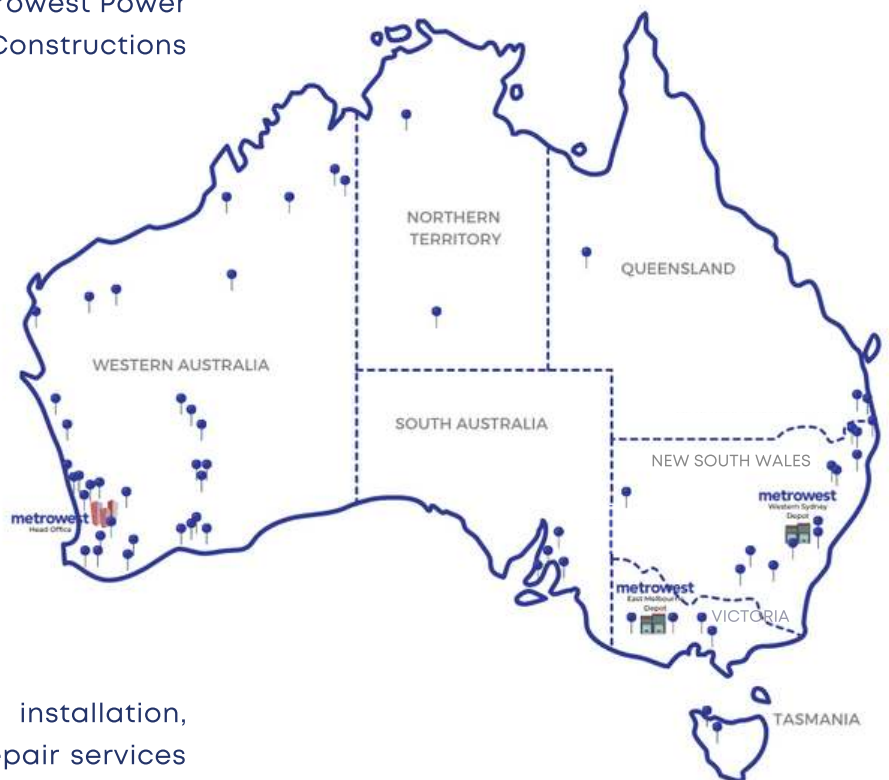

# STRONG PARTNERSHIPS LEADS TO SUCCESS

## SERVICE TECHNICIANS

with a mix of  
highly trained  
workforce  
skills

Metrowest Service (MS) is Western Australian owned, Perth based and part of the Metrowest Group. We are a merger of the service business units of our sister companies Metrowest Electrical & Communication Pty Ltd (MEC), Metrowest Power Systems (MPS), and Metrowest Constructions (MC).

- Constructions
- Electrical & Communications
- Livestock Integrated Systems
- Service & Maintenance
- Property Development
- Telecommunications
- UPS & Power Generation

Metrowest specialises in efficient installation, commissioning, maintenance and repair services to quickly resolve equipment faults and minimise business interruptions. We are proud of our strong partnerships with industry leading builders, developers, property management groups and, most importantly, employees.

### EXPERIENCED TEAM

The Metrowest team includes degree and trade qualified staff with a 'can do' attitude and industry experience.

### CUSTOMISED SERVICE

Whether you require emergency repair services or a bespoke maintenance program for your facility, we suit your requirements into our systems to ensure we are ready.

### WIDE COVERAGE

We support our clients and products 24/7, every day of the year.

## PREVENTATIVE MAINTENANCE

**You are in control.**

A planned preventative maintenance program ensures YOU ARE IN CONTROL as far as scheduling system outages at a time convenient to the business. This is far preferable to untimely and unwelcome equipment failure resulting in business disruptions and costly emergency repairs.

### ADVANTAGES:

- Maintain appearance and aesthetics
- Equipment longevity and efficiency
- Maintain a safe environment
- Reduced downtime

**YOUR PROFESSIONAL PARTNER  
FOR ASSET MANAGEMENT.**

**WE MAKE IT  
HAPPEN.**

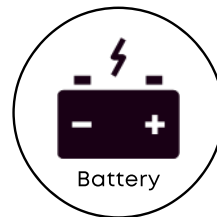

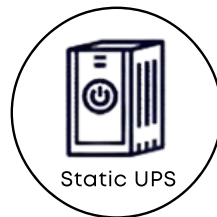

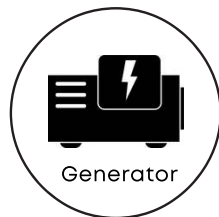

Commitment to safety is important to us and we ensure to maintain our Safety Management Plan that implements policies and procedures that put safety first.

# CRITICAL INFRASTRUCTURE

We specialise in backup power and are experts in critical care environments. Clients benefit from our 24/7 emergency call-centre and mobile fleet response team. Our customer base includes justice, health, data centres, defence, agriculture and the resources industry.
